

# Cleaner Air. Cheaper Heat. Safer Home.

## Replace Your Old Woodstove!

Protect neighborhood and indoor air quality, create a warmer and safer home, and reduce the amount of money spent on home heating bills. For information on cleaner wood burning and the changeout of old woodstoves, go to the U.S. Environmental Protection Agency's Web site – [www.epa.gov/woodstoves](http://www.epa.gov/woodstoves).
