SUPPLEMENTARY INFORMATION: The primary purpose of the meeting is to develop an additional analytical alternative in support of the Council's goal to create a regulatory structure that ensures maximum retention of catch and appropriate monitoring for the West Coast shoreside Pacific whiting fishery. The new alternative developed by the Ad Hoc Group is scheduled be considered by the Council at its March 4-9, 2007 meeting in Sacramento, CA.

Although non-emergency issues not contained in the meeting agenda may be discussed, those issues may not be the subject of formal action during this meeting. Action will be restricted to those issues specifically listed in this document and any issues arising after publication of this document that require emergency action under section 305(c) of the Magnuson-Stevens Fishery

Conservation and Management Act, provided the public has been notified of the intent to take final action to address the emergency.

Improving Literacy Through School Libraries

AGENCY: Office of Elementary and Secondary Education, Department of Education.

ACTION: Notice of proposed priority.

SUMMARY: The Assistant Secretary for Elementary and Secondary Education proposes a priority under the Improving Literacy Through School Libraries Program. The Assistant Secretary may use this priority for competitions in fiscal year (FY) 2007 and later years. We take this action to allow for the best use of Federal funding to improve school library media centers in low-income communities. We intend for this priority to help strengthen the connection between school libraries and the instructional programs in these schools and districts.

General

The purpose of the Improving Literacy Through School Libraries Program is to improve student reading skills and academic achievement by providing students with increased access to up-to-date school library materials; well-equipped, technologically advanced school library media centers; and well-trained, professionally certified school library media specialists. Entities eligible for funding are local educational agencies (LEAs) in which 20 percent of the students served by the LEA are from families with incomes below the poverty line. These entities include public school districts, and may also include charter schools, regional service agencies, and State-administered schools that are considered public school districts by their State educational agency. Grantees use this funding to update their school library media center collections, improve technology and Internet access for their school library media centers, extend the

hours of their school library media centers, and provide professional development for school library media specialists.

Background of the Priority

This program has been in existence for four years. Over this four-year period, we have found that the most successful projects are similar in the following two ways: (1) They have provided a comprehensive array of services (such as extended library hours and professional development); and (2) they have had significant support from principals, teachers, and parents.

Based on what we know to be successful practice, we seek to establish a priority that more closely links the proposed project to the school and district through alignment with a school or district improvement plan. We also intend that this priority will encourage applicants to offer a comprehensive array of allowable program services.

We will announce the final priority in a notice in the **Federal Register**. We will determine the final priority after considering responses to this notice and other information available to the Department. This notice does not preclude us from proposing or funding additional priorities, subject to meeting applicable rulemaking requirements.

Note: This notice does *not* solicit applications. In any year in which we choose to use this proposed priority, we invite applications through a notice in the **Federal Register**. When inviting applications we designate each priority as absolute, competitive preference, or invitational. The effect of each type of priority follows:

Absolute priority: Under an absolute priority we consider only applications that meet the priority (34 CFR 75.105(c)(3)).

Competitive preference priority: Under a competitive preference priority we give competitive preference to an application by either (1) awarding additional points, depending on how well or the extent to which the application meets the competitive priority (34 CFR 75.105(c)(2)(i)); or (2) selecting an application that meets the competitive priority over an application of comparable merit that does not meet the priority (34 CFR 75.105(c)(2)(ii)).

Invitational priority: Under an invitational priority we are particularly interested in applications that meet the invitational priority. However, we do not give an application that meets the invitational priority a competitive or absolute preference over other applications (34 CFR 75.105(c)(1)).

Priority

Proposed Priority

Under this proposed priority, we would give priority to projects that demonstrate in their grant applications that the proposed literacy project
