RIN 0579–AB91

Boll Weevil; Quarantine and Regulations

AGENCY: Animal and Plant Health Inspection Service, USDA.

ACTION: Proposed rule; extension of comment period.

SUMMARY: We are extending the comment period for our proposed rule that would establish domestic boll weevil regulations that would restrict the interstate movement of regulated articles within regulated areas and from regulated areas into or through nonregulated areas in commercial cotton-producing States. This action will allow interested persons additional time to prepare and submit comments.

DATES: We will consider all comments that we receive on or before February 1, 2007.

ADDRESSES: You may submit comments by either of the following methods:

- *Federal eRulemaking Portal:* Go to <http://www.regulations.gov>, select “Animal and Plant Health Inspection Service” from the agency drop-down menu, then click “Submit.” In the Docket ID column, select APHIS–2006–0002 to submit or view public comments and to view supporting and related materials available electronically. Information on using [Regulations.gov](http://www.regulations.gov), including instructions for accessing documents, submitting comments, and viewing the docket after the close of the comment period, is available through the site’s “User Tips” link.

- *Postal Mail/Commercial Delivery:* Please send four copies of your comment (an original and three copies) to Docket No. APHIS–2006–0002, Regulatory Analysis and Development,

SUPPLEMENTARY INFORMATION: On October 31, 2006, we published in the *Federal Register* (71 FR 63707–63717, Docket No. APHIS–2006–0002) a proposal to establish domestic boll weevil regulations that would restrict the interstate movement of regulated articles within regulated areas and from regulated areas into or through nonregulated areas in commercial cotton-producing States. The proposed regulations would help prevent the artificial spread of boll weevil into noninfested areas of the United States and the reinfestation of areas from which the boll weevil has been eradicated.

Background

On October 5, 2006, the Federal Aviation Administration (FAA) issued a Notice of Proposed Rulemaking (NPRM) entitled, Production and Airworthiness Approvals, Part Marking, and Miscellaneous Proposals (71 FR 58915). Comments on that document were due on or before January 3, 2007.

By letter dated December 5, 2006, the Aeronautical Repair Station Association (ARSA) asked FAA to extend the comment period for 90 days. ARSA believes the need for an extended comment period arises from the scope and extent of the changes proposed in the NPRM, the timing of its release, and the impact it will have on small businesses. ARSA also asked that we extend the comment period on the draft ACs for 90 days.

By letter dated December 6, 2006, the Aerospace Industries Association (AIA) and the General Aviation Manufacturers Association (GAMA) asked FAA to extend the comment period for 45 days. AIA and GAMA cited several factors that, in their view, necessitate the extension, including the length of time since the Aviation Rulemaking Advisory Committee recommendation was submitted to FAA, the scope and impact of the proposal, and the effective shortening of the comment period by observance of the holidays.

While we concur with the petitioners' requests for an extension of the comment period, we believe that a 45-day or 90-day extension is not warranted. We have already provided a 90-day comment period. An additional 90 days would result in a comment period extending for six full months. Although we agree that additional time for comments may be needed, this need must be balanced against the need to proceed expeditiously with a rulemaking that first involved industry input through an Aviation Rulemaking Advisory Committee in 1993. We believe an additional 30 days allows

adequate time for interested parties to provide meaningful comments. Absent unusual circumstances, we do not anticipate any further extension of the comment period for this rulemaking.

Extension of Comment Period

In accordance with § 11.47(c) of Title 14, Code of Federal Regulations, the FAA has reviewed the petitions made by ARSA, AIA, and GAMA for extension of the comment period on the Production and Airworthiness Approvals NPRM. The petitioners have shown a substantive interest in the proposed rule and good cause for the extension. The FAA also has determined that extension of the comment period is consistent with the public interest, and that good cause exists for taking this action.

Accordingly, we are extending the comment period for 30 days until February 5, 2007.

Issued in Washington, DC, December 13, 2006.

Dorenda D. Baker,

Acting Director, Aircraft Certification Service.

Background

Receiving and processing aviation data is an essential business process for the Department of Transportation (DOT). To increase efficiency and reduce costs of the filing process to both the air carriers and the government, DOT proposes that all aviation data that is collected by the Bureau of Transportation Statistics (BTS) be transmitted via the internet (e-filing). Our proposed e-filing is designed to be user friendly. Automated, built-in data edits would alert filers of incomplete information, thus reducing filing errors and the need for corrective re-processing. E-filing is more secure than attaching files to e-mails. E-filing does not have the size limit constraints encountered by attachment to e-mail submissions. E-filing provides the submitters with immediate confirmation that the filing has been received by BTS. E-filing should eliminate the need for BTS to key punch hard copy records into its various data bases.

The DOT proposes to phase-in e-filing for the following schedules, forms and reports:

T-8—Report of All-Cargo Operations;
T-100—U.S. Air Carrier Traffic and Capacity Data by Nonstop Segment and On-Flight Market;
T-100(f)—Air Carrier Traffic Data by Nonstop Segment and on-Flight Market;
Form 41 Schedules A Certification, B-1 and B-1.1 Balance Sheet, B-7 Airframe and Aircraft Engine Acquisitions and Retirements, B-12 Statement of Changes in Financial Position, B-43 Inventory of Airframes and Aircraft Engines, P-1.1 and P-1.2 Statement of Operations, P-1(a) Interim Operations Report, P-2 Notes to BTS Form 41 Report, P-5.1 and P-5.2 Aircraft Operating Expenses, P-6 Operating Expenses by Objective Groupings, P-7 Operating Expenses by Functional Groupings—Group III Air Carriers, P-10 Employment Statistics by Labor Category, P-12(a) Fuel Consumption by Type of Service and Entity;
Form 183—Report of Extension of Credit to Political Candidates;
Form 251—Report of Passengers Denied Confirmed Space;
Form 291—A Statement of Operations for Section 41103 Operations;
Form 298—C, Schedules F-1 Report of Financial Data, and F-2 Report of Aircraft Operating;
Part 234—On-Time Flight Performance Report;
Part 234.6—Baggage Handling Statistics; and
Part 241—The Passenger-Origin Destination Survey Report.
