PROTECTING What Matters

PREPAREDNESS, RESPONSE, AND SUPPORT SOLUTIONS

The General Services Administration (GSA) has a long, proud history in supporting worldwide Federal customers in their efforts to protect and defend American citizens. We recognize that now, more than ever, it is important to protect what matters.

GSA is pleased to provide you this second version of the Protecting What Matters brochure. This brochure contains numerous products and services available to support preparedness, response and support solutions. In this edition we are proud to offer GSA's products and services to qualified State and Local customers. Section 833 Disaster Recovery of the John Warner National Defense Authorization Act for Fiscal Year 2007 (Public Law 109-364) authorizes State and Local governments the use of Federal Supply Schedules of GSA for purchase of products and services to be used to facilitate recovery from a major disaster, terrorism or nuclear, biological, chemical, or radiological attack. We look forward to serving State and Local customers, please see additional information on Section 833 (page 4) and ordering procedures on pages 27 and 49.

General Information

Multiple Award Schedule Solutions and Global Supply

The GSA Multiple Award Schedules program is designed to put you in touch with over 11 million state-of-the-art, high-quality commercial services and products at volume discount pricing. All Federal customers, even those in remote locations, can order the latest technology and quality services and products, conveniently, and at most-favored customer prices. GSA Schedules also offer the potential benefits of shorter lead-times, lower administrative costs, and reduced inventories. When using GSA Schedules, ordering activities have the opportunity to meet small business goals, while promoting compliance with various environmental and socioeconomic laws and regulations.

GSA Multiple Award Schedules offer nearly 20,000 worldwide contracts with commercial firms to provide millions of state-of-the-art, high quality products and services at volume discount pricing. GSA awards contracts with common terms and conditions in accordance with FAR Part 9 to ensure you receive fair and reasonable pricing from quality service providers. With MAS, you control the acquisition by managing the procurement from start to finish. You can use MAS contracts to meet your needs by placing a task order customized for your specific requirements. The result will be reduced procurement lead-times, cost savings, qualified contractors, credit toward your agency's socio-economic goals and easy ordering while ensuring your agency complies with the Competition in Contracting Act (CICA.) The MAS Program offers these benefits, but leaves you in the driver seat to satisfy your requirement.

We understand that because of the complexity of homeland security and disaster recovery issue, this publication can only be used as a guide. Once you have determined the needs of your particular agency, several

customer-friendly options are available to help you utilize the GSA supply system. Searching for products/services and performing market research is easy using *GSA Advantage!*[®] at www.gsaadvantage.gov, the online shopping source for Federal government purchasers. Using e-Buy, accessed through GSA Advantage, customers can build online Request for Quotes to obtain quotes and issue orders for products and services offered through the MAS program.

Buying on Schedule means that you don't have to incur administrative costs that are usually associated with open market buying costs, like searching for vendors, developing technical documents, travel, synopsising the requirement and more. Offering Best Value means making your purchasing easier and less time consuming-because your time is valuable.

By using Schedules program you are guaranteed fair prices. Our team of contracting professionals has already negotiated all the term and conditions. MAS contractors offer "Most Favored Customer" pricing discounts as well as access to volume discounts. Additional price reductions may be obtained, and are encouraged, when you use the MAS program. GSA schedule prices are negotiable and list prices are only a starting point.

GSA Global Supply provides supply chain solutions for the global needs of our customers (DoD, Homeland Security, USDA, et. al.) by delivering dependable and reliable supplies at best value. GSA Global Supply gives you access to more than 90,000 tools, office products, computer and other commercial consumable products. In order to strengthen our support for those responding to disaster situations, GSA Global Supply created a new tool for provision of approximately 31,000 hardware-type products to support disaster relief/recovery efforts. Most of these items are available for delivery within 24 hours to the 48 contiguous states.

Who Uses GSA Products and Services for Disaster Preparedness and Recovery?

FEDERAL CUSTOMERS

GSA works with Federal agencies across America to strengthen our Nation's security. GSA's role in this effort is to make homeland security products and services available through cost effective and efficient methods of supply. GSA has placed special emphasis on the needs of the Department of Homeland Security (DHS) and their strategic goals for protecting the homeland. The DHS roles are complex and well suited for the solutions GSA provides. Whether it's installing a surveillance and security system into a building, outfitting a new office with furniture, or supporting transportation infrastructure, GSA has the solution. The GSA supply system features nearly 20,000 contracts with the nations leading suppliers, 60% of which are small businesses. These suppliers provide over eleven million product and service items, making GSA the premier Federal government supplier.

STATE AND LOCAL CUSTOMERS

Section 833 Disaster Recovery of the Defense Authorization Act for FY 2007 amended 40 U.S.C. 502 to authorize GSA to provide State and Local Governments the use of Federal Supply Schedules for purchase of products and services to be used to facilitate recovery from a major disaster, terrorism or nuclear, biological, chemical or radiological attack.

GSA Schedules offer Federal, State and Local customers direct delivery of millions of state-of-the-art, high-quality commercial supplies and services at volume discount pricing. All eligible customers, even those in remote locations, can order the latest technology and quality supplies and services, conveniently, and at most-favored customer prices. GSA Schedules also offer the potential benefits of shorter lead-times, lower administrative costs, and reduced inventories. When using GSA Schedules, ordering activities have the opportunity to meet small business goals, while promoting compliance with various environmental and socioeconomic laws and regulations.

This Disaster Recovery Purchasing authority is limited to GSA's Multiple Award Schedule contracts and does not include any other GSA programs. A listing of the Federal Supply Schedules is available in GSA's Schedules e-Library at web site www.gsa.gov/elibrary.

State and Local Governments may use the Federal Supply Schedule contracts to purchase products and services in advance of a major disaster declared by the President as well as in the aftermath of an emergency event. State and Local Governments are responsible for ensuring that products or services purchased are to be used to facilitate recovery.

The use of Schedules for Disaster Recovery is non-mandatory for both State and Local Governments and Schedule contractors. Businesses have the option of deciding whether to accept orders placed by State or Local Government buyers. State and Local Governments have full discretion to decide if they wish to make a Federal Supply Schedule purchase, subject, however, to any limitations that may be established under State and Local law and procedures.

FIRST RESPONDERS

The events of September 11, 2001 underscored the importance of disaster preparedness. Where can security be improved? Are plans in place for emergency power and other critical systems? From studies, analysis and contingency planning to cargo security, shipment tracking and warehousing, GSA can help any agency maximize security and preparedness.

9/11 also highlighted the need to train and outfit our first responders so they can successfully perform the critical duties with which they are charged. Within minutes of the attacks, the U.S. General Services Administration established a command center in New York to provide equipment, vehicles and food to firefighters and rescue crews. When time is a critical factor, GSA can provide the support equipment and services your agency needs to accomplish its mission.

State and Local Disaster Recovery Program, Section 833

GSA plays a critical role in providing disaster recovery products and services to Federal agencies. Now State and Local Governments can also benefit from the speed and savings of the GSA Federal Supply Schedules. Section 833 of the John Warner National Defense Authorization Act for Fiscal Year 2007 (Public Law 109-364). Section 833 amends 40 U.S.C. 502 to authorize the Administrator of the General Services Administration to provide to State and Local governments the use of Federal Supply Schedules of the GSA for purchase of products and services to be used to facilitate recovery from a major disaster, terrorism or nuclear, biological, chemical, or radiological attack.

Eligible “State and Local government entities,” means:

- the states of the United States,
- counties, municipalities, cities, towns, townships,
- tribal governments, public authorities (including public or Indian housing agencies under the United States Housing Act of 1937),
- school districts, colleges and other institutions of higher education, council of governments (incorporated or not),
- regional or interstate government entities,
- or any agency or instrumentality of the preceding entities (including any local educational agency or institution of higher education), and including legislative and judicial departments.
- The term does not include contractors of, or grantees of, State or Local governments.

Purchasing in Advance of a Disaster:

In the aftermath of emergency events, State or Local governments’ systems may be disrupted. Thus, use of Federal Supply schedule contracts prior to these events to acquire products or services to be used to facilitate recovery is authorized. Again, the State or Local government will be responsible for ensuring that purchased products or services are to be used to facilitate recovery.

Voluntary Use:

Participation in the Disaster Recovery Purchasing Program is voluntary for both State and Local governments and the vendor community. The State and Local community has the option to choose to participate at any time. The vendor community has the option to participate at the Schedule contract level and at the order level according to the procedures laid out in the GSA Schedule contract.

