Eligibility to Apply for Worker
Adjustment Assistance and Alternative
Trade Adjustment Assistance**

In accordance with Section 223 of the Trade Act of 1974, as amended (19

U.S.C. 2273) the Department of Labor herein presents summaries of determinations regarding eligibility to apply for trade adjustment assistance for workers (TA-W) number and alternative trade adjustment assistance (ATAA) by (TA-W) number issued during the period of December 4 through December 8, 2006.

In order for an affirmative determination to be made for workers of

a primary firm and a certification issued regarding eligibility to apply for worker adjustment assistance, each of the group eligibility requirements of Section 222(a) of the Act must be met.

I. Section (a)(2)(A) all of the following must be satisfied:

A. A significant number or proportion of the workers in such workers' firm, or an appropriate subdivision of the firm, have become totally or partially separated, or are threatened to become totally or partially separated;

B. the sales or production, or both, of such firm or subdivision have decreased absolutely; and

C. increased imports of articles like or directly competitive with articles produced by such firm or subdivision have contributed importantly to such workers' separation or threat of separation and to the decline in sales or production of such firm or subdivision; or

II. Section (a)(2)(B) both of the following must be satisfied:

A. A significant number or proportion of the workers in such workers' firm, or an appropriate subdivision of the firm, have become totally or partially separated, or are threatened to become totally or partially separated;

B. there has been a shift in production by such workers' firm or subdivision to a foreign country of articles like or directly competitive with articles which are produced by such firm or subdivision; and

C. One of the following must be satisfied:

1. The country to which the workers' firm has shifted production of the articles is a party to a free trade agreement with the United States;

2. the country to which the workers' firm has shifted production of the articles to a beneficiary country under the Andean Trade Preference Act, African Growth and Opportunity Act, or the Caribbean Basin Economic Recovery Act; or

3. there has been or is likely to be an increase in imports of articles that are like or directly competitive with articles which are or were produced by such firm or subdivision.

Also, in order for an affirmative determination to be made for secondarily affected workers of a firm and a certification issued regarding eligibility to apply for worker adjustment assistance, each of the group eligibility requirements of Section 222(b) of the Act must be met.

(1) Significant number or proportion of the workers in the workers' firm or an appropriate subdivision of the firm have become totally or partially

separated, or are threatened to become totally or partially separated;

(2) the workers' firm (or subdivision) is a supplier or downstream producer to a firm (or subdivision) that employed a group of workers who received a certification of eligibility to apply for trade adjustment assistance benefits and such supply or production is related to the article that was the basis for such certification; and

(3) either—

(A) the workers' firm is a supplier and the component parts it supplied for the firm (or subdivision) described in paragraph (2) accounted for at least 20 percent of the production or sales of the workers' firm; or

(B) a loss or business by the workers' firm with the firm (or subdivision) described in paragraph (2) contributed importantly to the workers' separation or threat of separation.

In order for the Division of Trade Adjustment Assistance to issue a certification of eligibility to apply for Alternative Trade Adjustment Assistance (ATAA) for older workers, the group eligibility requirements of Section 246(a)(3)(A)(ii) of the Trade Act must be met.

1. Whether a significant number of workers in the workers' firm are 50 years of age or older.

Because the workers of the firm are

criteria (a)(2)(A)(I.A.) and (a)(2)(B)(II.A.)
(employment decline) have not been
met.

Michelin North America Inc., BF Goodrich Tire Manufacturing, Opelika, AL; Notice of Revised Determination on Reconsideration

By application dated November 1, 2006, a company official requested administrative reconsideration of the Department of Labor's Notice of Negative Determination Regarding Eligibility to Apply for Worker Adjustment Assistance, applicable to workers and former workers of the subject firm. The Notice of Affirmative Determination Regarding Application for Reconsideration was issued on November 15, 2006 and published in the **Federal Register** on November 24, 2006 (71 FR 67917).

