

Subpart C—Coordination With Other Environmental Review and Consultation Requirements

§ 6.300 General.

Various Federal laws and executive orders address specific environmental concerns. The responsible official shall integrate to the greatest practicable extent the applicable procedures in this subpart during the implementation of the environmental review process under subparts E through I. This subpart presents the central requirements of these laws and executive orders. It refers to the pertinent authority and regulations or guidance that contain the procedures. These laws and executive orders establish review procedures independent of NEPA requirements. The responsible official shall be familiar with any other EPA or appropriate agency procedures implementing these laws and executive orders.

[44 FR 64177, Nov. 6, 1979, as amended at 50 FR 26316, June 25, 1985]

§ 6.301 Landmarks, historical, and archeological sites.

EPA is subject to the requirements of the Historic Sites Act of 1935, 16 U.S.C. 461 *et seq.*, the National Historic Preservation Act of 1966, as amended, 16 U.S.C. 470 *et seq.*, the Archaeological and Historic Preservation Act of 1974, 16 U.S.C. 469 *et seq.*, and Executive Order 11593, entitled "Protection and Enhancement of the Cultural Environment." These statutes, regulations and executive orders establish review procedures independent of NEPA requirements.

(a) *National natural landmarks.* Under the Historic Sites Act of 1935, the Secretary of the Interior is authorized to designate areas as national natural landmarks for listing on the National Registry of Natural Landmarks. In conducting an environmental review of a proposed EPA action, the responsible official shall consider the existence and location of natural landmarks using information provided by the National Park Service pursuant to 36 CFR 62.6(d) to avoid undesirable impacts upon such landmarks.

(b) *Historic, architectural, archeological, and cultural sites.* Under section 106 of the National Historic Preservation Act and Executive Order 11593, if an EPA undertaking affects any property with historic, architectural, archeological or cultural value that is listed on or eligible for listing on the National Register of Historic Places, the responsible official shall comply with the procedures for consultation and comment promulgated by the Advisory Council on Historic Preservation in 36 CFR part 800. The responsible official must identify properties affected by the undertaking that are potentially eligible for listing on the National Register and shall request a determination of eligibility from the Keeper of the National Register, Department of the Interior, under the procedures in 36 CFR part 63.

(c) *Historic, prehistoric and archeological data.* Under the Archeological and Historic Preservation Act, if an EPA activity may cause irreparable loss or destruction of significant scientific, prehistoric, historic or archeological data, the responsible official or the Secretary of the Interior is authorized to undertake data recovery and preservation activities. Data recovery and preservation activities shall be conducted in accordance with implementing procedures promulgated by the Secretary of the Interior. The National Park Service has published technical standards and guidelines regarding archeological preservation activities and methods at 48 FR 44716 (September 29, 1983).

[44 FR 64177, Nov. 6, 1979, as amended at 50 FR 26316, June 25, 1985]

§ 6.302 Wetlands, floodplains, important farmlands, coastal zones, wild and scenic rivers, fish and wildlife, and endangered species.

The following procedures shall apply to EPA administrative actions in programs to which the pertinent statute or executive order applies.

(a) *Wetlands protection.* Executive Order 11990, Protection of Wetlands, requires Federal agencies conducting certain activities to avoid, to the extent possible, the adverse impacts associated with the destruction or loss of wetlands and to avoid support of new

construction in wetlands if a practicable alternative exists. EPA's Statement of Procedures on Floodplain Management and Wetlands Protection (dated January 5, 1979, incorporated as appendix A hereto) requires EPA programs to determine if proposed actions will be in or will affect wetlands. If so, the responsible official shall prepare a floodplains/wetlands assessment, which will be part of the environmental assessment or environmental impact statement. The responsible official shall either avoid adverse impacts or minimize them if no practicable alternative to the action exists.

(b) *Floodplain management.* Executive Order 11988, Floodplain Management, requires Federal agencies to evaluate the potential effects of actions they may take in a floodplain to avoid, to the extent possible, adverse effects associated with direct and indirect development of a floodplain. EPA's Statement of Procedures on Floodplain Management and Wetlands Protection (dated January 5, 1979, incorporated as appendix A hereto), requires EPA programs to determine whether an action will be located in or will affect a floodplain. If so, the responsible official shall prepare a floodplain/wetlands assessment. The assessment will become part of the environmental assessment or environmental impact statement. The responsible official shall either avoid adverse impacts or minimize them if no practicable alternative exists.