STATE AND LOCAL E-TOOL ACCESS:

Schedules E-library: www.gsa.gov/elibrary

DISAST RECOV A Disaster Recovery Purchasing icon (shown at left) will display for vendors, if they are authorized to sell disaster recovery products and services to State and Local Governments. For additional information please go to www.gsa.gov/elibrary.

GSAAdvantage!®: www.gsaadvantage.gov

State and Local governments may use *GSAAdvantage!®* as a market research tool to locate products, services, and vendors, but may not purchase directly through *GSAAdvantage!®* yet. Customers may locate a vendor and/or product on *GSAAdvantage!®* and complete their purchase using their own purchasing system. In addition, State and Local customers may negotiate additional price discounts from the price quoted on *GSAAdvantage!®*. For additional information please go to www.gsaadvantage.gov.

When a product or service is found to meet your needs, state and local customers must then verify that the vendor has agreed to the Disaster Recovery Purchasing modification at www.gsa.gov/elibrary. Vendors who have accepted the modification and agreed to the terms and conditions of the Disaster Recovery Purchasing Program will be denoted with an icon next to the vendor’s name. The icon will soon appear in *GSA Advantage* next to the products and services offered by approved vendors. GSA is also diligently working on getting State and Local governments access to purchasing from GSA e-tools. For additional information please go to www.gsa.gov/disasterrecovery.

MAS Program

THE MULTIPLE AWARD SCHEDULE (MAS) PROGRAM

A Multiple Award Schedule (MAS), also known as a Federal Supply Schedule or GSA Schedule, is one of the most powerful business tools you have available. It is a listing of contracts awarded by GSA, Federal Acquisition Service. GSA awards contracts to multiple responsible companies supplying comparable services and products. It is essentially a listing of awarded contractors that can be used by all Federal entities and authorized users to achieve their missions. Contracting Officers determine that prices are fair and reasonable by comparing prices or discounts that a company offers the Government, with the prices or discounts that the company offers to its own commercial customers. This negotiation objective is commonly known as “most favored customer” pricing.

A SIN is a special item number. SINS in the MAS program represent groups of generally similar, but not identical, products that are intended to serve the same general purpose. These products normally compete in the marketplace for the same customer’s business, although they may provide various methods or techniques for accomplishing a particular task.

Read more about the MAS program by visiting www.gsa.gov/schedules.

BLANKET PURCHASE AGREEMENT

In accordance with Federal Acquisition Regulation (FAR) 8.405-3, ordering activities may establish BPAs under any GSA Schedule contract. A GSA BPA simplifies the filling of recurring needs for supplies or services, while leveraging a customer’s buying power by taking advantage of quantity discounts, saving administrative time, and reducing paperwork.

BPAs established under the MAS program provide ordering activities with a variety of benefits and advantages. Contractual terms and conditions are contained in GSA Schedule contracts and are not to be re-negotiated for GSA Schedule BPAs. Therefore, as a purchasing option, BPAs eliminate such contracting and open market costs as the search for sources, the need to prepare solicitations, and the requirement to synopsise the acquisition. BPAs also:

- Provide an opportunity to negotiate improved discounts;
- Satisfy recurring requirements;
- Reduce administrative efforts by eliminating repetitive, individual orders and payments;
- Let customers obtain better value by leveraging buying power through volume purchasing;
- Enable an ordering activity to use streamlined ordering procedures;
- Permit an ordering activity to incorporate Contractor Team Arrangements (CTAs);
- Allow for quicker turnarounds on orders; and
- Permit an ordering activity to incorporate terms and conditions not in conflict with the underlying contract.

Read more about MAS BPAs by visiting www.gsa.gov/bpas.

Multiple Award Schedule Solutions

Schedule 00CORP

The Consolidated Schedule

This Schedule covers the full range of professional services. If you find that you need more than one of the below services – use Consolidated!

Schedule 36

Office, Imaging and Document Solutions

This Schedule features office equipment that will ensure your security needs are met during daily operations.

Destruction Services (DS) SIN 51-507

These services, which support FOD approved requirements, include shredding of classified and unclassified materials, incineration of paper documents such as maps, blueprints, and catalogs, and elimination of microfilm, microfiche, ID cards, and VHS tapes.

Mail Screening and Inspection Services SIN 733-6

(Limited to Mail Handling Equipment Only)

These services involve on- and off-site examination of all incoming mail to detect any form of contamination including hazardous chemicals, or explosives. It requires key, supervisory, specialized and equipment personnel to properly screen and inspect incoming mail.

Network Connectivity Support Services (NCSS) SIN 51-509

Network Connectivity Support Services manages and supports customer software applications and network operating systems linked to customer digital equipment. This solution allows customers to communicate right from their desktops, where they can search, view, access and print documents.

Personal and Document Identification Systems SIN 51-156

This SIN includes Personal and Document Identification Systems such as Photo Identification Cameras and Systems and Embossing Systems. It also includes a broad range of technology systems that enable individual identification with the following:

- ID Badges such as Military Medical ID, Dog Tag, Social Security Card, Drivers License, Work ID, Metal Plates, and Bank, Library, and Meal Cards.
- Biological and physical characteristics including eye, face, voice, finger/hand print, digital signatures and body odor.

Public (private) Key Infrastructure (PKI) is excluded from this SIN. Systems may be PC accessible and may feature Smart Card Technology, such as encoded magnetic strips, bar codes, signatures, etc. All directly related software, attachments, accessories and supplies are offered.

Security (Application) for Business Machines SIN 47-147

This SIN includes security devices that deter unauthorized removal of office equipment such as computers/ monitors, keyboards, printers, fax machines, TVs, VCRs, calculators, copiers, medical equipment, cash registers, laboratory systems, audio/visual equipment, and accessories (keyboard skins, mouse pads, wrist rests, etc.). Many security solutions are available, including an anti-theft software tracking system, the option to manage OC from a network location, secured switches for computer cases, monitor sensors, and security hardware options.

Shredding Disintegrator and Industrial Machines

SIN 51-224

These machines include, but are not limited to, this SIN number:

- Disintegrators and Media Destroyers— Light-medium- and high-volume machines used to destroy all types of materials and media into confetti-sized pieces. Materials and media destroyed by these machines include crumpled paper, plastic binders, card stock manuals, computer printouts, ribbon cassettes, mylar tape, floppy disks, microfiche/ microfilm, computer hardware, rolled blueprints, film and viewgraphs, and micro-graphics on reels or cartridges.
- Industrial (DOD requirements) — machines used at offices, record centers, data processing centers, military installations, the Department of Defense contractor's facilities, and waste destruction facilities. They are capable of processing more than 5,000+ pounds per hour and are available and approved for all levels of high security and classified document disposal. Also included are other Security and Top Security shredders approved for Department of Defense (DOD) applications, along with attachments and accessories such as balers for compact automatic bailing of volume paper waste, shredder bags, drums and stands, sound enclosures, booster fans, vibration kits, paper trays, automatic oilers, lubricating oils, and supplies. Destruction services (previously titled shredding services) are available under SIN 51-507.
- Paper – automatic desk/floor models such as strip-cut, security cross-cut and particle-cut.

For more information about these programs and others like them visit us at www.gsa.gov/elibrary.

Schedule 48

Transportation Delivery and Relocation Solutions

Agencies can take advantage of the established contracts with commercial transportation service providers to meet their needs under this schedule. The services offered include but are not limited to:

Corporate Housing SIN 653-9
Agencies may access this SIN to acquire lodging services for extended stays during recovery efforts.

Express Small Package and Express Heavyweight Delivery Services SIN 451-1
Agencies may support recovery efforts by tapping into Express Same Day, Next Day, Two Day, and Three Day delivery of extremely urgent letters, small packages, and heavyweight shipments.

Ground Small Package Delivery Services SIN 451-2
This SIN provides responders with commercial delivery services for Ground day-definite delivery of small package shipments, including any accessorial services.

Ground Transportation Services SIN 411-1
Ground Transportation Services utilizing Van, Motor Coach (Bus), or Limousine for both scheduled and unscheduled routes. In an emergency, agencies may use these services to transport their employees to the area of focus quickly and safely.

Local Courier Delivery Services SIN 451-3
(SMALL BUSINESS SET ASIDE) Commercial Local Courier delivery services for Same Day delivery of extremely urgent letters, small packages, and heavyweight shipments, including any accessorial services, within a Metropolitan City Area, offered to the general public.

