In this action the United States sought injunctive relief and civil penalties for violations of the New Source Performance Standards (NSPS) for Electric Arc Furnaces and Argon-Oxygen Decarburization Vessels at a steel forging plant owned and operated by A. A. Finkl will also submit to Illinois EPA an application for an amendment to its Title V permit to provide for compliance with the emission limitations and other requirements of the NSPS. Under the proposed consent decree, A. Finkl will pay a civil penalty of \$75,000. In addition, A. Finkl will spend \$620,000 to perform two supplemental environmental projects: (1) A. Finkl will spend \$75,000 to retrofit 34 vehicles owned by the City of Chicago with diesel oxidation catalysts.
