In that document, EPA announced the availability of the REDs and opened a 60-day public comment period. ADDRESSES in the July 16, 2008, *Federal Register* notice (73 FR 40871).

II. What is the Agency's Authority for Taking this Action?

Section 4(g)(2) of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended, directs that, after submission of all data concerning a pesticide active ingredient, the Administrator shall determine whether pesticides containing such active ingredient are eligible for reregistration. Further provisions are made to allow a public comment period. However, the Administrator may extend the comment period if additional time for comment is requested. In this case, the Methyl Bromide Industry Panel (MBIP), California Specialty Crops Council, the Chloropicrin Manufacturers' Task Force (CMTF), the National Association of Manufacturers (NAM), the American Nursery and Landscape Association (ANLA), the California Strawberry Nurserymen's Association, the Agricultural Retailers Association, the American Forest and Paper Association, and McDermott, Will, and Emery LLP, on behalf of the Minor Crop Farmer Alliance (MCFA), have requested additional time to develop comments. These groups represent manufacturers and users of the soil fumigants. The Agency believes that an additional 45 days is warranted.