Rental Supplemental Vehicle Program SIN 411-2
Vehicle rental services to supplement federal fleets and/or official business vehicular needs for other than temporary duty travel purposes. Agencies may use these services as transportation support for natural disasters, emergencies, and/or continuity of operations tests and drills; etc.

Multiple Award Schedule Solutions

Services include reservation services, online booking, pick up and return services, vehicle delivery services, fueling, driver, roadside, and navigation assistance, special vehicle needs (e.g., hand controls, wheel chair lifts), reporting, billing, and consulting services.

Transportation Consulting Services SIN 411-3
 Services available under this special item number are designed to provide agencies with access to transportation consultants to assist them in COOP planning, participation in COOP exercises, and as integrators of transportation services to support recovery efforts.

Schedule 51 V

Hardware Superstore

GSA provides the tools and equipment needed to cleanup, repair and rebuild in the aftermath of a disaster. This schedule provides a full range of products including:

- Tools, shovels, picks, chainsaws, hardware, power tools, and fire extinguishers
- Building products, lumber, parts, accessories and services
- Generators, flashlights, and power cords
- Cleaning supplies, plastic sheeting, tarps, repair and maintenance equipment
- Aerospace, marine, vehicle and architectural coatings, sealants, and adhesives
- Mobile cooling, heating, air cleaners, fans, appliances, and water coolers
- Woodworking and metalworking machinery

Appliances - Domestic SIN 639-001

Appliances - Export SIN 639-002

COATINGS, ADHESIVES AND SEALANTS

Aerospace	SIN 834-100
Architectural	SIN 834-400
Marine	SIN 834-200
Petroleum and Fuel	SIN 834-900
Stains, Varnishes, Sealers, Shellacs, and Lacquers	SIN 834-500
Vehicle	SIN 834-300

HARDWARE STORE DEPARTMENT

Hardware Store Catalog SIN 105-002
 Provides hardware products including equipment and tool rental available via the Internet and over the phone.

Hardware Store Walk-In/Walk-Out SIN 105-001
 Provides point of sale discounts on hardware products including equipment and tool rental when using the government Purchase Card at hardware stores nationwide.

LAWN AND GARDEN

Lawn and Garden Equipment SIN(s) 341-100; 341-200; 341-300; 341-400; 341-500; 341-600; 341-700; 341-800; 341-99

Multiple Award Schedule Solutions

Schedule 58 I

Professional Audio/Video, Telecommunications, and Security Solutions

GSA's National Furniture Center has created Schedule 58-I, the Professional Audio/Visual, Telecommunications, and Security Solutions Schedule. This program provides Government agencies quick access to companies offering security solutions. Over 50 quality companies are available on GSA contract to provide monitors, cameras, recording devices, night vision products, infrared and digital devices specifically designed for surveillance. The National Furniture Center has pre-qualified these companies and has negotiated great prices. In addition, many of the companies on this schedule are small businesses and can help meet your agency's socio-economic goals.

This Schedule provides support to a facility's security systems.

Ancillary Services SIN 58-7

Allows suppliers to provide services associated with their products, such as equipment, set-up, assembly, installation, integration & training, if required at the delivered location. Providers comply with the Services Contract Act and other statutes or regulations.

Closed Circuit/Surveillance Equipment & Accessories SIN 58-5

Products under this SIN provide security systems integration technology such as Cameras, Monitors, Recording Devices, Night Vision, and Infrared & Digital Devices designed specifically for surveillance.

Searching for products/services and performing market research is easy through *GSA Advantage!*[®] at www.gsaadvantage.gov, the online shopping source for Federal government purchasing agents.

Schedule 66

Scientific Equipment and Services

Use these products and services to mobilize and focus the resources of the Federal government to enhance our nation's security. Contractors are available with equipment and/or services to detect and/or analyze chemical and biological warfare agents.

Avionics Test Equipment SIN 602-40

This SIN includes flight data recorders (FDRs) and cockpit voice recorders (CVRs), also known as black boxes. Following any airplane accident in the United States, safety investigators from the National Transportation Safety Board (NTSB) immediately begin searching for the aircraft's black boxes. These recording devices reveal details of the events immediately preceding the accident and provide resolutions to unanswered questions as to what brought the plane down.

Biohazard Cabinets SIN 581-1

Biomolecule Analyzers Synthesizers SIN 615-1

Chemical Testing and Analysis Services SIN 873-2

Services for chemical testing and analysis include, but are not limited to, wet chemistry and associated physical tests; viscosity/density testing; electrochemistry testing; chromatography (GC, LC, SFC, SFE, HPLC, GS/MS, LC/MS, GPC, GFC, IC, column, thin layer, paper); spectroscopy (AA, FT-IR, UV/VIS, XRD, NMR, ICP, MS, fluorescence, Raman); thermal analysis (DSC, DTA, TGA, TMA); surface analysis/microscopy (SAM, SEM, TEM, SIMS, ion); Optic/photometry testing (appearance, color, reflectance, gloss, transmittance, luminance); occupational/drug testing (monitor or measure employees exposure to hazardous substance abuse screening); biological Testing (biochemical, toxicological, pharmacological, bacteriological); environmental and hazardous waste analysis (priority pollutants, pesticides, herbicides, metals, PCB's, petroleum); water analysis; food testing (taste, odor, texture); and related training.

Microplate Readers and Washers,
and Cell Harvesting Apparatus SIN 66-118

Unmanned Aerial Vehicles (UAV)
Systems, Airborne Segment,
Ground Control Segment, and
Critical Components SIN 627-50

A fully integrated and operable system that includes all components necessary for the UAV to perform its intended function. A system normally includes, but is not limited to, the air vehicles, the ground control station(s), payload, data link, launch and recovery subsystems if applicable, and all ancillary items needed to operate the system. In addition, the power plant, mission payload, guidance and control equipment, data links receivers/transmitters, manned control station, launchers, autopilots, navigation/guidance subsystems, automatic landing subsystems, and similar equipment items.

Unmanned Submersible Vehicle
Systems and Control Segments SIN 627-55

A fully integrated and operable system that includes all components necessary for the Unmanned Submersible Vehicle to perform its intended function. A system normally includes, but is not limited to, the submersible vehicles, the control station(s), payload, data link, launch and recovery subsystems if applicable, and all ancillary items needed to operate the system. In addition, the power plant, mission payload, guidance and control equipment, data links receivers/transmitters, manned control station, launchers, autopilots, navigation/guidance subsystems, automatic landing subsystems, and similar equipment items.

Unmanned Terrestrial Vehicle
Systems and Control Segments SIN 627-57

A fully integrated and operable systems that includes all components necessary for the Unmanned Terrestrial Vehicle to perform its intended function. A system normally includes, but is not limited to the terrestrial vehicles, the control station(s), payload, data link, launch and recovery subsystems if applicable, and all ancillary items needed to operate the system. In addition, the power plant, mission payload, guidance and control equipment, data links receivers/transmitters, manned control station, launchers, autopilots, navigation/guidance subsystems, automatic landing subsystems, and similar equipment items.

Multiple Award Schedule Solutions

Schedule 69

Training Aids & Devices; Instructor-led Training; Course Development; Test Administration

Specialized Modeling, Simulation and Visualization Training

Computer Investigation Training/Forensics

Includes courses that deal with the elements of hacking, telecommunications, fraud, and the collection and preservation of computer evidence. Advanced courses are for those whose primary duties revolve around computer crime. Topics include practices for seizing electronic evidence, trends in computer crime, and computer forensics for those who analyze the seized evidence.

CPR, American Red Cross Certified, AED (Defibrillator) and Emergency Responder Training

SIN 27-100

Interviewing and Investigation Training

SIN 27-400

Interviewing includes courses and workshops on interviewing techniques, effective body language techniques etc.

Investigation training Includes courses teaching how to identify critical information, analyze threats, use of surveillance vehicles, and information collection. Also includes courses on investigative photography covering basic principles, lenses and accessories, low light photography, digital imaging, and legal requirements of photographic evidence.

Surveillance Technology Training SIN(s) 27-200, 27-300, 27-400, 27-500

Wargaming, security and emergency preparedness training. Includes courses in the use of audio, electronic, or video technologies for surveillance.

IT Schedule 70

General Purpose Commercial Information Technology Equipment, Software and Services

The newly formed Office of Integrated Technology Services (ITS) provides government agencies with a competitive, comprehensive, and convenient range of information technology and telecommunications goods and services for your procurement needs. You will find that you can search by product or service category, by contract number, contractor name, contractor business size, or even specific equipment/ service code by using GSA's e-Tools. You can also link directly to a contractor's authorized schedule price list.

