Subject: Final Draft ENERGY STAR Imaging Equipment Specification (Version 1.0)
Attachments: Final Draft Cover Letter.pdf; IE Test Conditions 4-21-06.pdf; OM Test Procedure 4-21-06.pdf; TEC Test Procedure 4-21-06.pdf; Final Draft ENERGY STAR IE Prog Req 04-21-06.pdf

This message is being sent to you on behalf of EPA and DOE's ENERGY STAR® program.

Dear ENERGY STAR Imaging Equipment Stakeholder:

For your review, please find attached the **Final Draft ENERGY STAR Specification (Version 1.0) for Imaging Equipment** and accompanying cover letter. The Final Operational Mode (OM) and Typical Electricity Consumption (TEC) test procedures and accompanying test conditions are also attached for reference.

EPA will release a summary of comments received in regard to the Draft 3 specification within the next few days with corresponding EPA responses. Any stakeholder feedback received by the specified deadline in response to the Guidance document distributed on April 19, 2006, as well as any comments received in response to this Final Draft will be considered as EPA prepares the Final Version 1.0 specification for distribution on May 3, 2006. Finalizing the specification by this date will allow it to be included in the renewed bilateral ENERGY STAR agreement between the US and EC later this summer.

EPA wishes to thank all stakeholders who provided feedback during the imaging equipment specification revision process. Questions or comments on the attached may be directed to Katharine Kaplan Osdoba, EPA, at osdoba.katharine@epa.gov or Erin Trager, ICF Consulting, at etrager@icfconsulting.com. Thank you again for your important contributions to this specification revision process.
