

items Inc - then on bottom of under listed items - (not for
stove top or broiler) - Not any larger than that - we couldn't
figure out why it didn't blow before - 3 hrs in oven - top of
stove to make gravy - left on simmer until everyone was
done - shut fires off - at least 20 min. before it exploded.

there were no markings on dish.

I got the set at Christmas time from my daughter. If there was
care instructions as stated - I didn't see any! Either ~~we~~ not packed
or misplaced while exchanging gifts with the family

I wrote the Company and Mrs Morris phoned, I explained what
happened - her response - I was at fault - they will send me another
dish, so my daughter can return and at least get her money back
It scared all of us - that we feel more information on danger
if put on stove top - Caution a must.

Someone else might not be as fortunate as we were!

Electric stove - used.

rectangular shape - 3 ft. size - dish
