¹ Includes workers in the private nonfarm economy except those in private households, and workers in the public sector, except the federal government. See "Technical note" for further explanation.

² The percentile groupings are based on the average wage for each occupation surveyed, which may include workers both above and below the threshold. The percentile values are based on the

estimates published in the "National Compensation Survey: Occupational Earnings in the United States, 2007." See Technical Note for more details.

NOTE: Dash indicates no workers in this category or data did not meet publication criteria.
