Extension of Tolerances for Emergency Exemptions (Multiple Chemicals)

AGENCY: Environmental Protection Agency (EPA).

ACTION: Final rule.

SUMMARY: This regulation extends time-limited tolerances for the pesticides listed in this document. These actions are in response to EPA's granting of emergency exemptions under section 18 of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA) authorizing use of these pesticides. Section 408(l)(6) of the Federal Food, Drug, and Cosmetic Act (FFDCA) requires EPA to establish a time-limited tolerance or exemption from the requirement for a tolerance for pesticide chemical residues in food that will result from the use of a pesticide under an emergency exemption granted by EPA.

DATES: This regulation is effective December 20, 2006. Objections and requests for hearings must be received on or before February 20, 2007, and must be filed in accordance with the instructions provided in 40 CFR part 178 (see also Unit I.C. of the SUPPLEMENTARY INFORMATION).

ADDRESSES: EPA has established a docket for this action under docket identification (ID) number EPA-HQ-OPP-2006-0942. All documents in the docket are listed on the regulations.gov website. Although listed in the index, some information is not publicly available, e.g., Confidential Business Information (CBI) or other information whose disclosure is restricted by statute. II. Background and Statutory Findings

EPA published final rules in the **Federal Register** for each pesticide listed in this document. The initial issuance of these final rules announced that EPA, on its own initiative, under section 408 of FFDCA, 21 U.S.C. 346a, as amended by FQPA (Public Law 104-170) was establishing time-limited tolerances.

EPA established the tolerances because section 408(l)(6) of FFDCA requires EPA to establish a time-limited tolerance or exemption from the requirement for a tolerance for pesticide chemical residues in food that will result from the use of a pesticide under an emergency exemption granted by EPA under FIFRA section 18. Such tolerances can be established without providing notice or time for public comment.

EPA received requests to extend the use of these chemicals for this year's growing season. After having reviewed these submissions, EPA concurs that emergency conditions exist. EPA assessed the potential risks presented by residues for each pesticide. In doing so, EPA considered the safety standard in section 408(b)(2) of FFDCA, and decided that the necessary tolerance under section 408(l)(6) of FFDCA would be consistent with the safety standard and with FIFRA section 18.

The data and other relevant material have been evaluated and discussed in

the final rule originally published to support these uses. Based on that data and information considered, the Agency reaffirms that extension of these time-limited tolerances will continue to meet the requirements of section 408(l)(6) of FFDCA. Therefore, the time-limited tolerances are extended until the date listed. EPA will publish a document in the **Federal Register** to remove the revoked tolerances from the Code of Federal Regulations (CFR). Although these tolerances will expire and are revoked on the date listed, under section 408(l)(5) of FFDCA, residues of the pesticide not in excess of the amounts specified in the tolerance remaining in or on the commodity after that date will not be unlawful, provided the residue is present as a result of an application or use of a pesticide at a time and in a manner that was lawful under FIFRA, the tolerance was in place at the time of the application, and the residue does not exceed the level that was authorized by the tolerance. EPA will take action to revoke these tolerances earlier if any experience with, scientific data on, or other relevant information on this pesticide indicate that the residues are not safe.

Tolerances for the use of the following pesticide chemicals on specific commodities are being extended:

1. *Acibenzolar-S-methyl*. EPA has authorized under FIFRA section 18 the use of acibenzolar-S-methyl on onions for control of onion thrips, a vector of iris yellow spot virus in Colorado. This regulation extends time-limited tolerances for residues of acibenzolar-S-methyl (benzo(1,2,3)thiadiazole-7-carbothioic acid-S-methyl ester) in or on onion, dry bulb and onion, green at 0.05 parts per million (ppm) for an additional 2½-year period. These tolerances will expire and are revoked on December 31, 2009. Time-limited tolerances were originally published in the **Federal Register** of February 16, 2005 (70 FR 7854) (FRL-7697-8).

2. *Bifenthrin*. EPA has authorized under FIFRA section 18 the use of bifenthrin on orchardgrass for control of the orchardgrass billbug in Oregon. This regulation extends time-limited tolerances for residues of the insecticide bifenthrin in or on orchardgrass, forage and orchardgrass, hay at 0.05 ppm for an additional 2½-year period. These tolerances will expire and are revoked on December 31, 2009. Time-limited tolerances were originally published in the **Federal Register** of July 26, 2002 (67 FR 48790) (FRL-7187-8).

