BILLING CODE 4410-09-M

DEPARTMENT OF LABOR

Pension and Welfare Benefits Administration

Proposed Extension of Information Collection Request Submitted for Public Comment; ERISA Summary Annual Report

AGENCY: Pension and Welfare Benefits Administration, Department of Labor.

ACTION: Notice.

SUMMARY: The Department of Labor, as part of its continuing effort to reduce paperwork and respondent burden, conducts a preclearance consultation program to provide the general public and Federal agencies with an opportunity to comment on proposed and continuing collections of information in accordance with the Paperwork Reduction Act of 1995 (PRA 95). This program helps to ensure that requested data can be provided in the desired format, reporting burden (time and financial resources) is minimized, collection instruments are clearly understood, and the impact of collection requirements on respondents can be properly assessed. Currently, the Pension and Welfare Benefits Administration is soliciting comments on the proposed extension of the ERISA Summary Annual Report requirement.

A copy of the information collection request (ICR) can be obtained by contacting the individual shown in the Addresses section of this notice.

DATES: Written comments must be submitted to the office shown in the **ADDRESSES** section on or before February 10, 2003.

ADDRESSES: Gerald B. Lindrew, Department of Labor, Pension and Welfare Benefits Administration, 200 Constitution Avenue NW., Washington, DC 20210, (202) 693-8410, FAX (202) 693-4745 (these are not toll-free numbers).

SUPPLEMENTARY INFORMATION:

I. Background

Section 104(b)(3) of ERISA and regulations published at 29 CFR 2520.104b-10 require, with certain exceptions, that administrators of employee benefit plans furnish participants and beneficiaries annually with material that fairly summarizes the information included in the plan's latest annual report. The regulation prescribes the format for the summary annual report (SAR), and requires that the SAR be provided within nine months after the close of the plan year.

The SAR is required to be provided to plan participants and beneficiaries to ensure that they are informed concerning the financial operation and condition of their plans. These disclosures to plan participants also assist the Department in its enforcement responsibilities by providing participants with sufficient information to exercise their rights under ERISA.

II. Review Focus

The Department of Labor (Department) is particularly interested in comments that:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
- Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
- Enhance the quality, utility, and clarity of the information to be collected; and
- Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submissions of responses.

III. Current Actions

The Office of Management and Budget's (OMB) approval of this ICR will expire on February 28, 2003. After considering comments received in response to this notice, the Department intends to submit the ICR to OMB for continuing approval. No change to the existing ICR is proposed or made at this time.

Agency: Pension and Welfare Benefits Administration, Department of Labor.

Title: ERISA Summary Annual Report.

Type of Review: Extension of a currently approved collection of information.

OMB Number: 1210-0040.

Affected Public: Individuals or households; Business or other for-profit; Not-for-profit institutions.

Respondents: 815,114.

Responses: 304,196,000.

Estimated Total Burden Hours: 325,240.

Estimated Total Burden Cost (Operating and Maintenance): \$142,448,000.

Comments submitted in response to this notice will be summarized and/or included in the request for Office of Management and Budget approval of the information collection request; they will also become a matter of public record.

Dated: December 4, 2002.

Gerald B. Lindrew,

Deputy Director, Office of Policy and Research, Pension and Welfare Benefits Administration.

BILLING CODE 4510-29-M

NUCLEAR REGULATORY COMMISSION

[Docket No. 50-302]

Florida Power Corporation; Crystal River Unit 3; Environmental Assessment and Finding of No Significant Impact

The U.S. Nuclear Regulatory Commission (NRC) is considering issuance of an exemption from Title 10 of the Code of Federal Regulations (10 CFR) part 55, section 55.59(c) for Facility Operating License No. DPR-72, issued to Florida Power Corporation (the licensee), for operation of Crystal River Unit 3 (CR-3), located in Citrus County, Florida. Therefore, as required by 10 CFR 51.21, the NRC is issuing this environmental assessment and finding of no significant impact.

Environmental Assessment

Identification of the Proposed Action

The proposed action would constitute a one-time exemption to allow the licensed operator requalification examinations for CR-3 to be rescheduled. The requested exemption would extend the completion date for the examinations from December 31, 2002, to February 28, 2003.

The proposed action is in accordance with the licensee's application for exemption dated November 18, 2002.

The Need for the Proposed Action

The proposed action would extend the current CR-3 requalification program from December 31, 2002, to February 28, 2003. The proposed action is needed to allow for minimal interruption of the licensed personnel operating the plant during a potential labor action. Specifically, should such a labor action occur, the licensee has stated that CR-3 will be operated by personnel with current NRC licenses not affected by the labor action. The licensee deems it prudent to allow the licensed personnel operating the plant to remain fully available to stand watch on operating crews and not be distracted by completing the licensed operator requalification program by December 31, 2002.

Environmental Impacts of the Proposed Action

The NRC has completed its evaluation of the proposed action and concludes that there are no significant environmental impacts associated with the extension of the operator requalification examinations from December 31, 2002, to February 28, 2002.