Whether it is a total IT solution package to support a disaster relief effort domestically or overseas or IT secured access technology for a federal building, customers can "pick and choose" or have it all. A small sampling of some of the products and services include:

Access Cards and Machines	SIN 132-62
Access Certificates for Electronic Services Program	SIN 132-60
Automated News, Data and Information Services	SIN 132-51
CAD/CAM Services	SIN 132-51
Computer Equipment	SIN 132-8
Desktop computers, professional workstations, servers, laptop, portable notebook computers, printers, network equipment, storage devices, ADP boards.	
Computer Security Software	SIN 132-33
Computer Software Maintenance	SIN 132-34
Continuing support set-up, training, tech support, asset management.

COORDINATION SOFTWARE

Operation systems, messaging, databases, productivity applications.

E-Connected Intelligent Remote Operations (EIRO) SIN 132-51

Electronic Commerce Services SIN 132-52

Value-added network services, e-mail services, internet access services, navigation services.

HARDWARE

Handhelds, multimedia, peripherals, biometric devices, ID card printers.

HSPD-12 Product and Service Components SIN 132-62

Information Assurance SIN 132-51

IT Backup and Security Services SIN 132-51

IT Facility Operation and Maintenance SIN 132-51

IT Network Management Services SIN 132-51

IT Systems Analysis Services SIN 132-51

IT Systems Development Services SIN 132-51

NETWORK ACCESS

WIRELESS, VPNS, T1/T3, XDSL

Professional Services SIN 132-51

Facility operation and maintenance, system development services, systems analysis services, programming services, IT backup and security services, data conversation services, CAD/CAM services, IT network management services.

Programming Services SIN 132-51

Public Key Infrastructure (PKI) Program SIN 132-61

Secured Electronic Commerce Services SIN 132-52

SECURITY

Firewalls, encryption, authentication, smart card, PRI/Digital Certificates.

Shared Service Provider (SSP) Program SIN 132-61

System Design and Integration SIN 132-51

Telecommunication Transmission Services SIN 132-53

Telephone equipment, audio and video teleconferencing equipment, communications equipment facsimile equipment, telephone answering and voice messaging equipment, pages and public address systems.

Term and Perpetual Software

Licenses SIN 132-32 and 132-33

Application software, EC software, utility software, communication software, core financial management software, ancillary financial management software for both large scale and micro (PC) operation systems.

Training and Education SIN 132-50
Classroom based.

e-Buy, accessed through GSA Advantage[®], is an online Request for Quotes (RFQ) tool that allows Federal buyers to obtain quotes and issue orders for products and services offered through GSA's Multiple Award Schedule (MAS) program.

Multiple Award Schedule Solutions

Schedule 71 I

Office Furniture

Solutions providing first responders direct and easy access to furniture products and services.

Leased Furniture Systems SIN 711-96
Services under this SIN allow customers to lease office furniture. Some vendors provide a lease to own clause.

Reconfiguration and Relocation Services SIN 711-93
Includes the range of services that are necessary to reconfigure system furniture layouts up to a maximum of 200 workstations within an existing on-site project area. Reconfiguration involves the disassembling and reassembling of components that may involve minor or major changes within the existing workstation/furniture layout plan. Agencies must define the scope of services required.

Rental Furniture SIN 711-97
Services under this SIN provide customers with short-and long-term rental of office furniture.

// The
**Schedules
Program**
guarantees
fair prices. //

Schedule 71 II H

Packaged Furniture

Providing customers a complete turnkey packaged furniture program that offers all of the products and services necessary to create the ideal working environment.

PACKAGED HEALTHCARE ROOM

Healthcare Exam Rooms SIN 71-100
Designed to bring a warm and relaxed atmosphere to patients while meeting the rigorous demands of today's patient room.

Healthcare Offices SIN 71-103
The healthcare office offers a functional workspace without loss of elegance. Each office is designed to meet original and specific office and healthcare requirements.

Healthcare Waiting Rooms SIN 71-101
Provides a relaxed waiting environment that will create a warm and inviting appearance.

Long-Term Care Rooms SIN 71-102
Provides a homelike atmosphere where patients feel secure and comfortable. These rooms are designed to eliminate intimidating scenery and promote a faster, healthier recovery.

QUICK SHIP ITEMS

Several of the GSA National Furniture Center's contracts offer a "Quick Ship" provision, enabling customers to get needed furniture shipped shortly after the contractor's receipt of the order. A nominal fee is assessed for expedited handling. The following items are offered under this Quick Ship provision:

METAL OFFICE FURNITURE

Desk, single pedestal with center drawer and lock,
60" W x 30" D x 29" H min.

- Right Pedestal 7110-01-015-1361
- Left Pedestal..... 7110-01-021-3609

Desk, single pedestal with L-return attachment,
60" W x 30" D x 29" H with 18" D (min.) x 29" H L-return

- Right hand pedestal
with left hand return 7110-01-493-6758
- Left hand pedestal
with right hand return 7110-01-493-6760
- Desk, double pedestal
with center drawer 7110-00-149-1630

Lateral File, 36" wide, without laminated plastic top, with
lock, with four (4) drawers (bottom) and one (1) top shelf
(5 tiers high), medium duty

- Black 7110-00-149-1660
- Parchment 7110-00-149-1661

Lateral File, 36" wide, without laminated top, with lock,
with four (4) drawers (bottom) and one (1) top shelf
(5 tiers high), heavy duty

- Black 7110-01-328-9470
- Parchment 7110-01-328-9471

Vertical File, 5-drawer, legal size, with lock, medium duty

- Black 7110-00-497-1783
- Parchment 7110-00-497-1829
- Gray..... 7110-00-286-3796

Vertical File, 5-drawer, letter size, with lock, medium duty

- Black 7110-00-497-2346
- Parchment 7110-00-497-2370
- Gray..... 7110-00-286-3798

Vertical File, 5-drawer, letter size, with lock, heavy duty

- Gray..... 7110-01-328-8412
- Parchment 7110-01-328-8414
- Black 7110-01-328-8413

Vertical File, 5-drawer, legal size, with lock, heavy duty

- Gray..... 7110-01-328-8418
- Parchment 7110-01-328-8420
- Black..... 7110-01-328-8419

SHELL CHAIRS

Type I, high back, tilt swivel with arms

- Dark Blue 7110-01-188-3953
- Gray..... 7110-01-188-3956
- Brown 7110-01-188-3955
- Black..... 7110-01-188-3943

Type II, low back, tilt swivel with arms

- Dark Blue 7110-01-188-3962
- Gray..... 7110-01-188-3965
- Brown 7110-01-188-3964
- Black..... 7110-01-188-3944

STEEL CHAIRS

Type II, Typist's Rotary Posture Chair

- Gray..... 7100-00-273-8791

For the Mid-Atlantic region, additional services may be provided to Homeland operations that include the services of the "Personal Property Center" and Franconia Warehouse operations. (Rapid shipment of used, refurbished, and [limited] new furniture and furnishings.) Also, transportation services are provided by the L'Enfant Plaza Office. In the Washington Metropolitan region, contact Ms. Susan Lynch at (703) 407-0065 or Ken Miller at (703) 557-1440.

Multiple Award Schedule Solutions

Schedule 71 III E

Miscellaneous Furniture

SECURITY FILING CABINETS, SAFES, VAULT DOORS, MAP AND PLAN FILES AND ACCESSORIES, COMSEC CONTAINERS AND SPECIAL ACCESS CONTROL CONTAINERS

Comsec container with double door SIN 489-165
Double-door security cabinet (front and back). Group IR. Key-change combination lock. Allows closed-door operation, maintenance through rear door. Adjustable of conduit. Air intake and outlet protected by baffle. Conduit holes drilled to buyer's special requirements.

Vault Doors, Security Multiple NSNs*
In accordance with the latest revision of Federal Specification AA-D-00600. Refer to the "Ordering Checklist" for Important ordering information. Other security container products also Available under this schedule.

*For a detailed listing of all of the NSNs under this category, please visit www.gsa.gov/elibrary.

