

# Resolve...to protect your drinking water

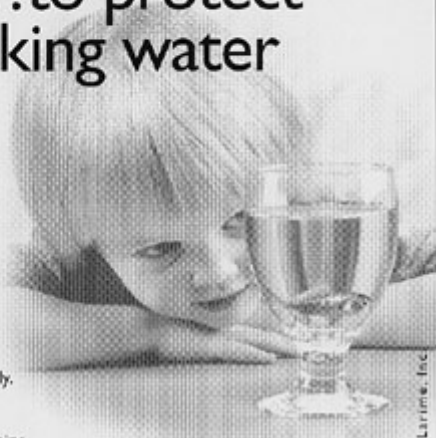

From the well or the tap,  
the **watershed** is the source  
of your drinking water.

## It's precious...

- **Water** makes up three-quarters of our planet.
- **Only 1%** of all the water on earth is accessible and clean enough for our consumption.
- **All people, plants and animals** must share this same 1% water supply.

## Make every drop count...

- **A watershed** is all the land that drains into a common water body, such as a stream, creek or lake.
- **The Huron River** is the cleanest urban river in Michigan. The Huron provides drinking water, recreation and hydro electric power to over 500,000 people.
- **Preserving** the Huron River and its watershed **means protecting** your drinking water resources.

Larime, Inc.

## Resolve to do more...

- **Call us** for your free packet of tip cards. You'll see that protecting the Huron River also saves you time and money!
- **Become a member** of the Huron River Watershed Council. We've been protecting water resources for over 35 years, and have a proven history of efficient, effective use of funds.

Remember... **small** actions make a  
**big** difference. It's that **simple**.

A partnership of the Huron River Watershed Council, USEPA and MDEQ.
