I. Funding Opportunity Description

In FY 2003, the Administration on Aging (AoA) and the Centers for Medicare & Medicaid Services (CMS) formed a historic partnership to launch the Aging and Disability Resource Center (ADRC) demonstration grant initiative. The goal of the ADRC program is to empower individuals to make informed choices and to streamline access to long term support services. AoA and CMS share a vision to have Resource Centers in every community serving as highly visible and trusted places where people of all ages can turn for information on the full range of long term support options and a single point of entry to public long term support programs and benefits. ADRCs are a resource for both public and private-pay individuals. They serve older adults, younger individuals with disabilities, family caregivers, as well as persons planning for future long term support needs. ADRCs are also a resource for health and long term support professionals and others who provide services to older adults and to people with disabilities. Since FY 2003, 43 states have received three year grants from AoA and CMS to design and implement ADRC demonstrations serving the elderly and at least one other target population of adults with disabilities in at least one community. An ADRC Program Announcement published in FY 2003 resulted in the funding of twelve states that year with an additional twelve states funded to develop ADRC programs in FY 2004. Nineteen additional states were funded to develop ADRC programs based on a Program Announcement published in FY 2005. To view the Program Announcements published in FY 2003 and FY 2005 go to http://www.aoa.gov/prof/aging_dis/background.asp. For more information on the 43 funded ADRC projects go to <http://www.adrc-tae.org>.

This announcement seeks proposals for competitive supplemental grants to assist states funded to develop ADRCs in FY2004 to expand their existing Resource Center programs. Building on current efforts, states will be able to advance the ADRC project through one or more of the following ways:

- Expansion of the ADRC to additional communities;