Interior Components SIN 489-103
For use in AA-F-363, Classes 5 and 6 cabinets. Examples of acceptable items include Plan hold rack & assembly; Vertical posts (Set of 4); Shelf; Security locker, Shallow drawer; Regular drawer; Cross tray insert; double row drawer insert; triple row drawer insert; microfilm drawer insert; tape canister drawer insert; tape seal drawer insert; pistol rack insert; center drawer insert, quarter drawer insert, drawer liner; pull-out weapons cart w/storage drawers; caster base.

SAFE, Burglary Resistant SIN 489-166
Complies with Underwriters Laboratories Standard UL 687. Safes shall be listed by UL and bear the UL-approved label or Shall be listed by other nationally recognized testing laboratory with a label and monitoring program.

Special Access Control Container SIN 489-161
Size I or Size II; gray; Group 1R combination lock; Minimum 0.125" steel; Shielded Slot with saw tooth baffle; Padlock eyes for mounting; Recessed door; Continuous hinge with Nonremovable pin.

Steel Security Filing Cabinets Multiple NSNs*
These Class 5 and 6 cabinets come in various sizes including two drawer. They have resistance to both surreptitious and covert entry, as well as locks.

*For a detailed listing of all of the NSNs under this category, please visit www.gsa.gov/elibrary.

Vault Door Accessories SIN 489-154
For use with AA-D-600 vault doors. Examples of acceptable items include day gate, base plate, and key locker.

Schedule 73

Food Service, Hospitality, Cleaning Equipment and Supplies, Chemicals and Services

Use these contracts to provide services and products for your agencies first responders. Our solutions will assist you with disaster planning efforts in critical times.

Cleaning Equipment and Supplies SIN 375

Food Service Equipment SIN 302

Recycling Containers and Specialty Waste Receptacles SIN(s) 384-2, 3, 4, 5, 6, 8, 9

Sorbents, Non-Marine Usage, Type II Hazardous and Toxic Organic Spills SIN 375-352

Schedule 81 I B

Shipping, Packaging and Packing Supplies

Bags, Sacks, Cartons, Crates, Packaging and Packing Bulk Material SIN 617-13

Unique Identification (UID) / Radio Frequency Identification (RFID) - For a variety of applications including supply chain management, logistics, and anti-counterfeiting, to improve inventory management and reduce operating costs. Unique Identification (UID) is a system of distinguishing one object from another. UID of items requires that qualifying items have a data matrix inscribed either directly on the item or on a permanent machine-readable label affixed to the item. UID is a mandatory Department of Defense (DoD) requirement for all acquisitions beginning January 1, 2004. It is also mandatory that all legacy items and all Government Furnished Property (GFP) be marked by January 1, 2006. Radio Frequency Identification (RFID) is a method of remotely storing and retrieving data using devices called RFID tags/transponders. An RFID tag is a small object integrated with a silicon chip, such as an adhesive sticker, that can be attached to or incorporated into a product. RFID tags contain antennas to enable them to receive and respond to radio-frequency queries from an RFID transceiver. RFID allows for individual items to have a unique identifier and can identify many items at once. RFID enables consumer packaged goods companies, retailers and other industries to improve their operating efficiency throughout their supply chains.

Schedule 84

Total Solutions for Law Enforcement, Security, Facilities Management, Fire, Rescue, Clothing, Marine Craft and Emergency/Disaster Response

Use these contracts to provide services and products for your agencies first responders. Our solutions will assist you with disaster planning efforts in critical times.

Access Control Systems	SIN 246-35
Aircraft Canopies and Hangers	SIN 426-99
Alarm and Signal Systems	SIN(s) 246-50 and 52
Alcohol Detection Devices	SIN 426-4d

Schedule 520

Financial and Business Solutions (FABS)

The Financial and Business Solutions Schedule provides you with direct and easy access to a wide array of financial services to secure the homeland, the most crucial of which fall into the following categories:

Due Diligence Services SIN 520-3
Includes providing title searches, researching tax liens and conducting an overall review of a financial asset to determine its financial status and history.

Financial Background Checks and Credit Monitoring SIN 520-16
Includes the performance of various credit reports and credit monitoring services. These reports allow you to determine the financial stability of both potential personnel and potential contractors. It also allows you to obtain past performance reviews of potential contractors. Credit Monitoring Services can be rapidly and effectively utilized in the event of a data breach.

Financial and Performance Audits SIN(s) 520-7, 520-8
Includes key audits such as: forensic audits; internal control audits; program vulnerability audits and financial audit checks.

Financial Systems Analysis SIN 520-13
Includes the performance of A-127 system compliance reviews; assist management with implementing corrective actions; document financial systems; identify financial systems requirements; plan and develop financial systems; assess the integrity of financial systems and related data; and provide technical assistance in meeting agency financial management system requirements.

Schedule 541

Advertising and Integrated Marketing Solutions (AIMS)

The crucial element for preparedness is communication. You can use this Schedule to help gather necessary information, as well as help communicate with the general public. You can create collateral materials to train those parties that may be involved in a homeland security incident. Below are just a few examples of how this Schedule can help you communicate with and train during every step of the way:

Aerial Photography Services SIN 541-4E

Commercial Photography Services SIN(s) 738-10, 738-8
This service can provide you with aerial photography and create a pictorial catalogue of "at risk" buildings.

Graphic Design Services SIN 541-4F
For the creation of professional looking brochures and flyers as well as development of informational/educational materials (such as emergency evacuation plans).

Market Research and Public Opinion SIN 541-4A
Determine whether you are doing an effective job of communicating potential biological threats to the public and how to improve your communication.

GSA schedule prices are negotiable and list prices are only a starting point.

Multiple Award Schedule Solutions

Meeting Planning Services SIN 541-4D
For securing meeting spaces.

Press and Public Relations SIN 541-2
Services to respond to critical situations or answer questions from aggressive reporters.

Public Education and Outdoor Marketing Services SIN 541-1
Get your message across in large public places. Educate the public about keeping alert to "suspicious" behavior through billboard advertisements in subway stations, airport terminals and on buses.

Radio and Television Public Service Announcements SIN(s) 541-1, 541-2
Communicate to the masses. Update the general public about bio-terrorism threats and precautions they should take in the future.

Videotape and Film Production Services SIN 541-4B
For the creation of personalized training videos.

Schedule 599

Travel Services Solutions

First responders get assistance with the location and availability of hotel rooms in and around the effected areas of incident. GSA has a Blanket Purchase Agreement with Corporate Lodging Consultants, Inc. (CLC), who has expertise in establishing emergency lodging programs. The BPA offers first responders the ability to outsource any lodging program need - from short term hotel/motel needs, to longer term housing for emergencies or national disasters. Reservations are confirmed with a central point of contact and prices are guaranteed with centrally billed accounts. CLC can locate facilities, negotiate rates, arrange for payment processes, reconcile charges, audit transactions, and provide reports. Emergency preparedness and pre-positioning services are also available.

Lodging SIN 599-3

Schedule 736

Temporary Administrative and Professional Staffing (TAPS)

Use these contracts to provide services and products for your agencies first responders. Our solutions will assist you with disaster planning efforts in critical times.

Temporary Services SIN(s) 736-100, 200, 300, 400, 500

Schedule 738X

Human Resources & Equal Employment Opportunity Services

GSA can provide your agency with initial support services to hire, manage and maintain personnel and positions. Our services include pre-employment screening, interviewing and interrogation training, recruitment and internal placement.

Pre-Employment Screening SIN 595-21
Security Screening for employees and potential employees (high end/low end). Screening is in accordance with the National Industrial Security Program Operating Manual (NISPOM). Examples of the high-end investigations include: National Agency Check with Local Agency Checks (LAC) and Credit Checks (NACLIC); Local Agency Check; Single-Scope Background Investigation (SSBI); and Single Scope-Background Investigation Periodic Reinvestigation (SSBI-PR). Examples of low-end screening are verification of previous employers; salary histories; criminal records checks; education verification; reference checks; professional license verification; and credit history checks. Investigative activities are conducted in compliance with the Fair Credit Report Act, (Title 15 USC), as amended.

Recruitment and Internal Placement Executive Search Services SIN 595-21
An all-inclusive spectrum of hiring needs with both care, professionalism, and efficiency.

Phone: (800) 488-3111 Fax: (816) 926-6952

Email: mashelpdesk@gsa.gov

Schedule 738 II

Language Services

The Language Services Schedule provides access to a full range of linguistic services and commercial specialists. This Schedule covers one-on-one intensive language instruction, translations services from written, electronic and multi-media sources, and tele/videoconference and 24/7 telephone interpretation support. The Language Services Schedule provides a global solution to bridge communication gaps.

