

# pump it out!

Larime, Inc.

When was the last time you had your **septic system** pumped? Can't recall? Then it's been too long.

Protect your investment in your water treatment system. Have your septic system pumped and inspected every three years by a licensed septic tank service contractor. Remember, a failed septic system is expensive to replace and it compromises water quality.

Protect your **investment**.  
Protect the **river**. It's that **easy**.

A partnership of the Huron River Watershed Council,  
City of Ann Arbor Water Utilities Department, USEPA and MDEQ.
