

(3) *Office of an Assistant Administrator duties include:* (i) Providing specific policy guidance to their respective offices and assuring that those offices establish and maintain adequate administrative procedures to comply with this part.

(ii) Monitoring the overall timeliness and quality of their respective office's efforts to comply with this part.

(iii) Acting as liaison between their offices and the OEA and between their offices and other Assistant Administrators or Regional Administrators on matters of agencywide policy and procedures.

(iv) Advising the Administrator and Deputy Administrator through the OEA on projects or activities within their respective areas of responsibilities which involve more than one EPA office, are highly controversial, are nationally significant, or *pioneer* EPA policy, when these projects will have or should have an EIS prepared on them.

(v) Pursuant to § 6.102(b) of this subpart, preparing legislative EISs as appropriate on EPA legislative initiatives.

(4) The Office of Policy, Planning, and Evaluation duties include: responsibilities for coordinating the preparation of EISs required on EPA legislative proposals in accordance with § 6.102(b).

(b) *Responsibilities for subpart E—(1) Responsible official.* The responsible official for EPA actions covered by this subpart is the Regional Administrator.

(2) *Assistant Administrator.* The responsibilities of the Assistant Administrator, as described in § 6.103(a)(3), shall be assumed by the Assistant Administrator for Water for EPA actions covered by this subpart.

(c) *Responsibilities for subpart F—(1) Responsible official.* The responsible official for activities covered by this subpart is the Regional Administrator.

(2) *Assistant Administrator.* The responsibilities of the Assistant Administrator, as described in § 6.103(a)(3), shall be assumed by the Assistant Administrator for Enforcement and Compliance Monitoring for EPA actions covered by this subpart.

(d) *Responsibilities for subpart G.* The Assistant Administrator for Research and Development will be the respon-

sible official for activities covered by this subpart.

(e) *Responsibilities for subpart H.* The Assistant Administrator for Solid Waste and Emergency Response will be the responsible official for activities covered by this subpart.

(f) *Responsibilities for subpart I.* The responsible official for new construction and modification of special purpose facilities is as follows:

(1) The Chief, Facilities Engineering and Real Estate Branch, Facilities and Support Services Division, Office of the Assistant Administrator for Administration and Resource Management (OARM) shall be the responsible official on all new construction of special purpose facilities and on all new modification projects for which the Facilities Engineering and Real Estate Branch has received a funding allowance and for all other field components not covered elsewhere in paragraph (f) of this section.

(2) The Regional Administrator shall be the responsible official on all improvement and modification projects for which the regional office has received the funding allowance.

[44 FR 64177, Nov. 6, 1979, as amended at 47 FR 9829, Mar. 8, 1982; 50 FR 26315, June 25, 1985; 51 FR 32609, Sept. 12, 1986]

§ 6.104 Early involvement of private parties.

As required by 40 CFR 1501.2(d) and § 6.103(a)(3)(v) of this regulation, responsible officials must ensure early involvement of private applicants or other non-Federal entities in the environmental review process related to EPA grant and permit actions set forth under subparts E, F, G, and H. The responsible official in conjunction with OEA shall:

(a) Prepare where practicable, generic guidelines describing the scope and level of environmental information required from applicants as a basis for evaluating their proposed actions, and make these guidelines available upon request.

(b) Provide such guidance on a project-by-project basis to any applicant seeking assistance.

(c) Upon receipt of an application for agency approval, or notification that an application will be filed, consult as

Environmental Protection Agency

§ 6.105

required with other appropriate parties to initiate and coordinate the necessary environmental analyses.

[44 FR 64177, Nov. 6, 1979, as amended at 47 FR 9829, Mar. 8, 1982]

§ 6.105 Synopsis of environmental review procedures.

(a) *Responsible official.* The responsible official shall utilize a systematic, interdisciplinary approach to integrate natural and social sciences as well as environmental design arts in planning programs and making decisions which are subject to environmental review. The respective staffs may be supplemented by professionals from other agencies (see 40 CFR 1501.6) or consultants whenever in-house capabilities are insufficiently interdisciplinary.

(b) *Environmental information documents (EID).* Environmental information documents (EIDs) must be prepared by applicants, grantees, or permittees and submitted to EPA as required in subparts E, F, G, H, and I. EIDs will be of sufficient scope to enable the responsible official to prepare an environmental assessment as described under § 6.105(d) of this part and subparts E through I. EIDs will not have to be prepared for actions where a categorical exclusion has been granted.

(c) *Environmental reviews.* Environmental reviews shall be conducted on the EPA activities outlined in § 6.102 of this part and set forth under subparts E, F, G, H and I. This process shall consist of a study of the action to identify and evaluate the related environmental impacts. The process shall include a review of any related environmental information document to determine whether any significant impacts are anticipated and whether any changes can be made in the proposed action to eliminate significant adverse impacts; when an EIS is required, EPA has overall responsibility for this review, although grantees, applicants, permittees or contractors will contribute to the review through submission of environmental information documents.

(d) *Environmental assessments.* Environmental assessments (i.e., concise public documents for which EPA is responsible) are prepared to provide sufficient data and analysis to determine whether an EIS or finding of no signifi-

cant impact is required. Where EPA determines that a categorical exclusion is appropriate or an EIS will be prepared, there is no need to prepare a formal environmental assessment.

(e) *Notice of intent and EISs.* When the environmental review indicates that a significant environmental impact may occur and significant adverse impacts can not be eliminated by making changes in the project, a notice of intent to prepare an EIS shall be published in the FEDERAL REGISTER, scoping shall be undertaken in accordance with 40 CFR 1501.7, and a draft EIS shall be prepared and distributed. After external coordination and evaluation of the comments received, a final EIS shall be prepared and disseminated. The final EIS shall list any mitigation measures necessary to make the recommended alternative environmentally acceptable.

(f) *Finding of no significant impact (FNSI).* When the environmental review indicates no significant impacts are anticipated or when the project is altered to eliminate any significant adverse impacts, a FNSI shall be issued and made available to the public. The environmental assessment shall be included as a part of the FNSI. The FNSI shall list any mitigation measures necessary to make the recommended alternative environmentally acceptable.

(g) *Record of decision.* At the time of its decision on any action for which a final EIS has been prepared, the responsible official shall prepare a concise public record of the decision. The record of decision shall describe those mitigation measures to be undertaken which will make the selected alternative environmentally acceptable. Where the final EIS recommends the alternative which is ultimately chosen by the responsible official, the record of decision may be extracted from the executive summary to the final EIS.

(h) *Monitoring.* The responsible official shall provide for monitoring to assure that decisions on any action where a final EIS has been prepared are properly implemented. Appropriate mitigation measures shall be included in actions undertaken by EPA.