Interpretation Services SIN 382-2
Interpretation of oral communication to and from English and native Foreign Languages.

New Item Technology SIN 382-99
Latest technology in the field of Language Services.

Training and Educational Materials SIN 382-3
Customized or standardized off-the-shelf Foreign Language training courses at on and off site locations in classroom, private, semi-private, tutorial and in-country immersion forums.

Translation Services SIN 382-1
Translation of written, electronic and multimedia material.

State and Local Governments now have access to GSA Schedule contracts for disaster recovery. Learn more by visiting www.gsa.gov/disasterrecovery.

Schedule 871

Professional Engineering Services (PES)

This Schedule provides access to a wide array of professional engineering services. The most relevant are listed in this section.

Acquisition and Life Cycle Management SIN 871-6
Services available under this SIN involve all of the planning, budgetary, contract and systems/program management functions required to procure and/or produce, render operational and provide life cycle support (maintenance, repair, supplies, engineering specific logistics) to technology-based systems, activities, subsystems, projects, etc. Typical associated tasks include, but are not limited to, operation and maintenance, program/project management, technology transfer/insertion.

Concept Development and Requirements Analysis SIN 871-2
Services available under this SIN involve abstract or concept studies and analysis, requirements definition, preliminary planning, the evaluation of alternative technical approaches and associated costs for the development or enhancement of high level general performance specifications of a system, project, mission or activity. Typical associated tasks include, but are not limited to, requirements analysis, cost/cost-performance trade-off analysis, feasibility analysis, regulatory compliance support, technology conceptual designs.

Integrated Logistics Support SIN 871-5
Services available under this SIN involves the analysis, planning and detailed design of all engineering specific logistics support including material goods, personnel, and operational maintenance and repair of systems throughout their life cycles. Typical associated tasks include, but are not limited to, ergonomic/human performance analysis, feasibility analysis, logistics planning, requirements determination, policy standards/procedures development, long-term reliability and maintainability.

Multiple Award Schedule Solutions

Strategic Planning for Technology Programs/Activities

SIN 871-1

Services available under this SIN involve the definition and interpretation of high-level organizational engineering performance requirements such as projects, systems, missions, etc., and the objectives and approaches to their achievement. Typical associated tasks include, but are not limited to, an analysis of mission, program goals and objectives, requirements analysis, organizational performance assessment, special studies and analysis.

System Design, Engineering and Integration

SIN 871-3

Services available under this SIN involve the translation of a system (or subsystem, program, project, activity) concept into a preliminary and detailed design (engineering plans and specifications), performing risk identification/analysis/mitigation, traceability, and then integrating the various components to produce a working prototype or model of the system. Typical associated tasks include, but are not limited to, computer-aided design, design studies and analysis, high level detailed specification preparation, configuration management and document control, fabrication, assembly and simulation, modeling.

Test and Evaluation

SIN 871-4

Services available under this SIN involves the application of various techniques demonstrating that a prototype system (subsystem, program, project or activity) performs in accordance with the objectives outlined in the original design. Typical associated tasks include, but are not limited to, testing of a prototype and first article(s) testing, environmental testing, independent verification and validation, reverse engineering, simulation and modeling (to test the feasibility of a concept), system safety, quality assurance, physical testing of the product or system.

This Schedule provides a wide array of professional engineering services. The most relevant are listed below and can be performed under all SINs (871-1 through 871-6).

- Biological Research and Support
- Chemical and Nuclear Engineering
- Construction Management (if determined to be a commercial item)
- Electrical Engineering Support
- Mechanical Engineering Support
- Multi-Discipline Engineering Consulting Services
- Nuclear Research and Support
- Prototype Development of an Unmanned Security Vehicle
- Satellite Reconnaissance Engineering Support

Note: Architect-Engineering (A/E) services as that term is defined in FAR 36.601-3 are excluded from this Schedule. If the agency's statement of work, substantially or to a dominant extent, specifies performance or approval by a registered or licensed architect or engineer for services related to real property, the Brooks Act applies and such services must be procured in accordance with FAR Part 36. Use of this Schedule for Brooks Act architectural or engineering services is not authorized.

Schedule 874

Mission Oriented Business Integrated Services (MOBIS)

This is the best place to get the greatest minds in the business for process improvements! Providers stand ready to provide a wide range of management consulting services during critical times. This Schedule also makes sure that your agency complies with the latest government regulations. Look to this Schedule for consulting, facilitation, management surveys, project management and implementation, related support products, training and more!

Consulting Services	SIN 874-1
Business Process Improvements	SIN 874-1
Develop Operational and Technical Requirements	SIN 874-1
Develop, Review and Update Security Policies	SIN 874-1
Emergency Management Preparedness and Assessments	SIN 874-1
Facilitation, Problem Solving	SIN 874-2
Leadership Training	SIN 874-4
National Security Strategy and Policy Development	SIN 874-1
Project Management and Support Services	SIN 874-7
Risk Management Assessments	SIN 874-1
Security Program Audits	SIN 874-1
Security Risk Management Assessment Surveys	SIN 874-3
Surveys to Determine Employee/Public Knowledge of Emergency Preparedness	SIN 874-3
Tabletop Exercises and Scenario Development	SIN 874-1
Threat Assessment	SIN 874-1

Weapons of Mass Destruction (WMD)

Planning Assessment

SIN 874-1

Contractors are available with equipment and/or services to detect and/or analyze chemical and biological warfare agents.

Schedule 874 V

Logistics Worldwide (LOGWORLD)

Logistics are supported here! Expertise is available for all phases of logistics (planning, development, management, operation, maintenance, sustainment and improvement services.) Some examples are:

Customs processing/accountability	SIN 874-504
Deployment support for first responders	SIN 874-504
Distribution and transportation management	SIN 874-503
Medical and emergency unit storage and restocking management	SIN 874-504
Property disposal management	SIN 874-501
Staging, shipping and receiving	SIN 874-501
Strategic and tactical planning support services, turnkey operations and maintenance support	SIN 874-507

LOGISTICS SOLUTIONS AND TRAVEL AND TRANSPORTATION SOLUTIONS

The events of September 11th underscore the importance of providing support for disaster prevention, response planning, and transportation security. GSA can provide a range of support products and services that will enable agencies to successfully accomplish this mission.

TRANSPORTATION SECURITY (Air, Rail, Highway, Bridges)

Contingency Planning	SIN 874-503
Studies and Analysis	SIN 874-503

Environmental Services

www.gsa.gov/environmentalservices

This schedule provides preparedness, response, and support solutions with specialists ready to protect what matters most! The services in this schedule are covered under the Service Contract Act (SCA) and will provide a rapid response to our Homeland Security and major relief to Disaster Recovery. Those services not included are the handling, disposal and/or transportation of radioactive waste; construction covered under the Davis Bacon Act; Architect/Engineering services; and/or asbestos abatement.

Air Monitoring	SIN 899-8
Biochemical Protection	SIN 899-1
Biochemical Testing, Detection and Cleanup	SIN 899-8
Chemicals, Solids, Biological	SIN 899-5
Confiscated Materials	SIN 899-5
Containment, Monitoring, and/or Reduction of Hazardous Waste Sites	SIN 899-8
Crime Protection through Environmental Design (CPTED) Surveys	SIN 899-1
Data Collection, Feasibility or Risk Analysis	SIN 899-4
Development of Emergency Response	SIN 899-4
Economic, Technical and/or Risk Analysis	SIN 899-1
Emergency Preparedness Planning	SIN 899-7
Emergency Response	SIN 899-8

Environmental Impact Statements under NEPA	SIN 899-1
Excavation, Removal, Transportation, Storage, Treatment and/or Disposal of Hazardous Waste	SIN 899-8
Fire Preparedness Training and Public Fire Safety Education	SIN 899-3
Hazard and/or Non-Hazard Exposure Assessments	SIN 899-4
Hazardous Material Spills	SIN 899-6
Identification and Mitigation of Threats	SIN 899-1
Information Hotlines	SIN 899-6
ISO 14000, Environmental Management Systems (EMS)	SIN 899-2
Management and Oversight of HAZMAT Disposal Operations	SIN 899-5
Poisons	SIN 899-6
Pollution Analysis	SIN 899-7
Pollution Prevention Surveys	SIN 899-2
Preparedness, Characterization, Field Investigation, Conservation and Closure of Site	SIN 899-8
RCRA/CERCLA Site Investigations	SIN 899-4
Spill Prevention Control and Countermeasure Plans	SIN 899-2
Unexploded Ordinance Management (UXO)	SIN 899-8
UST/AST Removal	SIN 899-8
Vulnerability Assessments	SIN 899-1

FOCUS ON INSPECTION AND ENFORCEMENT

Aerial Surveys	SIN 899-7
UXO Detection Dogs	SIN 899-8

Schedule 03 FAC

Facilities Maintenance and Management

GSA provides facilities maintenance solutions to maintain and provide reliable systems, facilities and infrastructures. In addition, GSA provides facilities management solutions to manage a complete facility from top to bottom.