3. *Flufenacet*. EPA has authorized under FIFRA section 18 the use of flufenacet on winter wheat for control of Italian ryegrass in Idaho, Oregon, and

Washington. This regulation extends time-limited tolerances for combined residues of the herbicide *N*-(4-fluorophenyl)-*N*-(1-methylethyl)-2-[[-(trifluoromethyl)-1,3,4-thiadiazol-2-yl]oxy]acetamide and its metabolites (containing the 4-fluoro-*N*-methylethyl benzenamine) in or on wheat, grain at 1 ppm; wheat, forage at 10 ppm; wheat, hay at 2 ppm; wheat, straw at 0.50 ppm; meat, kidney at 0.50 ppm; fat of cattle, goat, horse, hog, and sheep at 0.05 ppm; and meat byproducts (other than kidney) of cattle, goat, horse, hog, and sheep at 0.10 ppm for an additional 2½-year period. These tolerances will expire and are revoked on December 31, 2009. Time-limited tolerances were originally published in the **Federal Register** of August 6, 1999 (64 FR 42839) (FRL-6091-9).

4. *Mancozeb*. EPA has authorized under FIFRA section 18 the use of mancozeb on ginseng for control of stem and leaf blight in Michigan and Wisconsin. This regulation extends a time-limited tolerance for combined residues of the fungicide mancozeb (calculated as zinc ethylenebisdithiocarbamate and its metabolite, ethylenethiourea (ETU)), in or on ginseng, root at 2.0 ppm for an additional 3-year period. This tolerance will expire and is revoked on December 31, 2009. A time-limited tolerance was originally published in the **Federal Register** of October 9, 1998 (63 FR 54362) (FRL-6029-5).

5. *Propyzamide*. EPA has authorized under FIFRA section 18 the use of propyzamide on cranberries for control of dodder in Massachusetts, New Jersey, and Rhode Island. This regulation extends a time-limited tolerance for combined residues of the herbicide propyzamide and its metabolites (containing the 3,5-dichlorobenzoyl moiety and calculated as 3,5-dichloro-*N*-(1,1-dimethyl-2-propynyl)benzamide) in or on cranberry at 0.05 ppm for an additional 3-year period. This tolerance will expire and is revoked on December 31, 2009. A time-limited tolerance was originally published in the **Federal Register** of September 16, 1998 (63 FR 49479) (FRL-6022-5).

6. *Thiophanate-methyl*. EPA has authorized under FIFRA section 18 the use of thiophanate-methyl on blueberry for control of various fungal diseases in a number of States, including Connecticut, Indiana, Michigan, New Jersey, New York, Ohio, and Pennsylvania. This regulation extends a time-limited tolerance for combined residues of the fungicide thiophanate-methyl and its metabolite, methyl 2-benzimidazolyl carbamate (MBC), in or on blueberry at 1.5 ppm for an

additional 2½-year period. This tolerance will expire and is revoked on December 31, 2009. A time-limited tolerance was originally published in the **Federal Register** of September 12, 2002 (67 FR 57748) (FRL-7196-5).

7. *Thiophanate-methyl*. EPA has authorized under FIFRA section 18 the use of thiophanate-methyl on citrus for control of post-bloom fruit drop in Florida and Louisiana. This regulation extends a time-limited tolerance for combined residues of the fungicide thiophanate-methyl and its metabolite, MBC, in or on citrus at 0.5 ppm for an additional 2½-year period. This tolerance will expire and is revoked on December 31, 2009. A time-limited tolerance was originally published in the **Federal Register** of September 12, 2002 (67 FR 57748) (FRL-7196-5).

8. *Zoxamide*. EPA has authorized under FIFRA section 18 the use of zoxamide on ginseng for control of phytophthora blight in Michigan and Wisconsin. This regulation extends a time-limited tolerance for residues of the fungicide zoxamide (3,5-dichloro-*N*-(3-chloro-1-ethyl-1-methyl-2-oxopropyl)-4-methylbenzamide) in or on ginseng at 0.06 ppm for an additional 3-year period. This tolerance will expire and is revoked on December 31, 2009. A time-limited tolerance was originally published in the **Federal Register** of March 31, 2004 (69 FR 16800) (FRL-7349-3).

