Subject: ENERGY STAR Meetings In March 2005

I am writing to you on behalf of EPA and DOE's ENERGY STAR® program.

Dear ENERGY STAR Office Equipment Stakeholder:

EPA would like to provide you with early notification of two upcoming industry meetings to discuss the revision of ENERGY STAR specifications for office equipment. To coincide with the ENERGY STAR Awards Ceremony on March 15, 2005, EPA will hold a Computers industry meeting and an Imaging Equipment industry meeting in Washington, DC during the week of March 14.

Additional, detailed information about each of these meetings will be forthcoming in the New Year, including exact dates, locations, and discussion topics. Please mark your calendars and plan to attend these informative discussions! Thank you for your continued support of ENERGY STAR in 2004.

For your information, there will also be a meeting of international ENERGY STAR stakeholders during the same week that will be open to all interested parties. However, this meeting is primarily for government entities implementing ENERGY STAR as an opportunity to share activities and lessons learned in other countries.
