## Experts in Emergency

## Disaster Time Line: Selected Milestone Events & U.S. Outcomes (1965-2001)

by Claire B. Rubin, President, Claire B. Rubin & Associates, and Adjunct Assistant Professor, Institute for Crisis, Disaster & Risk Management, Dept. of Engineering Management and Systems Engineering, SEAS, The George Washington University & Irmak R. Tanali, Research Associate, D.Sc. Candidate, Institute for Crisis, Disaster & Risk Management, Dept. of Engineering Management and Systems Engineering, SEAS, The George Washington University

<sup>1</sup> Prior to 1965, several major pieces of disaster related legislation were in place; such as, Oil Pollution Act of 1924, and the Disaster Relief Act of 1950.

<sup>3</sup> These are influential events, but did not result in direct policy outcomes.

<sup>2</sup> The Office of Emergency Planning in the office of the President was in place from 1962 to 1974.

<sup>5</sup> In 2000, Y2K-related technological problems were a major threat but not a disaster.
