

and the cover letter. The USPTO estimates that 3 oversized CD submissions will be received per year, for a total postage cost of \$3 per year. The total postage cost for this collection is \$8,001,156 per year.

There are recordkeeping costs associated with the oversized CD submissions and the electronic filing of new utility and provisional applications. The USPTO advises applicants who submit oversized new utility and provisional application requests on CD to retain a back-up copy of the CD and a printed copy of the application transmittal form for their records. The USPTO estimates that it will take an additional 5 minutes for the applicant to produce this back-up CD copy and 2 minutes to print the copy of the application transmittal form, for a total of 7 minutes (0.12 hours) for each oversized submission. The USPTO estimates that approximately 3 electronic submissions per year will be

oversized, for a total of 0.36 hours per year for retaining the back-up CD and printed application transmittal form. The USPTO believes that these back-up copies will be prepared by paraprofessionals with an estimated hourly rate of \$30 per hour, for a total recordkeeping cost of \$11 per year.

In addition, the USPTO also strongly advises applicants who file their new utility and provisional applications electronically to retain a copy of the file submitted to the USPTO as evidence of authenticity, in addition to keeping the acknowledgment receipt as clear evidence that on the date noted the file was received by the USPTO. The USPTO estimates that it will take 5 seconds (0.001 hours) to print and retain a copy of the new utility and provisional submissions and that approximately 4,138 (3,498 new utility and 640 provisional applications) submissions per year will use this option, for a total of 4 hours per year.

Using the paraprofessional rate of \$30 per hour, the USPTO estimates that the recordkeeping cost for retaining this copy will be \$120 per year. The total recordkeeping cost for this collection is \$131 per year.

There is also annual nonhour cost burden in the way of filing fees associated with this collection. The basic filing fees for the utility, plant, design, and provisional applications are determined by which filing status (other than small entity or small entity) the applicant has selected. The filing fees for the electronically-filed new utility and provisional applications are the same as those for the paper applications. The small entity status does not apply to the petition to accept a delayed priority claim. There are no filing fees associated with the oversized CD submissions.

The total estimated filing costs for this collection of \$254,214,490 are calculated in the accompanying chart.

Item	Responses (yr) (a)	Filing fees (b)	Total annual cost (yr) (a) × (b)

• Cover Letter.			
Totals	452,487	254,214,490.00

The USPTO estimates that the total non-hour respondent cost burden for this collection, in the form of capital start-up, operation, recordkeeping, and postage costs, and filing fees, is \$262,216,319 per year.
