**FOR FURTHER INFORMATION CONTACT:** For information on regulations for the importation of clementines from Spain, contact Ms. Vanessa P. Schreiber, Assistant Director, Preclearance Programs, PPQ, APHIS, 4700 River Road Unit 60, Riverdale, MD 20737; (301) 734-8259. For copies of more detailed information on the information collection, contact Mrs. Celeste Sickles, APHIS' Information Collection Coordinator, at (301) 851-2908.

**SUPPLEMENTARY INFORMATION:**

*Title:* Importation of Clementines From Spain.

*OMB Number:* 0579-0203.

*Type of Request:* Extension of approval of an information collection.

*Abstract:* The Plant Protection Act (PPA, 7 U.S.C. 7701 *et seq.*) authorizes the Secretary of Agriculture to restrict the importation, entry, or interstate movement of plants, plant products, and other articles to prevent the introduction of plant pests, including fruit flies, into the United States or their dissemination within the United States. Regulations authorized by the PPA concerning the importation of fruits and vegetables into the United States from certain parts of the world are contained in "Subpart-Fruits and Vegetables" (7 CFR 319.56 through 319.56-47).

Under these regulations, clementines from Spain are subject to certain conditions before entering the United States to ensure that exotic plant pests, such as the Mediterranean fruit fly, are not introduced into the United States. The regulations require the use of information collection activities including a trust fund agreement, grower registration and agreement, a Mediterranean fruit fly management program, fruit fly trapping and control activities, recordkeeping, a phytosanitary certificate, and box labeling.

We are asking the Office of Management and Budget (OMB) to approve our use of these information collection activities for 3 years.

The purpose of this notice is to solicit comments from the public (as well as affected agencies) concerning our information collection. These comments will help us:

(1) Evaluate whether the collection of information is necessary for the proper

performance of the functions of the Agency, including whether the information will have practical utility;

(2) Evaluate the accuracy of our estimate of the burden of the collection of information, including the validity of the methodology and assumptions used;

(3) Enhance the quality, utility, and clarity of the information to be collected; and

(4) Minimize the burden of the collection of information on those who are to respond, through use, as appropriate, of automated, electronic, mechanical, and other collection technologies; e.g., permitting electronic submission of responses.

*Estimate of burden:* The public reporting burden for this collection of information is estimated to average 0.0008904 hours per response.

*Respondents:* National plant health officials of Spain, and growers and shippers of clementines.

*Estimated annual number of respondents:* 4,508.

*Estimated annual number of responses per respondent:* 3,469.3234.

*Estimated annual number of responses:* 15,639,710.

*Estimated total annual burden on respondents:* 13,927 hours. (Due to averaging, the total annual burden hours may not equal the product of the annual number of responses multiplied by the reporting burden per response.)

All responses to this notice will be summarized and included in the request for OMB approval. All comments will also become a matter of public record.

Done in Washington, DC, this 24th day of July 2008.

**SUPPLEMENTARY INFORMATION:**

*Title:* Importation of Gypsy Moth Host Material From Canada.

*OMB Number:* 0579-0142.

*Type of Request:* Extension of approval of an information collection.

*Abstract:* As authorized by the Plant Protection Act (PPA, 7 U.S.C. 7701 *et seq.*), the Secretary of Agriculture may prohibit or restrict the importation, entry, exportation, or movement in interstate commerce of any plant, plant

product, biological control organism, noxious weed, means of conveyance, or other article if the Secretary determines that the prohibition or restriction is necessary to prevent a plant pest or noxious weed from being introduced into or disseminated within the United States. This authority has been delegated to the Animal and Plant Health Inspection Service (APHIS), which administers regulations to implement the PPA. Regulations governing the importation of gypsy moth host material into the United States from Canada are contained in 7 CFR 319.77 through 319.77-5.

These regulations are intended to prevent the introduction of gypsy moth into noninfested areas of the United States by placing certain inspection and documentation requirements on gypsy moth host material (i.e., regulated articles) imported from Canada. These regulated articles are: Trees without roots (e.g., Christmas trees), trees with roots, shrubs with roots and persistent woody stems, logs and pulpwood with bark attached, outdoor household articles, and mobile homes and their associated equipment. Under the regulations, phytosanitary certificates, certificates of origin, or signed homeowner statements will be required for some of these regulated articles, depending on their place of origin in Canada and their destination in the United States. These requirements necessitate the use of information collection activities.

We are asking the Office of Management and Budget (OMB) to approve our use of these information collection activities for an additional 3 years.

The purpose of this notice is to solicit comments from the public (as well as affected agencies) concerning our information collection. These comments will help us:

(1) Evaluate whether the collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility;

(2) Evaluate the accuracy of our estimate of the burden of the collection of information, including the validity of the methodology and assumptions used;

(3) Enhance the quality, utility, and clarity of the information to be collected; and

(4) Minimize the burden of the collection of information on those who are to respond, through use, as appropriate, of automated, electronic, mechanical, and other collection technologies; e.g., permitting electronic submission of responses.

*Estimate of burden:* The public reporting burden for this collection of information is estimated to average 0.03632 hours per response.

*Respondents:* Canadian plant health authorities; growers, exporters, shippers of Christmas trees, shrubs, logs, pulpwood, and other articles from gypsy moth-infested Provinces in Canada; private individuals entering the United States with mobile homes or outdoor household articles.

*Estimated annual number of respondents:* 147.

*Estimated annual number of responses per respondent:* 15.1700.

*Estimated annual number of responses:* 2,230.

*Estimated total annual burden on respondents:* 81 hours. (Due to averaging, the total annual burden hours may not equal the product of the annual number of responses multiplied by the reporting burden per response.)

All responses to this notice will be summarized and included in the request for OMB approval. All comments will also become a matter of public record.
