The Contractor shall not be paid for any work performed or costs incurred, which reasonably could have been avoided.

(l) *Termination for cause.* The Government may terminate this contract, or any part hereof, for cause in the event of any default by the Contractor, or if the Contractor fails to comply with any contract terms and conditions, or fails to provide the Government, upon request, with adequate assurances of future performance. In the event of termination for cause, the Government shall not be liable to the Contractor for any amount for supplies or services not accepted, and the Contractor shall be liable to the Government for any and all rights and remedies provided by law. If it is determined that the Government improperly terminated this contract for default, such termination shall be deemed a termination for convenience.

(End of Clause)

3.3.1-17 Prompt Payment (February 2003)

Notwithstanding any other payment clause in this contract, the Government will make invoice payments and contract financing payments under the terms and conditions specified in this clause. Payment shall be considered as being made on the day a check is dated or an electronic funds transfer is made. All days referred to in this clause are calendar days, unless otherwise specified.

(a) Invoice Payments.

(1) For purposes of this clause, invoice payment means a Government disbursement of monies to a Contractor under a contract or other authorization for supplies or services accepted by the Government. This includes payments for partial deliveries that have been accepted by the Government, final payments under T&M and labor-hour contracts, and final cost or fee payments where amounts owed have been settled between the Government and the Contractor.

(2) Except as indicated in subparagraph (a)(3) and paragraph (c) of this clause, the due date for making invoice payments by the designated payment office shall be the later of the following two events:

(i) The 30th day after the designated billing office has received a proper invoice from the Contractor.

(ii) The 30th day after Government acceptance of supplies delivered or services performed by the Contractor. On a final invoice where the payment amount is subject to contract settlement actions, acceptance shall be deemed to have occurred on the effective date of the contract settlement. However, if the designated billing office fails to annotate the invoice with the actual date of receipt, the invoice payment due date shall be deemed to be the 30th day after the date the Contractor's invoice is dated, provided a proper invoice is received and there is no disagreement over quantity, quality, or Contractor compliance with contract requirements.

(3) An invoice is the Contractor's bill or written request for payment under the contract for supplies delivered or services performed. An invoice shall be prepared and submitted to the designated billing officer specified in the contract. A proper invoice must include the items listed in subdivisions (a)(3)(i) through (a)(3)(viii) of this clause. If the invoice does not comply with these requirements, then the Contractor will be notified of the defect within 7 days after receipt of the invoice at the designated billing office. Untimely notification will be taken into account in the computation of any interest penalty owed the Contractor in the manner described in subparagraph (a)(6) of this clause.

(i) Name and address of the Contractor.

(ii) Invoice date.

(iii) Contract number or other authorization for supplies delivered or services performed (including order number and contract line item number).

(iv) Description, quantity, unit of measure, unit price, and extended price of supplies delivered or services performed.

(v) Shipping and payment terms (e.g., shipment number and date of shipment, prompt payment discount terms). Bill of lading number and weight of shipment will be shown for shipments on Government bills of lading.

(vi) Name and address of Contractor official to whom payment is to be sent (must be the same as that in the contract or in a proper notice of assignment).

(vii) Name (where practicable), title, phone number and mailing address of person to be notified in event of a defective invoice.

(viii) Any other information or documentation required by other requirements of the contract (such as evidence of shipment).

(4) An interest penalty shall be paid automatically by the Government, without request from the contractor, if payment is not made by the due date and the conditions listed in subdivisions (a)(4)(i) through (a)(4)(iii) of this clause are met, if applicable.

(i) A proper invoice was received by the designated billing office.

(ii) A receiving report or other Government documentation authorizing payment was processed and there was no disagreement over quantity, quality, or contractor compliance with any contract term or condition.

(iii) In the case of a final invoice for any balance of funds due the Contractor for supplies delivered or services performed, the amount was not subject to further contract settlement actions between the Government and the Contractor.

