SUPPLEMENTARY INFORMATION:

Background

The regulations in 7 CFR 301.51–1 through 301.51–9 (referred to below as the regulations) restrict the interstate movement of regulated articles from quarantined areas to prevent the artificial spread of Asian longhorned beetle (ALB) to noninfested areas of the United States. Quarantined areas are listed in § 301.51–3(c) of the regulations.

In an interim rule ¹ effective and published in the **Federal Register** on August 20, 2007 (72 FR 46373–46375, Docket No. APHIS 2007–0104), we amended the regulations in § 301.51–3 by adding a portion of the Borough of Richmond in the City of New York, NY, to the list of quarantined areas.

Comments on the interim rule were required to be received on or before October 19, 2007. We did not receive any comments. Therefore, for the reasons given in the interim rule, we are adopting the interim rule as a final rule without change.

This action also affirms the information contained in the interim rule concerning Executive Order 12866 and the Regulatory Flexibility Act, Executive Orders 12372 and 12988, and the Paperwork Reduction Act.

Further, for this action, the Office of Management and Budget has waived its review under Executive Order 12866.

Airworthiness Directives; Bombardier Model DHC-8-400 Series Airplanes

AGENCY: Federal Aviation Administration (FAA), Department of Transportation (DOT).

ACTION: Final rule.

SUMMARY: We are adopting a new airworthiness directive (AD) for the products listed above. This AD results from mandatory continuing airworthiness information (MCAI) originated by an aviation authority of another country to identify and correct an unsafe condition on an aviation product. The MCAI describes the unsafe condition as:

Bombardier Aerospace has completed a system safety review of the aircraft fuel system against fuel tank safety standards * * *

[A]ssessment showed that supplemental maintenance tasks [inspections of various fuel system components such as shields, harnesses, sleeves, and sealant] are required to prevent potential ignition sources inside the fuel system, which could result in a fuel tank explosion. * * *

We are issuing this AD to require actions to correct the unsafe condition on these products.

DATES: This AD becomes effective August 6, 2008.

The Director of the Federal Register approved the incorporation by reference of a certain publication listed in this AD as of August 6, 2008.

ADDRESSES: You may examine the AD docket on the Internet at http://www.regulations.gov or in person at the U.S. Department of Transportation, Docket Operations, M–30, West Building Ground Floor, Room W12–140, 1200 New Jersey Avenue SE., Washington, DC.
