Subject: ENERGY STAR Imaging Equipment FAQ
Attachments: Imaging Equipment FAQ 8-15-06.pdf

This message is being sent to you on behalf of EPA and DOE's ENERGY STAR® program.

Dear ENERGY STAR Imaging Equipment Stakeholder:

In response to recent stakeholder questions regarding the Version 1.0 ENERGY STAR Program Requirements for Imaging Equipment, EPA has prepared the attached Frequently Asked Questions (FAQ) document. This FAQ is intended to clarify and provide additional guidance on aspects of the Version 1.0 specification, particularly related to the Operational Mode (OM) approach and the Partner Commitments. Questions or concerns may be directed to Katharine Kaplan Osdoba, EPA, at osdoba.katharine@epa.gov, or Erin Trager, ICF International, at etrager@icfi.com. This FAQ will also be made available shortly on the ENERGY STAR Product Development Web site at www.energystar.gov/productdevelopment. Materials related to the specification revision may be found by visiting this page and following the links for Product Development Archives and Imaging Equipment. Thank you for your continuing support of ENERGY STAR!

[ICF International](#) provides consulting services in a broad range of areas, including global environmental issues. ICF International does not determine or interpret EPA or DOE policy.
