Puppy Foster Application

Thank you for your interest in fostering a TSA puppy. The decision to foster a pup is one that must be taken seriously. In order to ensure the safety of the pups there are a few requirements all foster families must meet-

1. You must live in San Antonio/Austin, Texas or surrounding communities.
2. You must have a secure fenced yard.
3. You must live in a residence that permits large breed dogs.
4. There cannot be more than two dogs in the home already.
5. You must show proof of your pet's current vaccinations.
6. You must have a vehicle to safely transport the TSA puppy.

Once we receive and review your application you will be notified by phone or email to set up a home interview. If all of the requirements are met, you will be asked to attend an orientation before receiving a pup. If you are not eligible to foster a puppy in your home, there are options to volunteer at our facility as well. For additional information about the program please feel free to contact us. We look forward to working with you.

Sincerely,

The TSA Canine Breeding and Development
Center Staff

Personal and Household Data

Name (List all individuals in the home and their ages.)	Address, City and Zip
Home Phone (Please indicate with a * the best number to reach you)	Cell Phone
Work Phone	Email
Alternate Contact Address and Phone (Not living with applicants)	
List the number of adults employed outside the home/type of employment /regular work hours.	
List the names of the individuals that will primarily be responsible for taking care of the puppy?	
Is anyone in the home allergic to dogs? (circle) YES NO	
What is the approximate size of your backyard and the type, height and age of the fencing?	

Pet(s) Data (Please list all of the pets that are current reside in the residence.)

Breed or type of pet	Sex	Age	Neutered/Spayed	Last vaccinations

Veterinarian's Data

Name of Clinic and Doctor	Address	Phone
---------------------------	---------	-------

Outside of being a pet owner, do you have any experience with working dogs, dog sport, or veterinary medicine?
Do you have any experience with other types of animals?