(5) The interest penalty shall be as specified in the "Interest" clause. The interest penalty amount, interest rate and the period for which the interest penalty was computed, will be separately stated by the designated payment office on the check, in accompanying remittance advice, or, in the case of wire transfers, by an appropriate electronic data message accompanying the wire transfer. If the designated billing office failed to notify the Contractor of a defective invoice within the periods prescribed in subparagraph (a)(3) of this clause, then the due date on the corrected invoice will be adjusted by subtracting the number of days taken beyond the prescribed notification of defects period. Any interest penalty owed the Contractor will be based on this adjusted due date. Adjustments will be made by the designated payment office for errors in calculating interest penalties, if requested by the Contractor.

(i) For the sole purpose of computing an interest penalty that might be due the contractor, Government acceptance shall be deemed to have occurred constructively on the 7th day (unless otherwise specified in this contract) after the contractor delivered the supplies or performed the services in accordance with the terms and conditions of the contract, unless there is a disagreement over quantity, quality, or contractor compliance with a contract provision. In the event that actual acceptance occurs within the constructive acceptance period, the determination of an interest penalty shall be based on the actual date of acceptance. The constructive acceptance requirement does not, however, compel Government officials to accept supplies or services, perform contract administration functions, or make payment prior to fulfilling their responsibilities.

(ii) The following periods of time will not be included in the determination of an interest penalty:

(A) The period taken to notify the Contractor of defects in invoices submitted to the Government, but this may not exceed 7 days.

(B) The period between the defects notice and resubmission of the corrected invoice by the Contractor.

(C) Any period of delay caused by incorrect electronic funds transfer (EFT) information, in accordance with the EFT clause of this contract.

(iii) Interest penalties will not continue to accrue after the filing of a claim for such penalties under Federal Aviation Administration (TSA) contract disputes resolution procedures. Interest penalties of less than \$1.00 need not be paid.

(iv) Interest penalties are not required on payment delays due to disagreement between the Government and Contractor over the payment amount or other issues involving contract compliance or on amounts temporarily withheld or retained in accordance with the terms of the contract. Contract disputes, and any interest that may be payable, will be resolved in accordance with TSA contract disputes resolution procedures.

(6) An interest penalty shall also be paid automatically by the designated payment office, without request from the contractor, if a discount for prompt payment is taken improperly. The interest penalty will be calculated as described in subparagraph (a)(5) of this clause on the amount of discount taken for the period beginning with the first day after the end of the discount period through the date when the contractor is paid.

(b) Contract Financing Payments.

(1) For purposes of this clause, contract financing payments mean Government disbursements of monies to a Contractor under a contract clause or other authorization without regard to acceptance of supplies or services by the Government. Contract financing payments include but are not limited to payments made according to commercial terms and installment payments. They also include interim vouchers under T&M, labor-hour, and cost reimbursement contracts (regardless of whether goods or services were delivered and received by the Government).

(2) For contracts that provide for contract financing payments, requests for payment shall be submitted to the designated billing office as specified in this contract or as directed by the Contracting Officer. Payments shall be made on the 30th day after receipt of a proper payment request by the designated billing office. In the event that an audit or other review of a specific payment request is required to ensure compliance with the terms and conditions of the contract, the designated payment office is not compelled to make payment by the due date specified.

(3) Contract financing payments shall not be assessed an interest penalty for payment delays.

(c) If this contract contains the Fast Payment Procedures, payments will be made within 15 days after the date of receipt of the invoice. (End of clause)

3.6.1-7 Limitations on Subcontracting (August 1997)

By submission of an offer and execution of a contract, the Offeror/Contractor agrees that in performance of the contract in the case of a contract for:

(a) Services (except construction). At least 50 percent of the cost of contract performance incurred for personnel shall be expended for employees of the prime contractor.

(b) Supplies (other than procurements from a regular dealer in such supplies). The prime contractor shall perform work for at least 50 percent of the cost of manufacturing the supplies, not including the cost of materials.

(c) General construction. The prime contractor shall perform at least 15 percent of the cost of the contract, not including the cost of materials, with its own employees.

(d) Construction by special trade contractors. The prime contractor shall perform at least 25 percent of the cost of the contract, not including the cost of materials, with its own employees.

Compute small business subcontracting labor cost percentages as follows:

Contractor Subcontractor
 Direct Labor \$ _____ \$ _____
 Allowable Overhead _____
 Subtotal (A) _____ (B) _____
 Labor G&A @ _____ % _____
 Total Labor Costs (C) _____ (D) _____

To calculate the subcontracting percentage, first add Direct Labor and Allowable Overhead and enter the figures for the contractor in space (A) and for the subcontractor (if available)* in space (B).

