Instructions for Reporting by Occupation

Report **part-time workers** in the job they perform.

Report **apprentices** in the job for which they are being trained.

Report employees in the following ways:

- Use the description of duties along with the job titles to determine where to place employees. Do not rely on job titles alone.
- Report employees in the occupations in which they are working, **not** necessarily in occupations for which they have been trained.
For example: An employee trained as an engineer, but working as a drafter, should be reported as a drafter.
- Report each employee only once in the occupation that requires the **highest** level of skill if the employee performs work in two or more occupations. If there is **no** measurable difference in skill requirements, report employees in the occupation in which they spend the **most** time.
- Professionals who directly supervise other workers in professional occupations should be classified in the same occupation as the workers they supervise. For example, an economist that supervises other economists is classified as an economist.

Instructions for Reporting Wage Information

For all employees:

- Please use the hourly and annual wage rate categories to report employees. If wages are not recorded by hour or year (bi-weekly, or monthly for example), convert them into an hourly wage rate.
- For part-time workers, please report the specific hourly wage rate, not an average.
- For tip, commission, and piece-rate workers, please estimate the earnings (base pay plus tips, commissions, or piece rates), and report the appropriate wage.
- For salaried workers who do not work a standard 2080 hours per year (40 hours per week), please report wages on an hourly basis. For workers who are paid an annual salary by contract, such as Airline Pilots, report their annual salary.
- Include and/or exclude from pay as follows:

Include as pay

- Base Rate
- Commissions
- Tips
- Deadheading Pay
- Guaranteed Pay
- Hazard Pay
- Incentive Pay
- Longevity Pay
- On-call Pay

Instructions for Completing the Report

On the following pages you will find the Occupational Employment Report. Please refer to the example below and the guidelines on page ii for instructions on how to complete the form. If you have employees whose occupations are not found in the list provided, please use the supplemental pages at the end of this report. Please write each unique occupational title on a separate line along with a short description of duties, the number of employees in each wage category, and the total employment for each occupation.

1 For each occupation listed, read the definition to determine which occupations are found in your establishment.

2 For each occupation that is found in your establishment, write in the number of workers in this occupation, based on their wages. For example, there are six Accountants in your establishment. One is part-time, working 20 hours a week, and earns \$12,480 per year; and five are full-time: two earn \$32,000 per year, and three earn \$46,000. Calculate an hourly wage for the part-time worker by dividing the annual wage by the number of hours worked; 20 hrs x 52 weeks = 1040 hrs/yr, \$12480/1040 hrs = \$12/hr. Write "1" in column D. For the full-time workers, use their annual wage: write "2" in column E and "3" in column F.

3 Add up the total number of workers in this occupation and write the figure in the Total Employment column, making sure the total agrees with your records.

Supplemental Instructions for Faculty and Instructors

The instructions on pages ii and iii of the Occupational Employment Statistics Survey of Educational Services questionnaire direct you to convert wages to an hourly basis if wages are not recorded annually or by the hour. This procedure may not be appropriate for postsecondary faculty members. Use the guidelines and the tables below to determine the correct wage categories. **Do not convert faculty wages to an hourly basis.**

1 Full-time faculty earning an annual salary:

Report these faculty members in the wage category corresponding to their annual salary.

For example, report a Biology Professor who is paid an annual salary of \$30,000 in wage category D.

2 Faculty working less than full-time and earning an annual salary:

If a faculty member or instructor is employed on a half, three-quarters, one-third, or two-thirds time basis, refer to **Table 1**.

1. Find the column that describes how the faculty member is employed, either half-time, three-quarters time, one-third time, or two-thirds time.
2. Next, find the faculty member's annual salary in the wage ranges provided.
3. Look in the far left column to determine the correct wage category.

For example, report an adjunct History Professor who is half-time and is paid an annual salary of \$18,000 in wage category E.

3 Faculty being paid on a per-credit basis:

If a faculty member or instructor is considered adjunct or is paid **per-credit hour** taught, use:

Table 2 if your institution adheres to a **semester** schedule

Table 3 if your institution adheres to a **quarter** schedule

For example, report a part-time Sociology Instructor who is paid \$350 per credit hour taught at a university with a semester schedule in wage category B.

4 Faculty being paid on a per-course basis:

If your institution pays on a **per-course** taught basis, divide the pay by the number of credits the course is worth, and refer to **Tables 2 or 3**, as appropriate, to determine the correct wage category.

For example, report an English Instructor who is paid \$1200 for a three credit course taught at a university with a quarter schedule in wage category C. (\$1200 divided by three credits equals \$400 per credit hour.)
