SECURITIES AND EXCHANGE COMMISSION

[Release No. 34-53858; File No. SR-Amex-2006-53]

Self-Regulatory Organizations; American Stock Exchange LLC; Notice of Filing and Immediate Effectiveness of Proposed Rule Change Relating to the DB Commodity Index Tracking Fund

May 24, 2006.

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 ("Act"),¹ and Rule 19b-4 thereunder,² notice is hereby given that on May 23, 2006, the American Stock Exchange LLC ("Amex" or "Exchange") filed with the Securities and Exchange Commission ("Commission") the proposed rule change as described in Items I and II below, which Items have been prepared by the Exchange. The Amex filed the proposed rule change pursuant to Section 19(b)(3)(A) of the Act³ and Rule 19b-4(f)(6) thereunder,⁴ which renders the proposal effective upon filing with the Commission. The Commission is

¹ 15 U.S.C. 78s(b)(1).

publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Self-Regulatory Organization's Statement of the Terms of Substance of the Proposed Rule Change

The Exchange proposes to revise the manner in which the Deutsche Bank Liquid Commodity Index™—Excess Return (the “DBLCI” or “Index”) is maintained in connection with the listing and trading of the DB Commodity Index Tracking Fund (the “Trust” or “Fund”). The Commission previously approved the listing and trading of the shares of the Fund on the Exchange.⁵ The Exchange has designated this proposal as non-controversial and has requested that the Commission waive the 30-day operative delay contained in Rule 19b-4(f)(6)(iii) under the Act.⁶ The text of the proposed rule change is available on the Amex's Web site (<http://www.amex.com>), at the Amex's Office of the Secretary, and at the Commission's Public Reference Room.

II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the Amex included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The Amex has prepared summaries, set forth in Sections A, B, and C below, of the most significant aspects of such statements.

A. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. Purpose

The purpose of the proposal is to clarify the manner in which the DBLCI is maintained. In particular, the proposal seeks to provide that the replacement of expiring futures contracts will be based on “Optimal Yield” roll rules for the DBLCI, which are described in detail below. The effect of this change will be to maximize the benefits of rolling in backwarddated⁷

markets and minimize the loss from rolling in markets in contango.⁸ The Exchange proposes that the proposed change be operative June 1, 2006.

The Exchange believes that adoption of this change to futures replacement will mitigate losses associated with contango conditions and maximize gains associated with backwarddated conditions, thereby benefiting investors.⁹ A contango condition erodes investor returns/yields because the price of the futures contract being sold, *i.e.*, the nearby futures contract, is less than the price of the futures contract being purchased, *i.e.*, a futures contract expiring in a later month than the nearby futures contract. Conversely, a backwarddated condition benefits investors by increasing returns/yields because the price of the futures contract being sold, *i.e.*, the nearby futures contract, is greater than the price of the futures contract being purchased, *i.e.*, a futures contract expiring in a later month than the nearby futures contract.

Currently, the expiring futures contracts are replaced monthly (other than in November) during the first week of the month in the case of futures contracts relating to crude oil and heating oil and annually in November in the case of futures contracts relating to aluminum, gold, corn and wheat. Crude oil and heating oil futures contracts are always replaced with the contract expiring in the next month; aluminum, gold, corn and wheat contracts are always replaced with a contract expiring in one year. The Index Sponsor and the Exchange believe that instituting “Optimal Yield” roll rules for the Index futures contracts, which require the Index Sponsor to replace expiring contracts in the Index with the highest yielding or “optimal” futures contract that will expire in no more than thirteen (13) months, will provide greater flexibility for the Index Sponsor to reduce the effects of contango conditions and increase the benefits of backwardation for the benefit of investors and the marketplace.

