ENERGY STAR/discontinue/Traffic Signals

Good morning Rachel.

I have read your letter of October 10 regarding above subject with great interest.

Dominic Balthazar and I attended the DOE hearing on the Test procedures on Sept. 26 and we have submitted our comments on the proposed regulations.

I agree with your thinking but would like to clarify a few points before we submit our position regarding Energy Star modification.

I will be at my office this afternoon if you would like to call me.
