

ENVIRONMENTAL PROTECTION AGENCY**40 CFR Parts 61 and 63**

[FRL-7223-4]

Approval of the Clean Air Act, Section 112(I), Delegation of Authority to the Oregon Department of Environmental Quality and Lane Regional Air Pollution Authority**AGENCY:** Environmental Protection Agency (EPA).**ACTION:** Proposed rule.

SUMMARY: The Environmental Protection Agency, Region 10 (EPA) is proposing to approve the Oregon Department of Environmental Quality's (ODEQ) request, on behalf of itself and the Lane Regional Air Pollution Control Authority (LRAPA), program approval and delegation of authority to implement and enforce certain National Emission Standards for Hazardous Air Pollutants (NESHAPs).

Pursuant to the authority of section 112(I) of the Act, this proposed approval is based on EPA's finding that state law, regulations, and agency resources meet the requirements for program approval and delegation of authority specified in regulations pertaining to the criteria for delegation common to all approval options, and in applicable EPA guidance (see 40 CFR 60.91).

This delegation would acknowledge ODEQ and LRAPA's ability to implement a NESHAP program and to transfer primary implementation and enforcement responsibility from EPA to ODEQ and LRAPA. Although EPA would look to ODEQ and LRAPA as the leads for implementing the delegated NESHAPs in their respective jurisdictions, EPA retains authority under section 113 of the Act to enforce any applicable emission standard or requirement, if needed.

In the Final Rules section of this **Federal Register**, the EPA is publishing its approval as a direct final rule without prior proposal because the Agency views this as a non-controversial determination and anticipates no adverse comments. A detailed rationale for the approval is set forth in the direct final rule. If no adverse comments are received in response to this action, no further activity is contemplated.

If the EPA receives adverse comments, the direct final rule will be withdrawn and all public comments received will be addressed in a subsequent final rule based on this proposed rule. The EPA will not institute a second comment period. Any

parties interested in commenting on this action should do so at this time.

DATES: Written comments must be received on or before July 10, 2002.

ADDRESSES: Written comments should be submitted to Jeff KenKnight, Manager, Federal and Delegated Air Programs Unit, Office of Air Quality (OAQ-107), U.S. Environmental Protection Agency, Region 10, 1200 Sixth Avenue, Seattle, Washington 98101, (206) 553-6641.

Copies of delegation requests and other supporting documentation are available for public inspection during normal business hours at the U.S. Environmental Protection Agency, Region 10, 1200 Sixth Avenue, Seattle, Washington 98101. Interested persons wanting to examine these documents should make an appointment with the appropriate office at least 24 hours before the visiting day.

FOR FURTHER INFORMATION CONTACT: Jeff KenKnight, Manager, Federal and Delegated Air Programs Unit, Office of Air Quality (OAQ-107), U.S. Environmental Protection Agency, Region 10, 1200 Sixth Avenue, Seattle, Washington 98101, (206) 553-6641.

SUPPLEMENTARY INFORMATION: For additional information, see the Direct Final rule which is located in the Rules section of this **Federal Register**.

Dated: May 24, 2002.

Ronald A. Kreizenbeck,

Acting Regional Administrator, Region 10.

ENVIRONMENTAL PROTECTION AGENCY**40 CFR Part 62**

[ME 067-7016b; FRL-7226-9]

Approval and Promulgation of State Plans for Designated Facilities and Pollutants: Maine; Negative Declaration**AGENCY:** Environmental Protection Agency (EPA).**ACTION:** Proposed rule.

SUMMARY: EPA proposes to approve the sections 111(d)/129 negative declaration submitted by the Maine Department of Environmental Protection (DEP) on January 24, 2002. This negative declaration adequately certifies that there are no existing commercial and industrial solid waste incineration units (CISWIs) located within the boundaries of the state of Maine.

DATES: EPA must receive comments in writing by July 10, 2002.

ADDRESSES: You should address your written comments to: Mr. Steven Rapp, Chief, Air Permits Program Unit, Office of Ecosystem Protection, U.S. EPA, One Congress Street, Suite 1100 (CAP), Boston, Massachusetts 02114-2023.

Copies of documents relating to this proposed rule are available for public inspection during normal business hours at the following location: Environmental Protection Agency, Air Permits Program Unit, Office of Ecosystem Protection, One Congress Street, Suite 1100, Boston, Massachusetts 02114-2023. The interested persons wanting to examine these documents should make an appointment with the appropriate office at least 24 hours before the day of the visit.

FOR FURTHER INFORMATION CONTACT: John Courcier, Office of Ecosystem Protection (CAP), EPA-New England, Region 1, Boston, Massachusetts 02203, (617) 918-1659, or by e-mail at *courcier.john@epa.gov*. While the public may forward questions to EPA via e-mail, it must submit comments on this proposed rule according to the procedures outlined above.

SUPPLEMENTARY INFORMATION: Under section 111(d) of the Clean Air Act, EPA published regulations at 40 CFR part 60, subpart B which require states to submit control plans to control emissions of designated pollutants from designated facilities. In the event that a state does not have a particular designated facility located within its boundaries, EPA requires that a negative declaration be submitted in lieu of a control plan.

The Maine DEP submitted the negative declaration to satisfy the requirements of 40 CFR part 60, subpart B. In the Final Rules section of this **Federal Register**, EPA is approving the Maine negative declaration as a direct final rule without a prior proposal. EPA is doing this because the Agency views this action as a noncontroversial submittal and anticipates that it will not receive any significant, material, and adverse comments. A detailed rationale for the approval is set forth in the direct final rule. If EPA does not receive any significant, material, and adverse comments to this action, then the approval will become final without further proceedings. If EPA receives adverse comments, the direct final rule will be withdrawn and EPA will address all public comments received in a subsequent final rule based on this proposed rule. EPA will not begin a second comment period.
