

where necessary, and are based on the residence rule for 2010 Census.

The 2010 CFU telephone operation will be conducted April 26, 2010 through August 13, 2010.

II. Method of Collection

The CFU telephone operation will be administered using computer-assisted telephone interviews. It is estimated that 6,000,000 households will be included in the 2010 CFU telephone universe. This universe is selected based on the following criteria:

- Initial census housing unit returns that responded “yes” to either coverage question;
- Initial census returns that have a count discrepancy between the reported household population count and the actual number of persons recorded on the census form;
- Initial census returns containing more than six persons;
- Initial returns that are matched against an administrative records database to identify potential undercount; and
- Initial census returns that are computer-matched to determine possible duplicate person links.

The CFU interview includes probes about any of the following situations that seem applicable based on the household’s responses on the questionnaire:

- Types of missing people,
- Where college students live,
- Where children in custody arrangements spend most of their time,
- Where those who vacation spend most of their time,
- If anyone else in the household stays anywhere else any part of the time, and
- If anyone stayed in a facility where groups of people stay.

When anyone is identified as potentially counted or omitted in error, Census then ask questions to establish the appropriate census residence of that person according to the residence rules in effect for the 2010 Census.

We will contact respondents using telephone numbers provided by respondents on the initial census questionnaire and/or provided through a phone number look-up service through a commercial vendor. These interviews will be conducted at commercial call centers using computer-assisted telephone interviewing (CATI). The CATI instrument will be in English and Spanish. As in previous censuses, we will not conduct field interviews as part of this effort due to the extremely high cost.
