

Order 11990 (Protection of Wetlands), or the Fish and Wildlife Coordination Act, nor does it threaten to violate a Federal, State, local, or tribal law or requirement imposed for the protection of the environment.

(5) Approval of the HCP would not establish a precedent for future actions or represent a decision in principle about future actions with potentially significant environmental effects.

The Service therefore has made a preliminary determination that approval of the HCP qualifies as a categorical exclusion under the NEPA, as provided by the Department of the Interior Manual (516 DM 2, Appendix 1 and 516 DM 6, Appendix 1). Based upon this preliminary determination, we do not intend to prepare further NEPA documentation. The Service will consider public comments in making its final determination on whether to prepare such additional documentation.

We will evaluate the permit application, the HCP, and comments submitted thereon to determine whether the application meets the requirements of section 10(a) of the Act. If the requirements are met, the Service will issue a permit to the Applicants.

Public Review and Comment

If you wish to comment on the permit application, draft Environmental Action Statement or the proposed HCP, you may submit your comments to the address listed in the **ADDRESSES** section of this document. Our practice is to make comments, including names, home addresses, etc., of respondents available for public review. Individual respondents may request that we withhold their names and/or home addresses, etc., but if you wish us to consider withholding this information you must state this prominently at the beginning of your comments. In addition, you must provide a rationale demonstrating and documenting that disclosure would constitute a clearly unwarranted invasion of privacy. In the absence of exceptional, documented circumstances, this information will be released. All submissions from organizations or businesses, and from individuals identifying themselves as representatives or officials of organizations or businesses, are available for public inspection in their entirety.

The Service provides this notice pursuant to section 10(c) of the Act and pursuant to implementing regulations for NEPA (40 CFR 1506.6).

Dated: December 13, 2006.

SUPPLEMENTARY INFORMATION:

Background.—In May 2004, the
Commission determined that an
industry in the United States was
materially injured by reason of certain
color television receivers (CTVs) from
China. Sichuan Changhong Electric Co.

(Changhong) subsequently instituted an
action at the CIT challenging the
Commission's determination.

The CIT issued an opinion in the
matter on November 15, 2006. *Sichuan
Changhong Electric Co. v. United States*,
Ct. No. 04-00266, Slip Op. 06-168 (Ct.
Int'l Trade Nov. 15, 2006). In its
opinion, the CIT rejected all arguments
asserted by plaintiff Changhong, but
remanded the matter to the Commission
for explanation and possible
modification concerning the "specific
causation determination" requirements
imposed by the U.S. Court of Appeals
for the Federal Circuit in *Bratsk
Aluminum Smelter v. United States*, 444
F.3d 1369 (Fed. Cir. 2006) and
Caribbean Ispat, Ltd. v. United States,
450 F.3d 1336 (Fed. Cir. 2006).

Participation in the proceeding.—
Only those persons who were interested
parties to the original investigation (*i.e.*,
persons listed on the Commission
Secretary's service list) and were parties
to the appeal may participate in the
remand proceeding. Such persons need
not make any additional filings with the
Commission to participate in the
remand proceeding. References to
business proprietary information
("BPI") during the remand proceeding
will be governed, as appropriate, by the
administrative protective order issued
in the original investigation.

Written Submissions.—The
Commission is not reopening the record
in this proceeding for submission of
new factual information. The
Commission will, however, permit the
parties to file comments pertaining to
the inquiries that are the subject of the
CIT's remand instructions. Comments
shall be limited to no more than twenty
(20) double-spaced and single-sided
pages of textual material. The parties
may not submit any new factual
information and may not address any
issue other than the applicability of the
Bratsk and *Ispat* decisions to this
investigation, whether the
Commission's causation analysis in the
original investigations complies with
the requirements the Federal Circuit
articulated in those two decisions, and
what, if any, modifications must be
made to the Commission's causation
analysis to put it into conformance with
the requirements articulated in those
decisions. Any such comments must be
filed with the Commission no later than
January 8, 2007.

All written submissions must conform
with the provisions of section 201.8 of
the Commission's rules; any
submissions that contain BPI must also
conform with the requirements of
sections 201.6, 207.3, and 207.7 of the
Commission's rules. The Commission's
