Subject: ENERGY STAR Marks for Advertising

Dear ENERGY STAR[®] Partner:

The U.S. Department of Energy (DOE) and the Environmental Protection Agency (EPA) would like to ensure the correct use of the ENERGY STAR mark on all marketing material. To assist you, the attached letter from DOE and vital marketing guidance will explain which marks are to be used in advertising. Please provide these documents to your marketing department and enclose the guidance when distributing ad templates to retailers.

Please contact Jenny Dakin, D&R International, at jdakin@drintl.com or (301) 588-9387, with any questions.
