

for the collection of information in those regulations.

C. Estimated Burden

The Commission staff estimates that about 1,000 firms that manufacture or import products subject to the flammability standards for clothing textiles and vinyl plastic film issue guarantees that the products they produce or import comply with the applicable standard. The Commission staff estimates that these standards and implementing regulations will impose an average annual burden of about 101.6 hours on each of those firms. That burden will result from conducting the testing and maintaining records required by the implementing regulations. The total annual burden imposed by the standards and regulations on all manufacturers and importers of clothing textiles and vinyl plastic film will be about 101,600 hours.

The hourly wage for the testing and recordkeeping required by the standards and regulations is about \$13.50, for an estimated annual cost to the industry of \$1,400,000.

D. Request for Comments

The Commission solicits written comments from all interested persons about the proposed collection of information. The Commission specifically solicits information relevant to the following topics:

- Whether the collection of information described above is necessary for the proper performance of the Commission's functions, including whether the information would have practical utility;
- Whether the estimated burden of the proposed collection of information is accurate;
- Whether the quality, utility, and clarity of the information to be collected could be enhanced; and
- Whether the burden imposed by the collection of information could be minimized by use of automated, electronic or other technological collection techniques, or other forms of information technology.

Dated: April 19, 2000.

Sadye E. Dunn,

Secretary, Consumer Product Safety Commission.

BILLING CODE 6355-01-P

CONSUMER PRODUCT SAFETY COMMISSION

Submission for OMB Review; Comment Request—Safety Standard for Automatic Residential Garage Door Operators

AGENCY: Consumer Product Safety Commission.

ACTION: Notice.

SUMMARY: In the **Federal Register** of February 9, 2000 (65 FR 6361), the Consumer Product Safety Commission published a notice in accordance with provisions of the Paperwork Reduction Act of 1995 (44 U.S.C. chapter 35) to announce the agency's intention to seek extension of approval of the collection of information in the Safety Standard for Automatic Residential Garage Door Operators (16 CFR part 1211). No comments were received in response to that notice. The Commission now announces that it has submitted to the Office of Management and Budget a request for reinstatement of approval of that collection of information without change for a period of three years from the date of approval.

The Consumer Product Safety Improvement Act of 1990 (Pub. L. 101-608, 104 Stat. 3110) requires all automatic residential garage door openers manufactured after January 1, 1993, to comply with the entrapment protection requirements of UL Standard 325 that were in effect on January 1, 1992. In 1992, the Commission codified the entrapment protection provisions of UL Standard 325 in effect on January 1, 1992, as the Safety Standard for Automatic Residential Garage Door Operators, 16 CFR part 1211, Subpart A. Certification regulations implementing the standard require manufacturers, importers and private labelers of garage door operators subject to the standard to test their products for compliance with the standard, and to maintain records of that testing. Those regulations are codified at 16 CFR part 1211, subparts B and C.

The Commission uses the records of testing and other information required by the certification regulations to determine that automatic residential garage door operators subject to the standard comply with its requirements. The Commission also uses this information to obtain corrective actions if garage door operators fail to comply with the standard in a manner which creates a substantial risk of injury to the public.

Additional Information About the Request for Reinstatement of Approval of a Collection of Information

Agency address: Consumer Product Safety Commission, Washington, DC 20207.

Title of information collection: Safety Standard for Automatic Residential Garage Door Operators, 16 CFR part 1211.

Type of request: Approval of a collection of information.

General description of respondents: Manufacturers, importers, and private labelers of automatic residential garage door operators.

Estimated number of respondents: 22.

Estimated average number of hours per respondent: 40 per year.

Estimated number of hours for all respondents: 880 per year.

Estimated cost of collection for all respondents: \$11,880.

Comments: Comments on this request for reinstatement of approval of information collection requirements should be submitted by June 26, 2000, to (1) the Office of Information and Regulatory Affairs, Attn: OMB Desk Officer for CPSC, Office of Management and Budget, Washington DC 20503; telephone: (202) 395-7340, and (2) the Office of the Secretary, Consumer Product Safety Commission, Washington, DC 20207. Written comments may also be sent to the Office of the Secretary by facsimile at (301) 504-0127 or by e-mail at cpsc-os@cpsc.gov.

Copies of this request for reinstatement of the information collection requirements and supporting documentation are available from Linda Glatz, management and program analyst, Office of Planning and Evaluation, Consumer Product Safety Commission, Washington, DC 20207; telephone: (301) 504-0416, ext. 2226.

Dated: April 19, 2000.