The initial determination was based on the Department's finding that the subject firm did not separate or threaten to separate a significant number or proportion of workers as required by the Trade Act of 1974. The subject workers produce passenger and light truck tires and are not separately identifiable by product line.

Based on new information provided by the subject firm during the reconsideration investigation, the Department determined that, during the relevant period, a significant number or proportion of the workers at the subject firm was separated.

The Department further determines that the subject firm's sales and production of tires declined absolutely during the relevant period.

The subject firm's reliance on imported tires increased during the same period that the subject firm's tire production decreased.

In accordance with Section 246 of the Trade Act of 1974 (26 U.S.C. 2813), as amended, the Department of Labor herein presents the results of its investigation regarding certification of eligibility to apply for Alternative Trade

Adjustment Assistance (ATAA) for older workers.

In order for the Department to issue a certification of eligibility to apply for ATAA, the group eligibility requirements of Section 246 of the Trade Act must be met. The Department has determined in this case that the requirements of Section 246 have been met.

A significant number of workers at the firm are age 50 or over and possess skills that are not easily transferable. Competitive conditions within the industry are adverse.

Conclusion

After careful review of the information obtained in the reconsideration investigation, I determine that workers of Michelin North America Inc., BF Goodrich Tire Manufacturing, Opelika, Alabama qualify as adversely affected primary workers under Section 222 of the Trade Act of 1974, as amended. In accordance with the provisions of the Act, I make the following certification:

"All workers of Michelin North America Inc., BF Goodrich Tire Manufacturing, Opelika, Alabama, who became totally or partially separated from employment on or after September 20, 2005 through two years from the date of this certification, are eligible to apply for adjustment assistance under Section 223 of the Trade Act of 1974, and are eligible to apply for alternative trade adjustment assistance under Section 246 of the Trade Act of 1974."

Signed in Washington, DC this 18th day of December, 2006.

Linda G. Poole,

Certifying Officer, Division of Trade Adjustment Assistance.

Optical Electro Forming a Division of Oracle Lens Manufacturing, Sola International and Carl Zeiss Vision Clearwater, FL; Amended Certification Regarding Eligibility to Apply for Worker Adjustment Assistance and Alternative Trade Adjustment Assistance

In accordance with Section 223 of the Trade Act of 1974 (19 U.S.C. 2273), and Section 246 of the Trade Act of 1974 (26 U.S.C. 2813), as amended, the Department of Labor issued a Certification of Eligibility to Apply for

Worker Adjustment Assistance and Alternative Trade Adjustment Assistance on June 1, 2006, applicable to workers of Optical Electro Forming, a division of Oracle Lenses, Clearwater, Florida. The notice was published in the **Federal Register** on June 22, 2006 (71 FR 35949).

At the request of the State agency, the Department reviewed the certification for workers of the subject firm. The workers were engaged in the production of optical molds and inserts.

New information shows that Optical Electro Forming is a division of Oracle Lens Manufacturing, a division of SOLA International, in turn a division of Carl Zeiss Vision. Workers separated from employment at the subject firm had their wages reported under four separate unemployment insurance (UI) tax accounts: Optical Electro Forming, Oracle Lens Manufacturing, SOLA International, and Carl Zeiss Vision.

Accordingly, the Department is amending the certification to properly reflect this matter.

The intent of the Department's certification is to include all workers of Optical Electro Forming and its parent companies, Clearwater, Florida, who were adversely affected by a shift in production to Mexico.

The amended notice applicable to TA-W-59,329 is hereby issued as follows:

"All workers of Optical Electro Forming, a division of Oracle Lens Manufacturing, SOLA International and Carl Zeiss Vision, Clearwater, Florida, who became totally or partially separated from employment on or after May 2, 2005, through June 1, 2008, are eligible to apply for adjustment assistance under Section 223 of the Trade Act of 1974, and are also eligible to apply for alternative trade adjustment assistance under Section 246 of the Trade Act of 1974."

Signed at Washington, DC this 19th day of December 2006.
