

# Workshop Objectives

- Report external review of the relevance, quality, and overall current or projected impact of NP305 research over the last 5 years
- Identify strengths and weaknesses of NP305 and develop suggestions for improvement for next 5 years
- Identify research needs of customers, stakeholders, and partners and describe emerging opportunities for research progress for the next 5 years
- Begin developing an action plan for the next 5 years

# Expected Outcomes

- Understanding of the strengths and weaknesses of NP305 research program during the past 5 years
- Awareness of current needs of customers/stakeholders/partners
- Identification of changes to NP305 to strengthen it over the next 5 years
- Team of ARS scientists appointed to draft Action Plan for next 5 years

# Breakout Groups

- **Crop Production & Automation**
  - Room – Plenary Room
  
- **Bees & Pollinators**
  - Room – Salon IV
