NATIONAL AERONAUTICS AND SPACE ADMINISTRATION

48 CFR Parts 1823 and 1852

RIN 2700-AD12

Safety and Health—Alternate I to Major Breach of Safety or Security Clause

AGENCY: National Aeronautics and Space Administration.

ACTION: Final rule.

SUMMARY: This rule adopts as final, with a minor editorial change, the proposed rule published in the *Federal Register* (70 FR 33726-33727) on June 9, 2005. This final rule amends the NASA FAR Supplement (NFS) to add Alternate I to the "Major Breach of Safety or Security" clause. Alternate I deletes references to termination for default and makes other changes to be consistent with the FAR termination clauses prescribed for use with educational or nonprofit institutions performing research and development work on a nonprofit or no-fee basis, and in contracts for commercial items.

EFFECTIVE DATE: February 22, 2006.

FOR FURTHER INFORMATION CONTACT: Carl Weber, Office of Procurement, Contract Management Division, (202) 358-1784, e-mail: carl.c.weber@nasa.gov.

SUPPLEMENTARY INFORMATION:

A. Background

Since July 13, 2000, NFS has required the Major Breach of Safety or Security clause (1852.223-75) in new solicitations and contracts with an estimated value over \$500,000. The clause declares the Government's right to terminate for default in the event of a major breach of safety or security. However, contracts for commercial items procured under FAR Part 12 and certain contracts with educational or nonprofit institutions do not provide the Government the right to terminate for "default". Commercial contracts provide rights to terminate for convenience and "cause", and contracts with educational or nonprofit institutions provide the right to terminate for convenience.

NASA Procurement Information Circular (PIC 02-11) issued June 24, 2002, provided a class deviation to use an Alternate I to the clause, which deleted references to termination for default, under certain circumstances.

This final rule adds the Alternate I to the Major Breach of Safety or Security clause at 1852.223-75, eliminating the need for PIC 02-11 and the class deviation. Use of the clause with its Alternate I in contracts for commercial

items procured under FAR Part 12, and contracts for research and development work with educational or nonprofit institutions on a nonprofit or no-fee basis will be consistent with FAR termination clauses prescribed for use in such contracts. NASA published a proposed rule in the *Federal Register* (70 FR 33726-33727) on June 9, 2005. No comments were received, and the proposed rule is being adopted with a minor editorial change to 1823.7001(d)(2)(ii) that simplifies the clause prescription to require it when FAR 52.212-4 is included in a solicitation or contract. This is not a significant regulatory action, and therefore, is not subject to Office of Management and Budget review under section 6(b), of Executive Order 12866, dated September 30, 1993. This is not a major rule under 5 U.S.C. 804.

B. Regulatory Flexibility Act

NASA certifies that this final rule does not have a significant economic impact on a substantial number of small entities with the meaning of the Regulatory Flexibility Act, 5 U.S.C. 601, *et seq.*, since it only clarifies agency regulations so they are employed consistently with FAR termination provisions.

C. Paperwork Reduction Act

The Paperwork Reduction Act does not apply because the changes do not impose any new recordkeeping or information collection requirements which require the approval of the Office of Management and Budget under 44 U.S.C. 3501, *et seq.*
