

# Transportation Security Administration

## Mission

The Transportation Security Administration protects the Nations' transportation systems to ensure freedom of movement for people and commerce.

## Vision

The Transportation Security Administration will continuously set the standard for excellence in transportation security through it's people, processes and technology.

## Core Values

Excellence in public service through **integrity, innovation, and teamwork.**

## Domain Awareness

Ensure we gain awareness of the full scope of activities in our domain of responsibility

## Prevent/Protect

Deter foreign and domestic terrorists from causing harm or disrupting the transportation system and its users.

## Respond

Ensure that an agile incident response capability is coordinated to swiftly and effectively restore freedom of movement.

## Organizational Effectiveness

Operate as a leading edge, performance-based organization that consistently meets performance objectives while practicing outstanding stewardship of our resources.

GOALS
