**DATES:** The draft SEIS is expected to be published in July 2008 and the final SEIS is expected to be published in July 2009.

**FOR FURTHER INFORMATION CONTACT:** William K. Oldland, Gypsy Moth SEIS Project Entomologist, Forest Service, Northeastern Area, State and Private Forestry, 180 Canfield Street, Morgantown, WV 26505. **SUPPLEMENTARY INFORMATION:** On April 29, 2004 (69 FR 23492), the Forest Service and the Animal and Plant Health Inspection Service published in the **Federal Register** a Notice of Intent (NOI) to prepare a Supplement to the Final Environmental Impact Statement (EIS) for Gypsy Moth Management in the United States: A Cooperative Approach. The expected date for publication of the draft (SEIS) was March 2005 and February 2006 for the final SEIS. On February 7, 2007 (72 FR 5675), the agencies published a revised NOI in the **Federal Register** extending the expected dates for publishing the

draft and final SEIS to July 2007 and July 2008 respectively. Through this revised NOI, the agencies are again extending the expected publication dates for the draft and final SEIS.

The SEIS will document an analysis of the 2004 proposal to add the insecticide, tebufenozide (trade name Mimic), to the agencies' list of treatments for the control of gypsy moth. The 2004 proposal also includes developing a process for adding other insecticides that may become available in the future to their list of treatments for control of gypsy moth, if the proposed insecticides are within the range of effects and acceptable risks for the existing list of treatments. The analysis for this proposal builds on the analysis and documentation for the January 16, 1996, Record of Decision for the Gypsy Moth Management in the United States: A Cooperative Approach Final Environmental Impact Statement, which was published in the **Federal Register** on February 15, 1996 (61 FR 5976). The agencies will prepare a Supplemental Environmental Impact Statement (SEIS) to the November 1995 Final Environmental Impact Statement (EIS), Gypsy Moth Management in the United States: A Cooperative Approach, which was published in the **Federal Register** on December 1, 1995 (60 FR 61698).

Dated: June 25, 2008.

**SUPPLEMENTARY INFORMATION:** The Office of Management and Budget's (OMB) regulation (5 CFR part 1320) implementing provisions of the Paperwork Reduction Act of 1995 (Pub. *Title:* 7 CFR Part 1724, Electric Engineering, Architectural Services and Design Policies and Procedures.

*OMB Control Number:* 0572-0118.

*Type of Request:* Revision of a previously approved collection.

*Abstract:* The rule requires borrower to use three Rural Development contract forms under certain circumstances. The use of standard forms helps assure the Agency that:

- Appropriate standards and specifications are maintained;
- The Agency loan security is not adversely affected; and

- Loan and loan guarantee funds are used effectively and for the intended purpose.

Standardization of forms by Rural Development results in substantial savings to:

- Borrowers—If standard forms were not used, borrowers would need to prepare their own documents at significant expense; and
- Government—If standard forms were not used, each document submitted by a borrower would require extensive and costly review by both Rural Development and the Office of General Counsel.

*Estimate of Burden:* Public reporting burden for this collection of information is estimated to average 1.05 hours per response.

*Respondents:* Businesses, not-for-profit institutions and others.

*Estimated Number of Respondents:* 99.

*Estimated Number of Responses per Respondent:* 1.

*Estimated Total Annual Burden on Respondents:* 104 hours.

Copies of this information collection can be obtained from Gale Richardson, Program Development and Regulatory Analysis, at (202) 720-0992.

All responses to this notice will be summarized and included in the request for OMB approval. All comments will also become a matter of public record.

Dated: June 26, 2008.
