[Docket No. ICR-1218-0143(2003)]

Standard on Presence Sensing Device Initiation (PSDI) (29 CFR 1910.217(h)); Extension of the Office of Management and Budget's Approval of Information-Collection (Paperwork) Requirements

AGENCY: Occupational Safety and Health Administration (OSHA), Labor.

ACTION: Request for comment.

SUMMARY: OSHA requests comment on its proposal to extend OMB approval of the information-collection requirements contained in its Standard on Presence Sensing Device Initiation (PSDI) (29 CFR 1910.217(h)). This standard regulates the use of presence-sensing devices ("PSDs") in mechanical power-press safety systems; a PSD (*e.g.*, a photoelectric field or curtain) automatically stops the stroke of a mechanical power press when the device detects an operator entering a danger zone near the press. Accordingly, the standard protects employees from serious crush injuries, amputations, and death.

DATES: Submit written comments on or before March 24, 2003.