III. Statutory and Executive Order Reviews

This final rule establishes time-limited tolerances under section 408 of FFDCA. The Office of Management and Budget (OMB) has exempted these types of actions from review under Executive Order 12866, entitled *Regulatory Planning and Review* (58 FR 51735, October 4, 1993). Because this final rule has been exempted from review under Executive Order 12866 due to its lack of significance, this final rule is not subject to Executive Order 13211, *Actions Concerning Regulations That Significantly Affect Energy Supply, Distribution, or Use* (66 FR 28355, May 22, 2001). This final rule does not contain any information collections subject to OMB approval under the Paperwork Reduction Act (PRA), 44 U.S.C. 3501 *et seq.*, or impose any enforceable duty or contain any unfunded mandate as described under Title II of the Unfunded Mandates Reform Act of 1995 (UMRA) (Public Law 104-4). Nor does it require any special considerations under Executive Order 12898, entitled *Federal Actions to Address Environmental Justice in Minority Populations and Low-Income*

Populations (59 FR 7629, February 16, 1994); or OMB review or any Agency action under Executive Order 13045, entitled *Protection of Children from Environmental Health Risks and Safety Risks* (62 FR 19885, April 23, 1997). This action does not involve any technical standards that would require Agency consideration of voluntary consensus standards pursuant to section 12(d) of the National Technology Transfer and Advancement Act of 1995 (NTTAA), Public Law 104-113, section 12(d) (15 U.S.C. 272 note). Since tolerances and exemptions that are established under section 408(l)(6) of FFDCA in response to an exemption under FIFRA section 18, such as the tolerances in this final rule, do not require the issuance of a proposed rule, the requirements of the Regulatory Flexibility Act (RFA) (5 U.S.C. 601 *et seq.*) do not apply. In addition, the Agency has determined that this action will not have a substantial direct effect on States, on the relationship between the national government and the States, or on the distribution of power and responsibilities among the various levels of government, as specified in Executive Order 13132, entitled *Federalism* (64 FR 43255, August 10, 1999). Executive Order 13132, requires EPA to develop an accountable process to ensure “meaningful and timely input by State and local officials in the development of regulatory policies that have federalism implications.” “Policies that have federalism implications” is defined in the Executive order to include regulations that have “substantial direct effects on the States, on the relationship between the national government and the States, or on the distribution of power and responsibilities among the various levels of government.” This final rule directly regulates growers, food processors, food handlers, and food retailers, not States. This action does not alter the relationships or distribution of power and responsibilities established by Congress in the preemption provisions of section 408(n)(4) of FFDCA. For these same reasons, the Agency has determined that this final rule does not have any “tribal implications” as described in Executive Order 13175, entitled *Consultation and Coordination with Indian Tribal Governments* (65 FR 67249, November 6, 2000). Executive Order 13175, requires EPA to develop an accountable process to ensure “meaningful and timely input by tribal officials in the development of regulatory policies that have tribal implications.” “Policies that have tribal implications” is defined in

the Executive order to include regulations that have “substantial direct effects on one or more Indian tribes, on the relationship between the Federal Government and the Indian tribes, or on the distribution of power and responsibilities between the Federal Government and Indian tribes.” This final rule will not have substantial direct effects on tribal governments, on the relationship between the Federal Government and Indian tribes, or on the distribution of power and responsibilities between the Federal Government and Indian tribes, as specified in Executive Order 13175. Thus, Executive Order 13175 does not apply to this final rule.

IV. Congressional Review Act

The Congressional Review Act, 5 U.S.C. 801 *et seq.*, as added by the Small Business Regulatory Enforcement Fairness Act of 1996, generally provides that before a rule may take effect, the agency promulgating the rule must submit a rule report, which includes a copy of the rule, to each House of the Congress and to the Comptroller General of the United States. EPA will submit a report containing this final rule and other required information to the U.S. Senate, the U.S. House of Representatives, and the Comptroller General of the United States prior to publication of this final rule in the **Federal Register**. This final rule is not a “major rule” as defined by 5 U.S.C. 804(2).