Complete Facilities Maintenance	SIN 811-002
The complete operations, maintenance and repair of military and civilian government facilities.	
Complete Facilities Management	SIN 811-003
The complete management of operations in military and civilian government facilities.	
Electrical and All Utility Services Limited to Facility Maintenance	SIN 811-004
Elevator and Escalator Preventative Maintenance	SIN 811-001

Fire Alarm Systems Preventative Maintenance and Repair Services	SIN 561-001
Grounds Maintenance	SIN 371-001
Independent Elevator Inspection Services	SIN 541-001
Industrial, Aerospace and Marine Painting	SIN(s) 801-001; 801-002; 801-009; and 801-1000
Introduction of New Products/Services	SIN 541-099
Pest Control	SIN 371-003
Refrigeration, Heating, Ventilation and Air Conditioning Maintenance	SIN 811-005
Tree Planting/Trimming/Removal	SIN 371-002
Water-Based Fire Suppression System Preventative Maintenance and Repair Services	SIN 561-002

You may contact a MAS contractor directly for information and consultation. Contract award information is available at www.gsa.gov/elibrary.

Multiple Award Schedule Solutions

Schedule VMAS 23 V

Vehicular Multiple Award Schedule (VMAS)

The Office of Vehicle Acquisition and Leasing Services' Automotive Division helps agencies protect lives and defend the security of our homeland with our contracts for Fire Fighting Vehicles and Command Centers. Our Vehicle Multiple Award Schedule (VMAS) 23V program offers a wide range of Fire Fighting Vehicles and Command Centers to assist agencies in accomplishing their mission.

The VMAS 23V Schedule offers base model fire fighting vehicles with various options to customize your firefighting vehicle.

The Command Centers under the Schedule 23V, SIN 618-01, offers customized vehicles designed for Bomb/Arson Surveillance, Crime Labs and much more. The Command Centers are built by manufacturers with a wide range of expertise, offering value and reliability.

Under VMAS 23 V, the following Special Item Numbers (SINs) are available:

- Aerial Ladder and Platform SIN 618-01
- Aircraft Rescue and Fire Fighting vehicles
- Command Centers
- Custom Fire Fighting Chassis & Glider Kits SIN 618-03
- Fire Fighting Trailers
- Mobile Water Supply Apparatus Pumps
- Mobile foam Apparatus and Initial Attack Vehicles
- Rescues/Hazmats
- Wildlands Fire Apparatus
- Wildland Fire Fighting Bodies Mounted on Government provided Chassis SIN 618-04

The normal delivery time for these vehicles ranges from 180 to 360 days. For current contractor information, visit GSA's schedules E-Library at www.gsa.gov/elibrary. For current contractor information, visit GSA's Schedules E-Library at: www.gsa/elibrary.gsa.gov. You may place your order directly with the contractor or GSA can place your order for a 1% surcharge. For more information, please contact our Customer CARE staff on 703-605-CARS (2277) or visit www.gsa.gov/vehicle/buying.

Multiple Awards Schedule Ordering Information

SIMPLIFIED ORDERING PROCEDURES

Procedures used to purchase off of GSA Schedules contracts vary based on the dollar amount of the procurement. Below are general guidelines for Federal government contracting officers. The below guidelines are recommended ordering procedures for State and Local Governments, but not mandatory. For more information visit www.gsa.gov/centerforacquisitionexcellence and click on Building 2 or 2A.

ORDERING PROCEDURES FOR SERVICES AND PRODUCTS *(No Statement of Work Required)*

Orders up to the micro-purchase threshold:

- Place order directly with contractor for the item that best meets your needs.

Orders over the micro-purchase threshold:

- Review the GSA Advantage!® online electronic ordering system

- or -

- Review at least 3 Schedule pricelists
- Select the Best Value (consider price, administrative costs, etc.)
- Place order directly with contractor

Orders over the maximum threshold:

- Review GSA Advantage!® and pricelists
- Seek price reductions

ORDERING PROCEDURES FOR SERVICES

(Requiring a Statement of Work)

Orders up to the micro-purchase threshold:

- Place your order with the Schedule contractor offering the Best Value

Orders over the micro-purchase threshold:

- Prepare a Statement of Work (SOW)*
- Send your Request for Quote (RFQ) and SOW to 3 Schedule contractors
- Evaluate and make a Best Value selection

Orders over the maximum threshold:

- Prepare an SOW
- Send your Request for Quote (RFQ) and SOW to more than 3 Schedule contractors AND seek price reductions
- Evaluate and make a Best Value selection

** When ordering services over \$100,000, Department of Defense (DoD) ordering offices and non-DoD agencies placing orders on behalf of DoD must follow the policies and procedures in the Defense Federal Acquisition Regulation Supplement (DFARS) 208.404-70, Additional ordering procedures for services.*

BPAs:

Remember, Blanket Purchase Agreements (BPAs) offer an easy-to-use, flexible purchasing option. Setting up a BPA with a Federal Supply Schedule contractor is a way to fill recurring needs while taking advantage of quantity discounts, saving administrative time and reducing paperwork. For more information visit www.gsa.gov/centerforacquisitionexcellence and click on Building 3.

GSA E-BUY – AN ELECTRONIC WAY TO ORDER SERVICES

E-Buy, a component of GSA Advantage!®, is an online Request for Quote (RFQ) tool designed to facilitate the request for submission of quotes for a wide range of commercial services and products that are offered by GSA Federal Supply Schedule contractors who are on GSA Advantage!®.

Using the e-Buy system, buyers may prepare and post an RFQ for specific services and products for a designated period of time. Each RFQ is assigned to a Federal Supply Schedule, Special Item Number (SIN) category by the buyer. The category assignment determines which sellers may receive the e-mail notice to quote. Sellers are automatically listed under their awarded SIN categories. Buyers may notify all sellers listed under a particular SIN category or may choose to notify a lesser number of sellers. Sellers not notified may still submit a quote for an RFQ placed under their awarded SIN.

Contractors who wish to quote must do so at the e-Buy web site. Only those contractors who have submitted their catalogs for inclusion in GSA Advantage!® will have an opportunity to participate in e-Buy and receive requests for quotes.

Once an RFQ has closed, buyers may then evaluate and accept the quote that represents the best value. Buyers may then issue an order to any contractor whose quote was accepted.

GSA Global Supply

GSA Global Supply is pleased to highlight a selection of emergency supplies, first aid kits and other items potentially useful in disaster situations. From safety gear to cleaning supplies, GSA Global Supply provides quality products backed by our service guarantees:

- Global delivery;
- Flexible ordering – phone, fax, online or FEDSTRIP/MILSTRIP;
- Payment options – Government purchase cards or AAC/DoDAAC;
- Easy Compliance – everything you purchase satisfies FAR and JWOD requirements;

The items in this publication are just a tiny fraction of the products available from GSA Global Supply. To see more, visit www.GSAGlobalsupply.gsa.gov and search for specific items or browse under the “Disaster Relief” tab. For complete information on GSA Global Supply ordering options, please see page 49.

Also, please note that we have executed a Blanket Purchase Agreement to provide approximately 31,000 additional hardware-type items to support disaster relief and recovery operations. These include cutting tools, industrial products, electrical and safety gear. There is a CD containing descriptions, prices and shipping information that is available through any GSA Customer Service Director or by calling our ordering number at 800-525-8027.

Lightstick (Chemlight)

Chemical lights, commonly known as Chemlights, are a non-toxic, non-flammable source of light. These light sticks are good for emergency, safety, and signaling uses. They provide safe, effective light without heat, sparks, or flame. To activate, a user bends the plastic lightstick, breaking the inner glass vial. Chemicals from the broken glass vial mix with chemicals from the plastic tube to deliver a light-creating chemical reaction. Self-contained, compact, rugged, and waterproof.

