

prior to liquidation of the relevant entries during this review period. Failure to comply with this requirement could result in the Secretary's presumption that reimbursement of antidumping duties occurred, and in the subsequent assessment of double antidumping duties.

Revocation of the Order

On July 12, 2005, the United States International Trade Commission (ITC) informed the Department that the revocation of the antidumping duty orders on stainless steel sheet and strip from France would not likely lead to continuation of recurrence of material injury to an industry in the United States within a reasonably foreseeable time. Accordingly, the Department revoked this antidumping duty order effective July 27, 2004. Therefore, cash deposits of estimated antidumping duties are no longer required. We have instructed CBP to terminate suspension of liquidation and to liquidate all entries of subject merchandise that were suspended on or after July 27, 2004, without regard to antidumping duties. *See Certain Stainless Steel Sheet and Strip in Coils from France and the United Kingdom; Final Results of Sunset Reviews and Revocation of Antidumping Duty Order*, 70 FR 44894 (August 4, 2005).

SUPPLEMENTARY INFORMATION: Chapter 19 of the North American Free-Trade Agreement ("Agreement") establishes a mechanism to replace domestic judicial review of final determinations in antidumping and countervailing duty cases involving imports from a NAFTA country with review by independent binational panels. When a Request for Panel Review is filed, a panel is established to act in place of national courts to review expeditiously the final determination to determine whether it conforms with the antidumping or countervailing duty law of the country that made the determination.

Under Article 1904 of the Agreement, which came into force on January 1, 1994, the Government of the United States, the Government of Canada and the Government of Mexico established *Rules of Procedure for Article 1904 Binational Panel Reviews* ("Rules").

These Rules were published in the **Federal Register** on February 23, 1994 (59 FR 8686).

A first Request for Panel Review was filed with the Mexican Section of the NAFTA Secretariat, pursuant to Article 1904 of the Agreement, on January 20, 2006, requesting panel review of the final determination described above.

The Rules provide that:

(a) A Party or interested person may challenge the final determination in whole or in part by filing a Complaint in accordance with Rule 39 within 30 days after the filing of the first Request for Panel Review (the deadline for filing a Complaint is February 20, 2006);

(b) a Party, investigating authority or interested person that does not file a Complaint but that intends to appear in support of any reviewable portion of the final determination may participate in the panel review by filing a Notice of Appearance in accordance with Rule 40 within 45 days after the filing of the first Request for Panel Review (the deadline for filing a Notice of Appearance is March 6, 2006); and

(c) the panel review shall be limited to the allegations of error of fact or law, including the jurisdiction of the investigating authority, that are set out in the Complaints filed in the panel review and the procedural and substantive defenses raised in the panel review.

Dated: February 1, 2006.

Caratina L. Alston,

United States Secretary, NAFTA Secretariat.
