## THE WHITE HOUSE

WASHINGTON

August 31, 2000

The Speaker of the

House of Representatives

Sir:

In accordance with provisions of P.L. 106-113, the Omnibus Consolidated Appropriations Act, 2000, I hereby request the following:

## **Department of the Agriculture**

• Forest Service, Wildland Fire Management: \$90,000,000

These funds will be used to address urgent needs arising from the consequences of the severe and numerous fires on Federal public lands throughout the western United States.

I hereby designate the above request as an emergency requirement pursuant to section 251(b)(2)(A) of the Balanced Budget and Emergency Deficit Control Act of 1985, as amended.

The details of this action are set forth in the enclosed letter from the Director of the Office of Management and Budget. I concur with his comments and observations.

Sincerely,

William J. Chuton

Enclosure

Estimate No. 22 106th Congress, 2nd Session

THE DIRECTOR

EXECUTIVE OFFICE OF THE PRESIDENT OFFICE OF MANAGEMENT AND BUDGET WASHINGTON, D.C. 2003

August 31, 2000

The President

The White House

Submitted for your consideration is a request to make available previously appropriated contingent emergency funds for the Department of Agriculture (USDA). Your approval of this request would make available \$90 million to fight wildland fires and rehabilitate fire-damaged Federal public lands in the western United States. This request is in addition to the total of \$300 million that you made available to USDA on July 14th and August 9th, provided in prior Appropriation Acts, to address urgent firefighting needs.

P.L. 106-113, the Omnibus Consolidated Appropriations Act, 2000, provided \$651 million to USDA for wildland fire management activities. The availability of a portion of this funding -- \$90 million -- was made contingent upon the President submitting a budget request to the Congress and designating the entire amount requested as an emergency requirement.

Major fires in western States continue to result in costs that greatly exceed those of the average firefighting season, and new fires are being started daily by lightning and other causes. Funds currently available to USDA for wildland fire operations are insufficient to cover the expenses estimated to be incurred during this fiscal year. The funds now requested to be made available would support emergency wildland fire operations, including fire suppression and rehabilitation of fire-damaged lands.

I recommend that you designate this request for \$90 million as an emergency requirement in accordance with section 251(b)(2)(A) of the Balanced Budget and Emergency Deficit Control Act of 1985, as amended. No further congressional action will be required.

I have carefully reviewed this proposal and am satisfied that it is necessary at this time. Therefore, I join the Secretary of Agriculture in recommending that you make the requested funds available by signing the enclosed letter to the Speaker of the House of Representatives.

Sincerely,

Jacob J. Lew Director

Enclosure

## EMERGENCY APPROPRIATIONS: AMOUNTS PREVIOUSLY APPROPRIATED MADE AVAILABLE BY THE PRESIDENT

## **Department of Agriculture (USDA)**

Forest Service:	
Wildland Fire Management	\$90,000,000

P.L. 106-113, the Omnibus Consolidated Appropriations Act, 2000, provided \$651 million to USDA for wildland fire management activities. The availability of a portion of this funding -- \$90 million -- was made contingent upon the President submitting a budget request to the Congress and designating the entire amount requested as an emergency requirement.

Major fires in the western United States continue to result in costs that greatly exceed those of the average firefighting season. At this time, the \$90 million in contingent funding is required to address urgent needs arising from the consequences of the severe and numerous fires on Federal public lands throughout the western United States. This funding will support emergency wildland fire operations, including fire suppression and rehabilitation of fire-damaged lands.
