

**DEPARTMENT OF LABOR****Employment and Training Administration**

[NAFTA-6632]

**State of Alaska Commercial Fisheries Entries Commission Permit # 61155V, Dillingham, AK; Notice of Termination of Investigation**

Pursuant to Title V of the North American Free Trade Agreement Implementation Act (Pub. L. 103-182) concerning transitional adjustment assistance, hereinafter called NAFTA-TAA and in accordance with section 250(a), Subchapter D, Chapter 2, Title II, of the Trade Act of 1974, as amended (19 U.S.C. 2273), an investigation was initiated on September 5, 2002, in response to a petition filed by the Bristol Bay Native Association on behalf of State of Alaska Commercial Fisheries Entry Commission Permit #61155V, Dillingham, Alaska.

The workers stopped fishing in July 10, 2001, more than one year from the September 5, 2002, petition date. Section 223(b)(1) of the Trade Act of 1974, as amended, provides that a certification may not apply to a worker whose separation from employment occurred more than one year prior to the date the petition was filed.

Consequently, further investigation in this case would serve no purpose, and the investigation has been terminated.

Signed at Washington, DC, this 15th day of November 2002.

**Linda G. Poole,***Certifying Officer, Division of Trade Adjustment Assistance.*

[NAFTA-6282]

**Glen Oaks Industries, Inc., Dallas, TX; Amended Certification Regarding Eligibility To Apply for NAFTA-Transitional Adjustment Assistance**

In accordance with Section 250(a), Subchapter D, Chapter 2, Title II, of the Trade Act of 1974, as amended (19 U.S.C. 2273), the Department of Labor issued a Certification of Eligibility to Apply for NAFTA Transitional Adjustment Assistance on August 21, 2002, applicable to workers of Glen Oaks Industries, Marietta Sportswear Manufacturing Company, Inc., Dallas, Texas. The certification was amended on September 25, 2002, to include workers formerly employed at Marietta Sportswear Manufacturing Co., Inc., Marietta, Oklahoma. The notice will soon be published in the **Federal Register**.

At the request of the State agency, the Department reviewed the certification for workers of the subject firm. New information provided by the company official shows that wages for the six workers engaged in the production of men's slacks at the Dallas, Texas, location were reported to the Unemployment Insurance (UI) tax account for Glen Oaks Industries in Oklahoma. The company official also reports that Marietta Sportswear Manufacturing Co., Inc., is no longer an entity of Glen Oaks Industries, and thus, not applicable to this worker group.

Also, the Department has learned from the State that all six workers have been separated from employment and there is no need to have the certification in effect for two years from the date of issuance.

Based on this new information, the Department is again amending the certification to limit coverage to workers producing men's slacks at Marietta Sportswear Manufacturing Co., Inc., Dallas, Texas, whose wages were reported to the State of Oklahoma under the UI tax account for Glen Oaks Industries. Furthermore, the certification will expire October 4, 2002.

The amended notice applicable to NAFTA-6282 is hereby issued as follows:

Workers producing men's slacks at Glen Oaks Industries, Dallas, Texas, whose wages were reported to Glen Oaks Industries in Marietta, Oklahoma, who became totally or partially separated from employment on or after June 13, 2001 through October 4, 2002, are eligible to apply for NAFTA-TAA under Section 250 of the Trade Act of 1974.

Signed in Washington, DC, this 4th day of October 2002.

**NATIONAL AERONAUTICS AND SPACE ADMINISTRATION**

[Notice: 02-144]

**Notice of Information Collection Under OMB Review**

**AGENCY:** National Aeronautics and Space Administration (NASA).

**ACTION:** Notice of information collection under OMB review.

**SUMMARY:** The National Aeronautics and Space Administration, as part of its continuing effort to reduce paperwork and respondent burden, invites the general public and other Federal agencies to take this opportunity to comment on proposed and/or continuing information collections, as required by the Paperwork Reduction Act of 1995 (Pub. L. 104-13, 44 U.S.C. 3506(c)(2)(A)). The information obtained in this collection will assist NASA in assessing the effectiveness of aviation safety programs.

**DATES:** All comments should be submitted on or before December 27, 2002.

**ADDRESSES:** All comments should be addressed to Desk Officer for NASA;

Office of Information and Regulatory Affairs; Office of Management and Budget; Room 10236; New Executive Office Building; Washington, DC, 20503.

**FOR FURTHER INFORMATION CONTACT:** Ms. Nancy Kaplan, NASA Reports Officer, (202) 358-1372.

*Title:* National Aviation Operations Monitoring Service: General Aviation Pilots.

*OMB Number:* 2700-0102.

*Type of review:* Extension.

*Need and Uses:* The information collected will be analyzed and used by NASA Aviation Safety Program managers to evaluate their progress in improving aviation over the next decade.

*Affected Public:* Individuals or households.

*Number of Respondents:* 10,000.

*Responses Per Respondent:* 1.

*Annual Responses:* 10,000.

