

§ 8.22

The plan shall be developed with the assistance of interested persons, including individuals with handicaps or organizations representing individuals with handicaps. A copy of the transition plan shall be made available for public inspection. The plan shall, at a minimum—

(i) Identify physical obstacles in the recipient's facilities that limit the accessibility of its programs or activities to individuals with handicaps;

(ii) Describe in details the methods that will be used to make the facilities accessible;

(iii) Specify the schedule for taking the steps necessary to achieve compliance with this section and, if the time period of the transition plan is longer than one year, identify steps that will be taken during each year of the transition period;

(iv) Indicate the official responsible for implementation of the plan; and

(v) Identify the persons or groups with whose assistance the plan was prepared.

(Approved by the Office of Management and Budget under control number 2529-0034)

§ 8.22 New construction—housing facilities.

(a) New multifamily housing projects (including public housing and Indian housing projects as required by § 8.25) shall be designed and constructed to be readily accessible to and usable by individuals with handicaps.

(b) Subject to paragraph (c) of this section, a minimum of five percent of the total dwelling units or at least one unit in a multifamily housing project, whichever is greater, shall be made accessible for persons with mobility impairments. A unit that is on an accessible route and is adaptable and otherwise in compliance with the standards set forth in § 8.32 is accessible for purposes of this section. An additional two percent of the units (but not less than one unit) in such a project shall be accessible for persons with hearing or vision impairments.

(c) HUD may prescribe a higher percentage or number than that prescribed in paragraph (b) of this section

24 CFR Subtitle A (4-1-04 Edition)

for any area upon request therefor by any affected recipient or by any State or local government or agency thereof based upon demonstration to the reasonable satisfaction of HUD of a need for a higher percentage or number, based on census data or other available current data (including a currently effective Housing Assistance Plan or Comprehensive Homeless Assistance Plan), or in response to evidence of a need for a higher percentage or number received in any other manner. In reviewing such request or otherwise assessing the existence of such needs, HUD shall take into account the expected needs of eligible persons with and without handicaps.

[53 FR 20233, June 2, 1988, as amended at 56 FR 920, Jan. 9, 1991]

§ 8.23 Alterations of existing housing facilities.

(a) *Substantial alteration.* If alterations are undertaken to a project (including a public housing project as required by § 8.25(a)(2)) that has 15 or more units and the cost of the alterations is 75 percent or more of the replacement cost of the completed facility, then the provisions of § 8.22 shall apply.

(b) *Other alterations.* (1) Subject to paragraph (b)(2) of this section, alterations to dwelling units in a multifamily housing project (including public housing) shall, to the maximum extent feasible, be made to be readily accessible to and usable by individuals with handicaps. If alterations of single elements or spaces of a dwelling unit, when considered together, amount to an alteration of a dwelling unit, the entire dwelling unit shall be made accessible. Once five percent of the dwelling units in a project are readily accessible to and usable by individuals with mobility impairments, then no additional elements of dwelling units, or entire dwelling units, are required to be accessible under this paragraph. Alterations to common areas or parts of facilities that affect accessibility of existing housing facilities shall, to the maximum extent feasible, be made to be accessible to and usable by individuals with handicaps. For purposes of

this paragraph, the phrase *to the maximum extent feasible* shall not be interpreted as requiring that a recipient (including a PHA) make a dwelling unit, common area, facility or element thereof accessible if doing so would impose undue financial and administrative burdens on the operation of the multifamily housing project.

(2) HUD may prescribe a higher percentage or number than that prescribed in paragraph (b)(1) of this section for any area upon request therefor by any affected recipient or by any State or local government or agency thereof based upon demonstration to the reasonable satisfaction of HUD of a need for a higher percentage or number, based on census data or other available current data (including a currently effective Housing Assistance Plan or Comprehensive Homeless Assistance Plan), or in response to evidence of a need for a higher percentage or number received in any other manner. In reviewing such request or otherwise assessing the existence of such needs, HUD shall take into account the expected needs of eligible persons with and without handicaps.

§ 8.24 Existing housing programs.

(a) *General.* A recipient shall operate each existing housing program or activity receiving Federal financial assistance so that the program or activity, when viewed in its entirety, is readily accessible to and usable by individuals with handicaps. This paragraph does not—

(1) Necessarily require a recipient to make each of its existing facilities accessible to and usable by individuals with handicaps;

(2) Require a recipient to take any action that it can demonstrate would result in a fundamental alteration in the nature of its program or activity or in undue financial and administrative burdens. If an action would result in such an alteration or such burdens, the recipient shall take any action that would not result in such an alteration or such burdens but would nevertheless ensure that individuals with handicaps receive the benefits and services of the program or activity.

(b) *Methods.* A recipient may comply with the requirements of this section

through such means as reassignment of services to accessible buildings, assignment of aides to beneficiaries, provision of housing or related services at alternate accessible sites, alteration of existing facilities and construction of new facilities, or any other methods that result in making its programs or activities readily accessible to and usable by individuals with handicaps. A recipient is not required to make structural changes in existing housing facilities where other methods are effective in achieving compliance with this section or to provide supportive services that are not part of the program. In choosing among available methods for meeting the requirements of this section, the recipient shall give priority to those methods that offer programs and activities to qualified individuals with handicaps in the most integrated setting appropriate.

(c) *Time period for compliance.* The recipient shall comply with the obligations established under this section within sixty days of July 11, 1988 except that—

(1) In a public housing program where structural changes in facilities are undertaken, such changes shall be made within the timeframes established in § 8.25(c).

(2) In other housing programs, where structural changes in facilities are undertaken, such changes shall be made within three years of July 11, 1988, but in any event as expeditiously as possible.

(d) *Transition plan and time period for structural changes.* Except as provided in § 8.25(c), in the event that structural changes to facilities will be undertaken to achieve program accessibility, a recipient shall develop, within six months of July 11, 1988, a transition plan setting forth the steps necessary to complete such changes. The plan shall be developed with the assistance of interested persons, including individuals with handicaps or organizations representing individuals with handicaps. A copy of the transition plan shall be made available for public inspection. The plan shall, at a minimum—
