[NOTE.—Concept of “budget estimates” and “appropriations” as used in this tabulation, beginning with the 90th Cong., 2d sess. differs to some extent from previous tabulations, and significantly differs in respect to inclusion of trust fund appropriation amounts not included in this tabulation prior to the 90th Cong., 2d sess. (see explanation, “Compilers’ Notes”). Also, beginning with the 85th Cong., 2d sess. (fiscal year 1959), figures exclude amounts relating to refunding Internal Revenue collections and sinking fund and other debt retirement funds.]

<sup>13</sup>Beginning with the 99th Cong., 1st sess., "Permanent Appropriations" included amounts appropriated in prior sessions for the fiscal year of the budget. The total line "Fiscal year 19xx and prior fiscal years" includes advance appropriations for future Congressional sessions. As a result, beginning with the 99th Cong., 1st sess., this total line consisted of funds for prior years, the budget year, advance years and funds previously counted in prior sessions when they were enacted. (Advance appropriations in prior sessions for the fiscal year of the budget were excluded from "Permanent Appropriations" beginning with the 102d Cong., 1st sess.)

The funds appropriated by this session of Congress, regardless of the fiscal year they are available, is reflected in the total line "Regular annual, supplemental, and continuing appropriation acts (net)" under the column entitled "Total". A table detailing advance appropriations by session is provided in footnote 1 of table 7. The amount that has been counted previously is shown at the end of table 4 (previously table VIIIb) on the total for "Appropriated in prior Congressional sessions".
