

3.10.1-19 Modification Cost Proposal - Price Breakdown (February 2003)

(a) The contractor, in connection with any proposal it makes for a contract modification, shall furnish a price breakdown, itemized as required by the Contracting Officer. The breakdown shall be in enough detail to permit an analysis of all material, labor, equipment, subcontract, and overhead costs, as well as profit, and shall cover all work involved in the modification, whether such work was deleted, added or changed. Any amount claimed for subcontracts shall be supported by similar price breakdowns from those subcontractors.

(b) In addition, if the proposal includes a time extension, a justification thereof shall also be furnished. Notwithstanding any other provisions of this contract, it is mutually understood that the time extension for changes in the work will depend upon the extent, if any, by which the changes cause delay in the completion of the various elements of work. The contract completion dates will be extended only for those specific elements so delayed and the remaining contract completion dates for all other portions of the work will not be altered.

(c) The proposal, together with the price breakdown and time extension justification, shall be furnished by the date specified by the Contracting Officer.
