AGENCY: Consumer Product Safety Commission.

SUPPLEMENTARY INFORMATION:

Multi-purpose lighters are hand-held, flame-producing products that have ignition mechanisms and operate on fuel. Typically, they are used to light devices such as charcoal

and gas grills and fireplaces. These products include those referred to as utility lighters or micro-torches. Devices intended primarily for igniting smoking materials are excluded; such products are already subject to a child-resistance standard at 16 CFR Part 1210.

In the **Federal Register** of September 30, 1998, the Commission proposed a rule that, if issued, would require that multi-purpose lighters resist operation by children under age 5. 63 FR 52397; *see also* 63 FR at 52394. The Commission proposed this rule because it believes that unreasonable risks of injury and death from fire are associated with multi-purpose lighters that can be operated by young children. Written comments on the proposal should be received by December 14, 1998.

As required by Section 9(d)(2) of the Consumer Product Safety Act, 15 U.S.C. 2058(d)(2), there will be an opportunity for interested parties to present oral comments on the proposal. If requests for oral presentations of comments are received, the presentations will be at 10 a.m., January 14, 1999, in the Room 420 in the Commission's offices at 4330 East-West Highway, Bethesda, MD 20814.

Requests for oral presentations of comments must be received by December 21, 1998. Persons requesting an oral presentation must file the text of their presentation on or before January 6, 1999.

DRAFT

Commenters should limit their presentations to approximately 10 minutes, exclusive of any periods of questioning by the Commissioners or the CPSC staff. The Commission reserves the right to further limit the time for any presentation and to impose restrictions to avoid excessive duplication of presentations.

Dated: _____, 1998.