(c) *Important farmlands.* It is EPA's policy as stated in the EPA Policy To Protect Environmentally Significant Agricultural Lands, dated September 8, 1978, to consider the protection of the Nation's significant/important agricultural lands from irreversible conversion to uses which result in its loss as an environmental or essential food production resource. In addition the Farmland Protection Policy Act, (FPPA) 7 U.S.C. 4201 *et seq.*, requires Federal agencies to use criteria developed by the Soil Conservation Service, U.S. Department of Agriculture, to:

(1) Identify and take into account the adverse effects of their programs on the preservation of farmlands from conversion to other uses;

(2) Consider alternative actions, as appropriate, that could lessen such adverse impacts; and

(3) Assure that their programs, to the extent possible, are compatible with State and local government and private programs and policies to protect farmlands. If an EPA action may adversely impact farmlands which are classified prime, unique or of State and local importance as defined in the Act, the responsible official shall in all cases apply the evaluative criteria promulgated by the U.S. Department of Agriculture at 7 CFR part 658. If categories of important farmlands, which include those defined in both the FPPA and the EPA policy, are identified in the project study area, both direct and indirect effects of the undertaking on the remaining farms and farm support services within the project area and immediate environs shall be evaluated. Adverse effects shall be avoided or mitigated to the extent possible.

(d) *Coastal zone management.* The Coastal Zone Management Act, 16 U.S.C. 1451 *et seq.*, requires that all Federal activities in coastal areas be consistent with approved State Coastal Zone Management Programs, to the maximum extent possible. If an EPA action may affect a coastal zone area, the responsible official shall assess the impact of the action on the coastal zone. If the action significantly affects the coastal zone area and the State has an approved coastal zone management program, a consistency determination shall be sought in accordance with procedures promulgated by the Office of Coastal Zone Management in 15 CFR part 930.

(e) *Wild and scenic rivers.* (1) The Wild and Scenic Rivers Act, 16 U.S.C. 1274 *et seq.*, establishes requirements applicable to water resource projects affecting wild, scenic or recreational rivers within the National Wild and Scenic Rivers system as well as rivers designated on the National Rivers Inventory to be studied for inclusion in the national system. Under the Act, a Federal agency may not assist, through grant, loan, license or otherwise, the construction of a water resources project that would have a direct and adverse effect on the values for which a river in the National System or study river on the National

Rivers Inventory was established, as determined by the Secretary of the Interior for rivers under the jurisdiction of the Department of the Interior and by the Secretary of Agriculture for rivers under the jurisdiction of the Department of Agriculture. Nothing contained in the foregoing sentence, however, shall:

(i) Preclude licensing of, or assistance to, developments below or above a wild, scenic or recreational river area or on any stream tributary thereto which will not invade the area or unreasonably diminish the scenic, recreational, and fish and wildlife values present in the area on October 2, 1968; or

(ii) Preclude licensing of, or assistance to, developments below or above a study river or any stream tributary thereto which will not invade the area or diminish the scenic, recreational and fish and wildlife values present in the area on October 2, 1968.

(2) The responsible official shall:

(i) Determine whether there are any wild, scenic or study rivers on the National Rivers Inventory or in the planning area, and

(ii) Not recommend authorization of any water resources project that would have a direct and adverse effect on the values for which such river was established, as determined by the administering Secretary in request of appropriations to begin construction of any such project, whether heretofore or hereafter authorized, without advising the administering Secretary, in writing of this intention at least sixty days in advance, and without specifically reporting to the Congress in writing at the time the recommendation or request is made in what respect construction of such project would be in conflict with the purposes of the Wild and Scenic Rivers Act and would affect the component and the values to be protected by the Responsible Official under the Act.

(3) Applicable consultation requirements are found in section 7 of the Act. The Department of Agriculture has promulgated implementing procedures, under section 7 at 36 CFR part 297, which apply to water resource projects located within, above, below or outside

a wild and scenic river or study river under the Department's jurisdiction.

(f) *Barrier islands.* The Coastal Barrier Resources Act, 16 U.S.C. 3501 *et seq.*, generally prohibits new Federal expenditures or financial assistance for any purpose within the Coastal Barrier Resources System on or after October 18, 1982. Specified exceptions to this prohibition are allowed only after consultation with the Secretary of the Interior. The responsible official shall ensure that consultation is carried out with the Secretary of the Interior before making available new expenditures or financial assistance for activities within areas covered by the Coastal Barriers Resources Act in accord with the U.S. Fish and Wildlife Service published guidelines defining new expenditures and financial assistance, and describing procedures for consultation at 48 FR 45664 (October 6, 1983).