Circulating Fan

Stay cool with this column-mounted, two-speed (minimum) pedestal fan that adjusts to heights up to 96". Head of fan tilts 5° below and 15° above horizontal. A safety guard completely covers the metal or rigid plastic blade assembly. Fan operates on 115V AC, 60-Hz power and has a three-conductor 10-foot power cord. Conforms to UL standards.

Oscillates a minimum of 80° and can be locked at any point on that oscillation range.

Fan provides 5000/7300 cfm air flow.

Global Supply Ordering Information

Shop Any Way You Like:

GSA Global Supply offers you a variety of choices – not only in our products but also in our ordering and billing methods. GSA Global Supply gives you access to more than 90,000 tools, office products, computer and other commercial consumable products. Simply select the items you want and place your order. For even more options, GSA Global Supply items are also available through *GSA Advantage!*[®] and DOD EMALL websites.

www.GSAGlobalSupply.gsa.gov

The GSA Global Supply website gives you access to tens of thousands of tools, office products, and emergency related products. You may use your government purchase card or arrange direct billing with your Activity Address Code (AAC) or DoDACC. Select the items you want and place your order.

Telephone: 1-800-525-8027

Call our toll-free number to place your order. We are open from 7:30 a.m. to 8 p.m. Eastern Time, Monday through Friday.

Fax: 1-800-856-7057

You will receive an order confirmation and tracking number for your files.

Part Number Ordering:

GSA Global Supply features items with National Stock Numbers (NSNs) and others with GSA part numbers. FEDSTRIP/MILSTRIP customers can order GSA part-numbered items by using one of the following identifiers:

AOB: For domestic shipment

AO2: For overseas shipment

Both NSNs and GSA part-numbered items carry the same customer benefits. All are FAR-compliant and JWOD Guaranteed. All can be shipped anywhere on the globe. All are backed by GSA Global Supply customer service.

MORE OPTIONS:

GSA Advantage![®]

All GSA Global Supply items appear on *GSA Advantage!*[®] with the same prices and delivery terms. Both sites, GSA Global Supply and *GSA Advantage!*[®] recognize your user name and password.

DOD EMALL

All GSA Global Supply items appear on the Defense Logistics Agency's DOD EMALL site. Customers must use their DODAAC to purchase GSA Items. GSA and DLA are working to permit EMALL users to purchase items with a purchase card.

FEDSTRIP/MILSTRIP

We continue to support orders routed from the Defense Automated Addressing System (DAAS). We're also happy to accept your standard form 344 or DD1348 by mail.

You can mail your Standard Form 344 or DD1348 to:

GSA Global Supply (7FLIS)
Room 6A06
819 Taylor Street
Fort Worth, TX 76102

Utilization and Donation of Personal Property

First Responders can take advantage of programs where excess personal property is offered for utilization or surplus property is offered for donation. Property acquired through utilization is at no cost except for packing and shipping.

Federal agencies are required by law to report excess property to GSA for screening by Federal and State agencies. Those reports are placed on a web-based data base called GSAXcess®. As such, GSAXcess® is a one-stop shopping center for the same kinds of products that are offered through GSA schedules or *GSA Advantage!*®.

GSAXcess® offers many search tools to enable the user to find items they need for first response and recovery efforts after a disaster. These tools include wildcard searches by noun name, as well as searches by commodity category, condition, date and time of receipt of the property record, state of property location, warehouse facility, and more. GSAXcess® even includes a Want List that searches new record receipts each day to match wants listed by the user. Matches are followed by an email to the user notifying them of the match and an attachment with detail information on the matched item.

GSAXcess® is also an on-line acquisition solution that uses a virtual shopping cart and checkout process. The checkout process allows first responders and activities involved in recovery efforts to identify the priority of their items by naming the FEMA number for major disasters to ensure highest consideration by

GSA allocators of competing requests for property. After checkout, users are provided both an on-line and email confirmation of their order. The reporting activity is also notified by email that a request for the property they reported as excess has been requested. Upon allocation of the request by GSA, the system generates a transfer order and emails or faxes the order to the approving official of the user for a signature.

GSAXcess® can be accessed by typing, "gsaxcess.gov" in your internet browser address line.

Donation- State and Local first responders are, in most cases, eligible to receive federal surplus property through the Federal Surplus Personal Property Donation Program. Donations are processed through a state agency for surplus property established in each state, territory and the District of Columbia. As with Federal agencies, donation customers also use GSAXcess® to search for and request property.

The Utilization and Donation Program also has regional offices and Area Property Officers to assist first responders and activities involved in disaster recovery to find and acquire the excess property they need for disaster assistance. GSA Property Management contacts can be found by going to the GSAXcess® home page and clicking on "Contact Links" located in the blue banner near the top of the page. Additional information about the Utilization and Donation Program can be obtained by clicking on the hypertext headings in the left column of the GSAXcess® home page.

Definitions

THE MULTIPLE AWARD SCHEDULE (MAS) PROGRAM

A Multiple Award Schedule (MAS), also known as a Federal Supply Schedule or GSA Schedule, is one of the most powerful business tools you have available. It is a listing of contracts awarded by GSA, Federal Acquisition Service. GSA awards contracts to multiple responsible companies supplying comparable services and products. It is essentially a listing of awarded contractors that can be used by all Federal entities and authorized users to achieve their missions. Contracting Officers determine that prices are fair and reasonable by comparing prices or discounts that a company offers the Government, with the prices or discounts that the company offers to its own commercial customers. This negotiation objective is commonly known as “most favored customer” pricing.

A SIN is a special item number. SINs in the MAS program represent groups of generally similar, but not identical, products that are intended to serve the same general purpose. These products normally compete in the marketplace for the same customer’s business, although they may provide various methods or techniques for accomplishing a particular task.

BLANKET PURCHASE AGREEMENT

In accordance with Federal Acquisition Regulation (FAR) 8.405-3, ordering activities may establish BPAs under any GSA Schedule contract. A GSA BPA simplifies the filling of recurring needs for supplies or services, while leveraging a customer’s buying power by taking advantage of quantity discounts, saving administrative time, and reducing paperwork.

BPAs established under the MAS program provide ordering activities with a variety of benefits and advantages. Contractual terms and conditions are contained in GSA Schedule contracts and are not to be re-negotiated for GSA Schedule BPAs. Therefore, as a purchasing option, BPAs eliminate such contracting and open market costs as the search for sources, the need to prepare solicitations, and the requirement to synopsise the acquisition. BPAs also:

- Provide an opportunity to negotiate improved discounts;
- Satisfy recurring requirements;
- Reduce administrative efforts by eliminating repetitive, individual orders and payments;
- Let customers obtain better value by leveraging buying power through volume purchasing;
- Enable an ordering activity to use streamlined ordering procedures;
- Permit an ordering activity to incorporate Contractor Team Arrangements (CTAs);
- Allow for quicker turnarounds on orders; and
- Permit an ordering activity to incorporate terms and conditions not in conflict with the underlying contract.

CONTRACTOR TEAM ARRANGEMENT

Under a Contractor Team Arrangement (CTA), two or more GSA Schedule contractors work together, by complementing each other’s capabilities, to offer a total solution to meet an ordering activity’s requirement. Contractor Team Arrangements provide a “win-win” situation for both GSA Schedule contractors and ordering activities:

- GSA Schedule contractors may compete for Schedule orders for which they may not independently qualify.
- Ordering activities may procure a total solution rather than making separate buys for each part of a requirement.

Definitions

BEST VALUE

“Best value” can be obtained by using any one or a combination of source selection approaches. Factors that may be used, in addition to price, include: (refer to FAR 8.405-1(c) Ordering procedures for supplies, and services not requiring a statement of work):

- Past performance
- Special features of the supply or service required for effective program performance
- Trade-in considerations
- Probable life of the item selected as compared with that of a comparable item
- Warranty considerations
- Maintenance availability
- Environmental and energy efficiency considerations
- Delivery terms

STATEMENT OF WORK (SOW)

An SOW is essential when purchasing commercial services. Be aware that SOWs are read and interpreted by government and industry personnel with diverse backgrounds such as engineering, science, accounting, law, contracting, and other business fields.

The SOW must be clear, precise, complete and concise. It should contain the following elements per FAR 8.405-2, Ordering procedures for services requiring a statement of work at <http://acquisition.gov/comp/far/index.html>.

Learn more about the MAS program by visiting www.gsa.gov/schedules.

For additional copies of this publication or to order current GSA publications online, go to www.gsa.gov/cmls.
