

Handbook for Unemployment Compensation for Ex-Servicemembers. Each SWA must be able to obtain certain military service information from each claimant filing for UCX benefits to enable them to determine his/her eligibility. The forms ETA 841 and ETA 843 (and related instructions) contained in the UCX Handbook are necessary and utilized by SWAs for the purpose of obtaining this needed information. The form ETA 841, which is in the current Office of Management and Budget (OMB) inventory of approved burden collection, has become an optional form and is no longer used by the majority of SWAs. Since the ETA 841 is rarely used, the burden is so minimal it cannot be determined; hence, no burden is being requested.

Information pertaining to the UCX claimant can only be obtained from the individual's military discharge papers, the appropriate branch of military service or the Department of Veterans Affairs (formerly the Veterans Administration). If the claimant does not have this information available, the most feasible and effective way to obtain this information is by use of the form prescribed by the Department of Labor for State agency use. Without this information, SWAs could not adequately determine the eligibility of ex-servicemembers and would not be able to properly administer the program.

II. Review Focus

The Department of Labor is particularly interested in comments which:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
- Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
- Enhance the quality, utility, and clarity of the information to be collected; and
- Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submissions of responses.

III. Current Actions

This is a request for OMB approval under the Paperwork Reduction Act of 1995 (44 U.S.C. 3506(c)(2)(A)) of an

extension to an existing collection of information previously approved and assigned OMB control No. 1205-0176. The current burden was based on an inventory of 66,126 UCX claims filed in FY 1999 attributed to military downsizing that took place during FY 1999 which caused a higher number of UCX claims to be filed. This request is based on same number of UCX claims filed in FY 99 since it is estimated that approximately the same number of UCX claims will be filed in fiscal years 2003, 2004 and 2005 attributed to the recall of ex-servicemembers, reservists and National Guard members to active duty due to the Middle East and Afghanistan crises. Fifty-three (53) SWAs fill out the ETA 843. The ETA 843 is used by SWAs only when it is necessary to obtain additional clarifying information from the military pertaining to the UCX claimant or to obtain a copy of DD Form 214 that was not issued to the claimant when separated from military service. It is estimated that only 5 percent (3,306) of the UCX claims filed will require use of the ETA 843. The form ETA 843 maybe sent to any one of the four branches of military service (Army, Navy, Marines, Air Force), the Coast Guard, or the National Oceanic Atmospheric Administration. These latter two agencies are considered branches of military service for UCX purposes but are not under the jurisdiction of the Department of Defense.
