

## Environmental Protection Agency

## § 6.904

as determined by the General Services Administration.

(b) The term *program of requirements* means a comprehensive document (booklet) describing program activities to be accomplished in the new special purpose facility or improvement. It includes architectural, mechanical, structural, and space requirements.

(c) The term *scope of work* means a document similar in content to the program of requirements but substantially abbreviated. It is usually prepared for small-scale projects.

### § 6.902 Applicability.

(a) *Actions covered.* These procedures apply to all new special purpose facility construction, activities related to this construction (e.g., site acquisition and clearing), and any improvements or modifications to facilities having potential environmental effects external to the facility, including new construction and improvements undertaken and funded by the Facilities Engineering and Real Estate Branch, Facilities and Support Services Division, Office of the Assistant Administrator for Administration and Resource Management; or by a regional office.

(b) *Actions excluded.* This subpart does not apply to those activities of the Facilities Engineering and Real Estate Branch, Facilities and Support Services Division, for which the branch does not have full fiscal responsibility for the entire project. This includes pilot plant construction, land acquisition, site clearing and access road construction where the Facilities Engineering and Real Estate Branch's activity is only supporting a project financed by a program office. Responsibility for considering the environmental impacts of such projects rests with the office managing and funding the entire project. Other subparts of this regulation apply depending on the nature of the project.

[44 FR 64177, Nov. 6, 1979, as amended at 51 FR 32613, Sept. 12, 1986]

### § 6.903 Criteria for preparing EISs.

(a) *Preliminary information.* The responsible official shall request an environmental information document from a construction contractor or consulting architect/engineer employed by

EPA if he is involved in the planning, construction or modification of special purpose facilities when his activities have potential environmental effects external to the facility. Such modifications include but are not limited to facility additions, changes in central heating systems or wastewater treatment systems, and land clearing for access roads and parking lots.

(b) *EIS preparation criteria.* The responsible official shall conduct an environmental review of all actions involving construction of special purpose facilities and improvements to these facilities. The responsible official shall assure that an EIS will be prepared when it is determined that any of the conditions in § 6.108 of this part exist.

[44 FR 64177, Nov. 6, 1979, as amended at 50 FR 26323, June 25, 1985]

### § 6.904 Environmental review process.

(a) *Environmental review.* (1) An environmental review shall be conducted when the program of requirements or scope of work has been completed for the construction, improvements, or modification of special purpose facilities. For special purpose facility construction, the Chief, Facilities Engineering and Real Estate Branch, shall request the assistance of the appropriate program office and Regional Administrator in the review. For modifications and improvement, the appropriate responsible official shall request assistance in making the review from other cognizant EPA offices.

(2) Any environmental information documents requested shall contain the same sections listed for EISs in subpart B. Contractors and consultants shall be notified in contractual documents when an environmental information document must be prepared.

(b) *Notice of intent, EIS, and FNSI.* The responsible official shall decide at the completion of the Environmental review whether there may be any significant environmental impacts. If there could be significant environmental impacts, a notice of intent and an EIS shall be prepared according to the procedures under subparts A, B, C and D. If there are not any significant environmental impacts, a FNSI shall be prepared according to the procedures in subparts A and D. The FNSI shall list

## §6.905

any mitigation measures necessary to make the recommended alternative environmentally acceptable.

(c) *Timing of action.* Pursuant to §6.401(b), in no case shall a contract be awarded or construction activities begun until the prescribed 30-day wait period for a final EIS has elapsed. Similarly, under §6.400(d), no action shall be taken until the 30-day comment period for FNSIs is completed.

### §6.905 Record of decision.

At the time of contract award, the responsible official shall prepare a record of decision in those cases where a final EIS has been issued in accordance with 40 CFR 1505.2. The record of decision shall list any mitigation measures necessary to make the recommended alternative environmentally acceptable.

## Subpart J—Assessing the Environmental Effects Abroad of EPA Actions

AUTHORITY: Executive Order 12114, 42 U.S.C. 4321, note.

SOURCE: 46 FR 3364, Jan. 14, 1981, unless otherwise noted.

### §6.1001 Purpose and policy.

(a) *Purpose.* On January 4, 1979, the President signed Executive Order 12114 entitled "Environmental Effects Abroad of Major Federal Actions." The purpose of this Executive Order is to enable responsible Federal officials in carrying out or approving major Federal actions which affect foreign nations or the global commons to be informed of pertinent environmental considerations and to consider fully the environmental impacts of the actions undertaken. While based on independent authority, this Order furthers the purpose of the National Environmental Policy Act (NEPA) (42 U.S.C. 4321 *et seq.*) and the Marine Protection Research and Sanctuaries Act (MPRSA) (33 U.S.C. 1401 *et seq.*). It should be noted, however, that in fulfilling its responsibilities under Executive Order 12114, EPA shall be guided by CEQ regulations only to the extent that they are made expressly applicable by this subpart. The procedures set

## 40 CFR Ch. I (7-1-04 Edition)

forth below reflect EPA's duties and responsibilities as required under the Executive Order and satisfy the requirement for issuance of procedures under section 2-1 of the Executive Order.

(b) *Policy.* It shall be the policy of this Agency to carry out the purpose and requirements of the Executive Order to the fullest extent possible. EPA, within the realm of its expertise, shall work with the Department of State and the Council on Environmental Quality to provide information to other Federal agencies and foreign nations to heighten awareness of and interest in the environment. EPA shall further cooperate to the extent possible with Federal agencies to lend special expertise and assistance in the preparation of required environmental documents under the Executive Order. EPA shall perform environmental reviews of activities significantly affecting the global commons and foreign nations as required under Executive Order 12114 and as set forth under these procedures.

### §6.1002 Applicability.

(a) Administrative actions requiring environmental review. The environmental review requirements apply to the activities of EPA as set forth below:

(1) Major research or demonstration projects which affect the global commons or a foreign nation.

(2) Ocean dumping activities carried out under section 102 of the MPRSA which affect the related environment.

(3) Major permitting or licensing by EPA of facilities which affect the global commons or the environment of a foreign nation. This may include such actions as the issuance by EPA of hazardous waste treatment, storage, or disposal facility permits pursuant to section 3005 of the Resource Conservation and Recovery Act (42 U.S.C. 6925), NPDES permits pursuant to section 402 of the Clean Water Act (33 U.S.C. 1342), and prevention of significant deterioration approvals pursuant to Part C of the Clean Air Act (42 U.S.C. 7470 *et seq.*).

(4) Wastewater Treatment Construction Grants Program under section 201 of the Clean Water Act when activities