Next, calculate Labor G & A by multiplying the G & A rate by the subtotal figure in space (A). Calculate subcontractor Labor G & A by multiplying the subcontractor's G & A rate by figure (B). Add the Labor G & A to the Subtotal and record that figure in the spaces for Total Labor Costs (C) and (D).

Now, using the formula $(D)/(C) + (D)$, calculate the subcontracting labor cost percentage.

*You need to be comparing as like figures as possible; therefore, if you have a breakdown of the subcontractor's costs, use it in the formulation above. If you do not have a breakdown of the subcontractors' costs, you should use the Total Subcontracting Amount for item (D), though you should still breakdown the contractor's costs.
 (End of clause)

3.9.1-1 Contract Disputes (February 2003) All contract disputes arising under or related to this contract shall be resolved through the Transportation Security Administration (TSA) dispute resolution system at the FAA Office of Dispute Resolution for Acquisition (ODRA) and shall be governed by the procedures set forth in 14 C.F.R. Parts 14 and 17, which are hereby incorporated by reference. Judicial review, where available, will be in accordance with 49 U.S.C. 46110 and shall apply only to final agency decisions. A contractor may seek review of a final TSA decision only after its administrative remedies have been exhausted.

(b) The filing of a contract dispute with the ODRA may be accomplished by mail, overnight delivery, hand-delivery, or by facsimile. A contract dispute is considered filed on the date it is received by the ODRA.

(c) Contract disputes are to be in writing and shall contain:

(1) The contractor's name, address, telephone and fax numbers and the name, address, telephone and fax numbers of the contractor's legal representative(s) (if any) for the contract dispute;

(2) The contract number and the name of the Contracting Officer;

(3) A detailed chronological statement of the facts and of the legal grounds for the contractor's positions regarding each element or count of the contract dispute (i.e., broken down by individual claim item), citing to relevant contract provisions and documents and attaching copies of those provisions and documents;

(4) All information establishing that the contract dispute was timely filed;

(5) A request for a specific remedy, and if a monetary remedy is requested, a sum certain must be specified and pertinent cost information and documentation (e.g., invoices and cancelled checks) attached, broken down by individual claim item and summarized; and

(6) The signature of a duly authorized representative of the initiating party.

(d) Contract disputes shall be filed at the following address:

Office of Dispute Resolution, AGC-70
Federal Aviation Administration
800 Independence Avenue S.W. Room 323
Washington, DC 20591
Telephone: (202) 267-3290, Facsimile: (202) 267-3720

(2) other address as specified in 14 CFR Part 17.

(e) A contract dispute against the TSA shall be filed with the ODRA within two (2) years of the accrual of the contract claim involved. A contract dispute by the TSA against a contractor (excluding contract disputes alleging warranty issues, fraud or latent defects) likewise shall be filed within two (2) years after the accrual of the contract claim. If an underlying contract entered into prior to the effective date of this part provides for time limitations for filing of contract disputes with the ODRA which differ from the aforesaid two (2) year period, the limitation periods in the contract shall control over the limitation period of this section. In no event will either party be permitted to file with the ODRA a contract dispute seeking an equitable adjustment or other damages after the contractor has accepted final contract payment, with the exception of TSA claims related to warranty issues, gross mistakes amounting to fraud or latent defects. TSA claims against the contractor based on warranty issues must be filed within the time specified under applicable contract warranty provisions. Any TSA claims against the contractor based on gross mistakes amounting to fraud or latent defects shall be filed with the ODRA within two (2) years of the date on which the TSA knew or should have known of the presence of the fraud or latent defect.

(f) A party shall serve a copy of the contract dispute upon the other party, by means reasonably calculated to be received on the same day as the filing is to be received by the ODRA.

(g) After filing the contract dispute, the contractor should seek informal resolution with the Contracting Officer.

(h) The TSA requires continued performance with respect to contract disputes arising under this contract, in accordance with the provisions of the contract, pending a final TSA decision.