*Hours Per Request:* Approx. ½ hour.

*Annual Burden Hours:* 6,280.

*Frequency of Report:* Quarterly;

Annually.

**Patricia Dunnington,**

*Deputy Chief Information Officer, Office of the Administrator.*

## **NATIONAL ARCHIVES AND RECORDS ADMINISTRATION**

### **Advisory Committee on the Records of Congress; Meeting**

**AGENCY:** National Archives and Records Administration.

**ACTION:** Notice of meeting.

**SUMMARY:** In accordance with the Federal Advisory Committee Act, the National Archives and Records Administration (NARA) announces a meeting of the Advisory Committee on the Records of Congress. The committee advises NARA on the full range of programs, policies, and plans for the Center for Legislative Archives in the Office of Records Services.

**DATES:** December 9, 2002, from 10 a.m. to 11 a.m.

**ADDRESSES:** Whittall Pavilion, Library of Congress, Thomas Jefferson Building, Ground Floor.

**FOR FURTHER INFORMATION CONTACT:** Michael L. Gillette, Director, Center for Legislative Archives, (202) 501-5350.

### **SUPPLEMENTARY INFORMATION:**

#### **Agenda**

Overview of Committee's activities.  
House services to departing Members concerning the disposition of their papers.

Summary of NIST report on irradiated records.

Legislative records outside of official custody.

Follow-up discussion.

Activities report of the Center for Legislative Archives.

Other current issues and new business.

The meeting is open to the public.

Dated: November 21, 2002.

**Mary Ann Hadyka,**

*Committee Management Officer.*

## **NUCLEAR REGULATORY COMMISSION**

[Docket No. 030-01176]

### **Environmental Assessment and Finding of No Significant Impact; Materials License No. 49-09955-10, University of Wyoming, Laramie, WY**

The U.S. Nuclear Regulatory Commission (NRC) is considering the approval of the University of Wyoming's revised decommissioning plan for two former burial sites located near Laramie, Wyoming, and amending NRC Materials License 49-09955-10 to remove the two sites from the license.

#### **Environmental Assessment**

##### *Background*

The University of Wyoming (licensee) submitted a decommissioning plan to the NRC by letter dated October 21, 1998. The licensee subsequently submitted a revised decommissioning plan to the NRC by letter dated May 30, 2001. The licensee requested that two former radioactive material burial sites located near Laramie, Wyoming, be released for unrestricted use. The NRC is considering the issuance of an amendment to Materials License 49-09955-10 to release these two burial sites for unrestricted use. The purpose of this Environmental Assessment (EA) is to assess the environmental consequences of this license amendment request.

##### *Proposed Action*

The proposed action is to amend NRC Materials License 49-09955-10 to release for unrestricted use the two former burial sites located near Laramie, Wyoming. The licensee would not be required to remediate the two sites if the NRC approves the license amendment request.

##### *Purpose and Need for Proposed Action*

NRC regulation 10 CFR 30.36 (the Timeliness Rule) requires licensees to

decommission their facilities when licensed activities cease, and to request termination of their radioactive materials licenses. The purpose of the Timeliness Rule is to reduce the potential risk to the public and environment that may result from delayed decommissioning of inactive facilities and sites. The purpose of the proposed action is to remove the two former burial sites from the University of Wyoming's radioactive materials license because the licensee no longer uses the two burial sites. The licensee would continue to possess radioactive material under its NRC license at other locations specifically listed in the license. If removed from the license, the two burial sites would no longer be subject to NRC regulatory oversight, and the licensee would be in compliance with Timeliness Rule requirements.

##### *History/Facility Description*

The University of Wyoming has used radioactive material since about 1950. The licensee disposed of radioactive waste material at two separate burials sites from about 1952 until 1985. The licensee was authorized to dispose of radioactive material by burial in accordance with 10 CFR 20.304 between 1959-1981. Prior to 1959, burial of radioactive material was not authorized by § 20.304 but may have been conducted under a specific U.S. Atomic Energy Commission authorization or license condition at that time. During 1981, § 20.304 was rescinded by the NRC. The licensee then conducted burials in accordance with § 20.302 until 1985. During 1985, the NRC rejected the licensee's request to continue to dispose of radioactive material by burial in accordance with § 20.302. As a result, burial of radioactive material was permanently discontinued during March 1985.

The first burial site was known as the Quarry site. This disposal site was a dry borehole located at a University-owned sandstone quarry. The quarry is situated approximately 7.5 miles (12 kilometers) to the northeast of Laramie. The University believes that the Quarry site was used during 1952-1957. The licensee cannot pinpoint the exact location of the 100-foot (30.48 meters) borehole but is aware of the general location of the borehole.

The airport site is located on University-owned land situated approximately 2 miles (3.2 kilometers) west of Laramie. This site is located near the Laramie Municipal Airport and consists of approximately 40,000 square feet (3716 square meters) of land. This second site was used from 1959 until 1985.