Under this proposal, an existing contract must be replaced with a longer-dated contract if the existing contract is within a predetermined number of months of its expiration depending on the particular commodity and based on the historical liquidity of the particular commodity as it approached expiration. The new futures contract will be the

contract with the maximum implied roll yield over the next 13 months. The maximum implied roll yield is determined by inputting the prices of the contracts expiring in future months and the price of the existing contract into a formula that compares the prices and accounts for the time value associated with those prices based on the time-to-expiration of each contract. If two (2) contracts for a particular commodity have the same maximum implied roll yield, the contract with the maximum yield and minimum time to expiration will be selected. Once the contract is selected, the monthly index roll will unwind the old futures contract and enter a position in the new contract. This will occur between the 2nd and 6th business days of the month.

The Exchange in this proposal solely seeks to permit the listing and trading of the shares of the Fund based on the revised Index replacement mechanism. This revision will be fully disclosed to the marketplace and investors through a regulatory filing by the Fund, as well as information on the Fund's Web site at www.dbcfund.db.com.

2. Statutory Basis

The Exchange believes that the proposed rule change is consistent with Section 6(b) of the Act,¹⁰ in general, and furthers the objectives of Section 6(b)(5) of the Act,¹¹ in particular, in that it is designed to prevent fraudulent and manipulative acts and practices, promote just and equitable principles of trade, remove impediments to and perfect the mechanism of a free and open market and a national market system, and, in general, protect investors and the public interest.

B. Self-Regulatory Organization's Statement on Burden on Competition

The proposed rule change does not impose any burden on competition that is not necessary or appropriate in furtherance of the purposes of the Act.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants or Others

No written comments were solicited or received with respect to the proposed rule change.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

Because the foregoing proposed rule change does not: (i) Significantly affect the protection of investors or the public

⁷ “Backwardation” refers to a condition in which commodity deliveries in the near future have a higher price than those made later on. This occurs when demand for the commodity is greater in the near term.

⁸ “Contango” refers to a condition in which distant delivery prices for futures exceed spot prices, often due to the costs of storing and insuring the underlying commodity.

⁹ A contango market will tend to cause a drag on the Index while a backwarddated market will tend to cause a push on the Index.

interest; (ii) impose any significant burden on competition; and (iii) become operative for 30 days from the date on which it was filed, or such shorter time as the Commission may designate, it has become effective pursuant to Section 19(b)(3)(A) of the Act¹² and Rule 19b-4(f)(6) thereunder.¹³

A proposed rule change filed under Rule 19b-4(f)(6) normally may not become operative prior to 30 days after the date of filing.¹⁴ However, Rule 19b-4(f)(6)(iii)¹⁵ permits the Commission to designate a shorter time if such action is consistent with the protection of investors and the public interest.

The Amex has requested that the Commission waive the 30-day operative delay so that the proposed rule change is operative on June 1, 2006. The Commission believes that waiving the 30-day operative delay is consistent with the protection of investors and the public interest because the proposal seeks to change the manner in which futures contracts comprising the DBLCI are replaced or "rolled" so that the effects of contango are reduced while the benefits of backwardation are increased to the advantage of investors and the marketplace. For this reason, the Commission designates the proposal to be operative on June 1, 2006, as requested by the Exchange.¹⁶

At any time within 60 days of the filing of the proposed rule change, the Commission may summarily abrogate such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Act.¹⁷

IV. Solicitation of Comments

Interested persons are invited to submit written data, views and arguments concerning the foregoing, including whether the proposed rule change is consistent with the Act. Comments may be submitted by any of the following methods:

¹² 15 U.S.C. 78s(b)(3)(A).

¹³ 17 CFR 240.19b-4(f)(6).

¹⁴ 17 CFR 240.19b-4(f)(6)(iii). As required by Rule 19b-4(f)(6)(iii), the Amex provided the Commission with written notice of its intent to file this proposed rule change, along with a brief description and text of the proposed change, at least five business days prior to the date of filing of the proposed rule change.

¹⁵ *Id.*

¹⁶ For purposes only of waiving the 30-day operative delay, the Commission has considered the proposed rule's impact on efficiency, competition, and capital formation. See 15 U.S.C. 78c(f).

¹⁷ See Section 19(b)(3)(C) of the Act, 15 U.S.C. 78s(b)(3)(C).
