

AK-005331-7
Final permit wrap-up

No comments were received on the final permit. A timing restriction was placed in the final permit as a result of comments made by the NMFS on essential fish habitat and agreed to by the permittee since the restriction was not part of the public noticed permit.

1. The Department of Natural Resources/Division of Coastal and Ocean Management determined on June 20, 2008, that this project had previously been found consistent with the Coastal Zone Management Act administered by the Alaska Coastal Management Program and needed no further review.
2. The Department of Environmental Conservation provided a final §401 Certification on September 3, 2008.