(i) The TSA will pay interest on the amount found due and unpaid from (1) the date the Contracting Officer receives the contract dispute, or (2) the date payment otherwise would be due, if that date is later, until the date of payment. Simple interest on contract disputes shall be paid at the rate fixed by the Secretary of the Treasury that is applicable on the date the Contracting Officer receives the contract dispute and then at the rate applicable for each 6-month period as fixed by the Treasury Secretary until payment is made.

(j) Additional information and guidance about the ODRA dispute resolution process for contract disputes can be found on the ODRA Website at <http://www.faa.gov>. (End of clause)

3.9.1-2 Protest After Award (February 2003)

The order to the Contractor shall be in writing, and shall be specifically identified as a stop-work order issued under this clause. Upon receipt of the order, the Contractor shall immediately comply with its terms and take all reasonable steps to minimize the incurrence of costs allocable to the work covered by the order during the period of work stoppage. Upon receipt of the final decision or other resolution of the protest, the Contracting Officer shall either—

(2) The Contractor asserts its right to the adjustment within 30 days after the end of the period of work stoppage; provided, that, if the Contracting Officer decides the facts justify the action, the Contracting Officer may receive and act upon a claim submitted at any time before final payment under this contract.

(c) If a stop-work order is not canceled, and the work covered by the order is terminated for the convenience of the Government, the Contracting Officer shall allow reasonable costs resulting from the stop-work order in arriving at the termination settlement.

Transportation Security Laboratory
Office of Security Technology
Transportation Security Administration
Department of Homeland Security

1.0 PURPOSE

This document defines the minimum technical requirements for a Bottle Screening Device (BSD-0) that could be used at passenger checkpoints for air, maritime and land transportation system venues. The use of the term, 'shall' denotes a requirement, and the term, 'should' indicates a goal. Requirements and goals will be considered in source selection.

2.0 REQUIREMENTS

2.1 DETECTION

2.1.1 THREAT LIQUIDS

BSD-0 *should* accurately detect threat liquids, such as flammables and/or explosives, regardless of liquid temperature in situ (non-invasive measurement) independent of bottle fill level, size, shape, color, or material composition in a typical indoor environment. BSD-0 *should* be able to analyze any bottle containing 100 to 2000 milliliters in common use.

2.1.2 FALSE or NUISANCE ALARM RATE

BSD's false or nuisance alarm rate *should* be less than 5%.

2.1.3 THREAT IDENTIFICATION

On alarm, BSD-0 *should* display information that identifies the contents as either explosive or flammable. BSD-0 *should* also identify the specific liquid.

2.2 PROCESS TIME

BSD-0 analysis time *should* be less than 5 seconds.

2.3 DISPLAYS

BSD-0 *should* provide an automated alarm indication upon threat detection and *should* provide both audible and/or visual indicators which are uniquely different than other device function indicators.

2.4 TEST FUNCTIONS

2.4.1 BUILT-IN TEST

BSD-0 *should* possess an automatic built-in test function on power-up and/or a manual field test kit/process to verify key function points. The duration of this calibration *should* be less than 1 minute.

2.4.2 CONFIGURATION CONTROL

BSD-0 *should* display its current hardware and software configuration.

2.4.3 RECORDING

BSD-0 *should* permit screening event recording to confirm manual data collection.

2.5.2 ELECTRICAL SAFETY

BSD-0 shall comply with UL 1950, Second Edition (Underwriters Laboratories Standard for Information Technology Equipment) / CSA C 22.2 950, EN 60950 or internationally recognized equivalence.

2.5.3 **EYE SAFETY** BSD-0 shall not pose eye hazards or the likely risk of eye hazards.

2.5.4 ERGONOMIC SAFETY

BSD-0 *should* not possess sharp corners or edges that can puncture, cut or tear the skin or clothing or otherwise cause bodily injury.

2.6 PHYSICAL SIZE

BSD-0 *should* be a small portable unit that rests on a table-top or is hand-held.

2.7 INPUT POWER

BSD-0 *should* permit operation using 115 VAC power with up to $\pm 15\%$ voltage tolerance and up to 5% in frequency tolerance.

2.8 ELECTROMAGNETIC COMPATIBILITY

2.8.1 COMMUNICATIONS

BSD-0 shall comply with 47 CFR Telecommunications Part 15, Radio Frequency Devices or EN 50081-1.