(g) *Fish and wildlife protection.* The Fish and Wildlife Coordination Act, 16 U.S.C. 661 *et seq.*, requires Federal agencies involved in actions that will result in the control or structural modification of any natural stream or body of water for any purpose, to take action to protect the fish and wildlife resources which may be affected by the action. The responsible official shall consult with the Fish and Wildlife Service and the appropriate State agency to ascertain the means and measures necessary to mitigate, prevent and compensate for project-related losses of wildlife resources and to enhance the resources. Reports and recommendations of wildlife agencies should be incorporated into the environmental assessment or environmental impact statement. Consultation procedures are detailed in 16 U.S.C. 662.

(h) *Endangered species protection.* Under the Endangered Species Act, 16 U.S.C. 1531 *et seq.*, Federal agencies are prohibited from jeopardizing threatened or endangered species or adversely modifying habitats essential to their survival. The responsible official shall identify all designated endangered or threatened species or their habitat that may be affected by an EPA action. If listed species or their habitat may be affected, formal consultation must be undertaken with the

Environmental Protection Agency

§ 6.400

Fish and Wildlife Service or the National Marine Fisheries Service, as appropriate. If the consultation reveals that the EPA activity may jeopardize a listed species or habitat, mitigation measures should be considered. Applicable consultation procedures are found in 50 CFR part 402.

[44 FR 64177, Nov. 6, 1979, as amended at 50 FR 26316, June 25, 1985]

§ 6.303 Air quality.

(a) The Clean Air Act, as amended in 1990, 42 U.S.C. 7476(c), requires Federal actions to conform to any State implementation plan approved or promulgated under section 110 of the Act. For EPA actions, the applicable conformity requirements specified in 40 CFR part 51, subpart W, 40 CFR part 93, subpart B, and the applicable State implementation plan must be met.

(b) In addition, with regard to wastewater treatment works subject to review under subpart E of this part, the responsible official shall consider the air pollution control requirements specified in section 316(b) of the Clean Air Act, 42 U.S.C. 7616, and Agency implementation procedures.

(c)-(g) [Reserved]

[58 FR 63247, Nov. 30, 1993]

Subpart D—Public and Other Federal Agency Involvement

§ 6.400 Public involvement.

(a) *General.* EPA shall make diligent efforts to involve the public in the environmental review process consistent with program regulations and EPA policies on public participation. The responsible official shall ensure that public notice is provided for in accordance with 40 CFR 1506.6(b) and shall ensure that public involvement is carried out in accordance with EPA Public Participation Regulations, 40 CFR part 25, and other applicable EPA public participation procedures.

(b) *Publication of notices of intent.* As soon as practicable after his decision to prepare an EIS and before the scoping process, the responsible official shall send the notice of intent to interested and affected members of the public and shall request the OEA to publish the notice of intent in the FEDERAL REG-

ISTER. The responsible official shall send to OEA the signed original notice of intent for FEDERAL REGISTER publication purposes. The scoping process should be initiated as soon as practicable in accordance with the requirements of 40 CFR 1501.7. Participants in the scoping process shall be kept informed of substantial changes which evolve during the EIS drafting process.

(c) *Public meetings or hearings.* Public meetings or hearings shall be conducted consistent with Agency program requirements. There shall be a presumption that a scoping meeting will be conducted whenever a notice of intent has been published. The responsible official shall conduct a public hearing on a draft EIS. The responsible official shall ensure that the draft EIS is made available to the public at least 30 days in advance of the hearing.

(d) *Findings of no significant impact (FNSI).* The responsible official shall allow for sufficient public review of a FNSI before it becomes effective. The FNSI and attendant publication must state that interested persons disagreeing with the decision may submit comments to EPA. The responsible official shall not take administrative action on the project for at least thirty (30) calendar days after release of the FNSI and may allow more time for response. The responsible official shall consider, fully, comments submitted on the FNSI before taking administrative action. The FNSI shall be made available to the public in accordance with the requirements and all appropriate recommendations contained in § 1506.6 of this title.

(e) *Record of Decision (ROD).* The responsible official shall disseminate the ROD to those parties which commented on the draft or final EIS.

(f) *Categorical exclusions.* (1) For categorical exclusion determinations under subpart E (Wastewater Treatment Construction Grants Program), an applicant who files for and receives a determination of categorical exclusion under § 6.107(a), or has one rescinded under § 6.107(c), shall publish a notice indicating the determination of eligibility or rescission in a local newspaper of community-wide circulation and indicate the availability of the supporting documentation for public
