1 Industry sectors are determined by the 2002 North American Industry Classification System (NAICS).
2 Earnings are the straight-time hourly wages or salaries paid to employees. They include incentive pay, cost-of-living adjustments, and hazard pay. Excluded are premium pay for overtime, vacations, and holidays; nonproduction bonuses; and tips. The mean is computed by totaling the pay of all workers and dividing by the number of workers, weighed by hours.
3 A classification system including about 800 individual occupations is used to cover all workers in the civilian
economy. See appendix B for more information.