The proposed action will not significantly increase the probability or consequences of accidents, no changes are being made in the types of effluents that may be released off site, and there is no significant increase in occupational or public radiation exposure. Therefore, there are no significant radiological environmental impacts associated with the proposed action.

With regard to potential non-radiological impacts, the proposed action does not have a potential to affect any historic sites. It does not affect non-radiological plant effluents and has no other environmental impact. Therefore, there are no significant non-radiological environmental impacts associated with the proposed action.

Accordingly, the NRC concludes that there are no significant environmental impacts associated with the proposed action.

Environmental Impacts of the Alternatives to the Proposed Action

As an alternative to the proposed action, the staff considered denial of the proposed action (*i.e.*, the "no-action" alternative). Denial of the application would result in no change in current environmental impacts. The environmental impacts of the proposed action and the alternative action are similar.

Alternative Use of Resources

The action does not involve the use of any different resources than those previously considered in the Final Environmental Statement for CR-3.

Agencies and Persons Consulted

On November 22, 2002, the staff consulted with the Florida State official, William Passetti of the Florida Department of Health Bureau of Radiation Control, regarding the environmental impact of the proposed action. The State official had no comments.

Finding of No Significant Impact

On the basis of the environmental assessment, the NRC concludes that the proposed action will not have a significant effect on the quality of the human environment. Accordingly, the NRC has determined not to prepare an environmental impact statement for the proposed action.

For further details with respect to the proposed action, see the licensee's letter dated November 18, 2002. Documents may be examined, and/or copied for a fee, at the NRC's Public Document Room (PDR), located at One White Flint North, 11555 Rockville Pike (first floor), Rockville, Maryland. Publicly available records will be accessible electronically from the Agencywide Documents Access and Management System (ADAMS) Public Electronic Reading Room on the Internet at the NRC Web site, <http://www.nrc.gov/reading-rm/adams.html>. Persons who do not have access to ADAMS or who encounter problems in accessing the documents located in ADAMS, should contact the NRC PDR Reference staff by telephone at 1-800-397-4209 or 301-415-4737, or by e-mail to pdr@nrc.gov.

Dated at Rockville, Maryland, this 4th day of December 2002.

For the Nuclear Regulatory Commission.

Allen G. Howe,

*Chief, Section 2, Project Directorate II,
Division of Licensing Project Management,
Office of Nuclear Reactor Regulation.*

BILLING CODE 7590-01-P

NUCLEAR REGULATORY COMMISSION

Advisory Committee on Nuclear Waste; Notice of Meeting

The Advisory Committee on Nuclear Waste (ACNW) will hold its 139th meeting on December 17-19, 2002, at 11545 Rockville Pike, Rockville, Maryland, Room T-2B3.

The entire meeting will be open to public attendance.

The schedule for this meeting is as follows:

Tuesday, December 17, 2002

A. 10:30-10:40 a.m.: Opening Statement (Open)—The Chairman will open the meeting with brief opening remarks, outline the topics to be discussed, and indicate several items of interest.

B. 10:40-12:15 p.m.: Staff Analyses for Understanding Repository Performance (Open)—The Committee will hear presentations by and hold discussions with representatives of the NRC staff on its analyses development on the use of risk information for the proposed Yucca Mountain repository.

C. 1:30-3:30 p.m.: Preparation of ACNW Reports (Open)—The Committee will discuss proposed reports on the following topics:

- Staff Analyses for Understanding Repository Performance
- Conclusions Regarding the Safety of Spent Nuclear Fuel Transportation
- Trip Report: October Visit to Swedish Waste Management Facilities and Participation in Berlin Quadripartite Meeting

D. 3:45-6 p.m.: Preparation for Meeting with the NRC Commissioners (Open)—The next meeting with the NRC Commissioners is scheduled to be held at 9:30 a.m. in the Commissioners' Conference Room, One White Flint North on December 18, 2002. The Committee will review its proposed presentations.

Wednesday, December 18, 2002

E. 8:30-8:35 a.m.: Opening Remarks by the ACNW Chairman (Open)—The ACNW Chairman will make opening remarks regarding the conduct of the meeting.

F. 8:35-9:10 a.m.: Discussion of Topics for Meeting with the NRC Commissioners (Open)—The Committee will discuss topics scheduled for the ACNW meeting with the NRC Commissioners at 9:30 a.m.

G. 9:30-11:30 a.m.: Meeting with the NRC Commissioners (Open)—The Committee will meet with the NRC Commissioners in the Commissioners' Conference Room, One White Flint North to discuss the following:

- HLW Program Risk Insights Initiative
- Yucca Mountain Review Plan
- Spent Fuel Transportation
- Igneous Activity at Yucca Mountain
- Container Life and Source Term KTI

H. 1-3:30 p.m.: NRC Nuclear Waste Safety Research and Technical Assistance Programs (Open)—The
