

§ 589.7

GVWR of 3,860 kilograms or less for sale in the United States must report the number of such vehicles manufactured during the current production year. However, manufacturers are not required to report any information with respect to those vehicles that are walk-in van type vehicles, vehicles manufactured in two or more stages, and/or vehicles that are altered after previously having been certified in accordance with part 567 of this chapter.

(2) *Production.* Each manufacturer shall report for the production year for which the report is filed the number of passenger cars and multipurpose passenger vehicles and trucks with a GVWR of 4,536 kilograms or less and buses with a GVWR of 3,860 kilograms or less that meet the upper interior component head impact protection requirements (S6) of Standard No. 201.

(3) *Vehicles produced by more than one manufacturer.* Each manufacturer whose reporting of information is affected by one or more of the express written contracts permitted by S6.1.6.2 of Standard No. 201 shall:

(i) Report the existence of each contract, including the names of all parties to the contract, and explain how the contract affects the report being submitted.

(ii) Report the actual number of vehicles covered by each contract.
